[Docket No. FR-5603-N-72]

**Notice of Submission of Proposed Information Collection to OMB Collection of Information From HUD Lead Hazard Control Grantees To Support a Review of the Federal Dust-lead Standards**

**AGENCY:** Office of the Chief Information Officer, HUD.

**ACTION:** Notice.

**SUMMARY:** The proposed information collection requirement described below has been submitted to the Office of Management and Budget (OMB) for review, as required by the Paperwork Reduction Act. The Department is soliciting public comments on the subject proposal.

Leaded paint in housing remains as the last major source of lead exposure to young children. Efforts to reduce childhood lead poisoning have focused on controlling lead paint hazards, specifically lead dust and deteriorated lead-based paint. Lead hazard control programs are looking for ways to make this housing safer without placing an undue financial burden on the property owners or tenants. On August 10, 2009, a petition was submitted to EPA [www.regulations.gov](http://www.regulations.gov); search for EPA-HQ-OPPT-2009-0655) to lower the definition of lead-based paint in pre-1978 "target" housing to some value below the current value of 1 mg/cm<sup>2</sup> or 0.5% by weight (42 U.S.C. 4822(c)), and to lower the lead hazard control standards and clearance standards for lead in dust on floors and window sills in such housing and in pre-1978 child-occupied facilities below the current values of 40 and 250 mg/ft<sup>2</sup> (micrograms per square foot), respectively (40 CFR 745.65(b) and 745.227(e)(8)(viii), and 24 CFR 35.1320(b)(2)(i)), and below the current clearance standard for window troughs of 400 mg/ft<sup>2</sup> (40 CFR 45.227(e)(8)(viii), and 24 CFR 35.1320(b)(2)(i)). The HUD Secretary may reduce the level that defines lead-based paint in target housing (42 U.S.C. 4822(c)), and the EPA Administrator identifies the lead-based paint hazard standards (15 U.S.C. 2683), and the lead-based paint standard (15 U.S.C.2683), and the lead-based paint standard in child-occupied facilities.

In a response dated October 22, 2009, EPA, writing on behalf of itself and HUD, agreed to study the issues and decide whether the lead hazard standards and/or the lead-based paint standard should be changed, and to
