Implementing Public Safety Broadband Provisions of the Middle Class Tax Relief and Job Creation Act of 2012

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: In this document, the Public Safety and Homeland Security Bureau (Bureau) of the Commission implemented certain provisions of the Middle Class Tax Relief and Job Creation Act of 2012 (Public Safety Spectrum Act) governing deployment of a nationwide public safety broadband network in the 700 MHz band. Pursuant to clear statutory directives, the Bureau reallocated the D Block (758-763/788-793 MHz) for “public safety services” and delete Commission rules that are plainly inconsistent with this revised allocation; deleted the rules establishing, providing license authority with respect to, and governing operations under the Public Safety Broadband License in the existing public safety broadband spectrum; and adopted rules implementing the clear mandate of the Public Safety Spectrum Act to grant a license with respect to the public safety broadband spectrum (763-768/793-798 MHz), guard band (768-769/798-799 MHz), and the D Block to the First Responder Network Authority (FirstNet). By eliminating any confusion or uncertainty about the new regulatory framework applicable to the public safety broadband network, these action takes further steps necessary to facilitate the transition of this spectrum to FirstNet as required by the Act.

DATES: Effective November 14, 2012, except for the removal of §§ 90.18 and

90.528 of the Commission’s rules. The Commission will publish a separate document in the **Federal Register** announcing the subsequent effective date of these removals.

SUPPLEMENTARY INFORMATION: In the *Report and Order*, DA 12-1462, adopted and released September 7, 2012, the Bureau implements certain provisions of the Middle Class Tax Relief and Job Creation Act of 2012 (“Public Safety Spectrum Act” or “Act”)¹ governing deployment of a nationwide public safety broadband network in the 700 MHz band. The Public Safety Spectrum Act establishes the First Responder Network Authority (FirstNet) to oversee the construction and operation of this network as licensee of both the “existing public safety broadband spectrum” (763-769/793-799 MHz) and the spectrally adjacent “700 MHz D Block spectrum” (758-763/788-793 MHz).² The Act directs the Federal Communications Commission (FCC or Commission) to reallocate the D Block for public safety services,³ to license the D Block and the existing public safety broadband spectrum to FirstNet⁴ and to take other actions necessary to “facilitate the transition” of the existing public safety broadband spectrum to FirstNet.

In the *Report and Order*, the Bureau implements clear directives of Congress set forth in the Public Safety Spectrum Act. The Bureau reallocates the D Block for “public safety services” and deletes Commission rules that are plainly

inconsistent with this revised allocation. It also deletes the Commission rules establishing, providing license authority with respect to, and governing operations under the Public Safety Broadband License in the existing public safety broadband spectrum. The Bureau replaces these with rules implementing the clear mandate of the Public Safety Spectrum Act to grant a license with respect to this spectrum and the D Block to FirstNet. The rule changes adopted by the Bureau in this order are strictly limited to implementation of aspects of that mandate that leave no room for agency discretion, and thus fall within the Bureau’s delegated authority and are consistent with the requirements of the Administrative Procedure Act.⁵ As noted below, by eliminating any confusion or uncertainty about the new regulatory framework applicable to the public safety broadband network, the Bureau’s action takes further steps necessary to facilitate the transition of this spectrum to FirstNet as the prospective licensee established by the Act. The *Report and Order* is available at http://transition.fcc.gov/Daily_Releases/Daily_Business/2012/db0907/DA-12-1462A1.pdf.

This *Report and Order* will become effective November 14, 2012, except for the deletion of sections 90.18 and 90.528 of the Commission’s rules. Following that date, the Commission will publish a separate notice in the **Federal Register** announcing the subsequent effective date of these rule deletions, which shall be the date of issuance of a license to the First Responder Network Authority pursuant to Section 6201(a) of the Middle Class Tax Relief and Job Creation Act of 2012.

Under Section 603(a) of the Regulatory Flexibility Act (RFA), the Commission is not required to prepare a final regulatory flexibility analysis relating to the *Report and Order* because it was not required to publish general notice of proposed rulemaking before effecting the rule changes set forth

therein. The Report and Order contains no new or modified information collection requirements subject to the Paperwork Reduction Act of 1995 (PRA), Public Law 104-13. The Commission shall send a copy of the Report and Order in a report to be sent to Congress and the Government Accountability Office pursuant to the Congressional Review Act, see 5 U.S.C. 801(a)(1)(A).

50 CFR Part 622

[Docket No. 0907271173–0629–03]

RIN 0648–XC135

Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; 2012 Commercial Accountability Measure and Closure for South Atlantic Gag and South Atlantic Shallow-Water Grouper

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; closure.

SUMMARY: NMFS implements accountability measures (AMs) for the commercial sector for gag in the exclusive economic zone (EEZ) of the South Atlantic. Commercial landings for gag, as estimated by the Science Research Director, are projected to reach the commercial annual catch limit (ACL) on October 20, 2012. Therefore, NMFS closes the commercial sector for gag and all other South Atlantic Shallow-Water Grouper (SASWG) on October 20, 2012 for the remainder of the 2012 fishing year, through December 31, 2012. Because there is a January through April seasonal closure for

SASWG, SASWG will not reopen until May 1, 2013. In the South Atlantic, SASWG means gag, black grouper, red grouper, scamp, red hind, rock hind, yellowmouth grouper, yellowfin grouper, graysby, and coney. This action is necessary to reduce overfishing of the South Atlantic gag and other SASWG resources.

DATES: This rule is effective 12:01 a.m., local time, October 20, 2012, until 12:01 a.m., local time, January 1, 2013.

FOR FURTHER INFORMATION CONTACT: Catherine Hayslip, telephone: 727–824–5305, email: Catherine.Hayslip@noaa.gov.

SUPPLEMENTARY INFORMATION: The snapper-grouper fishery of the South Atlantic is managed under the Fishery Management Plan for the Snapper-Grouper Fishery of the South Atlantic Region (FMP). Gag in the South Atlantic are managed under this FMP. The FMP was prepared by the South Atlantic Fishery Management Council and is implemented under the authority of the Magnuson-Stevens Fishery Conservation and Management Act by regulations at 50 CFR part 622.

The commercial ACL (commercial quota) for gag in the South Atlantic is 352,940 lb (160,091 kg), gutted weight, for the current fishing year, as specified in 50 CFR 622.42(e)(7).

In accordance with regulations at 50 CFR 622.49(b)(3)(i), NMFS is required to close the commercial sector for gag and all other SASWG when the commercial ACL (commercial quota) for gag has been reached, or is projected to be reached, by filing a notification to that effect with the Office of the Federal Register. NMFS has determined that the commercial ACL (commercial quota) for South Atlantic gag will be reached by October 20. Accordingly, the commercial sector for South Atlantic gag and all other SASWG is closed effective 12:01 a.m., local time, October 20, 2012, until 12:01 a.m., local time, January 1, 2013. The recreational sector will continue to remain open until December 31, 2012.
