Summary of Information Collection

Title 10, United States Code (U.S.C.) 1074g(f) makes drugs provided to eligible covered beneficiaries through the TRICARE Retail Pharmacy Program subject to the pricing standards of the Veterans Health Care Act. Under the authority of 10 U.S.C. 1074g(h), Title 32, Code of Federal Regulation (CFR) 199.21(q)(3) requires information collection to implement 10 U.S.C. 1074g(f). Specifically, under the collection of information, respondents (drug manufacturers) will base refund calculation reporting requirements on both the Federal Ceiling Price and the Federal Supply Schedule Price, whichever is lower. Previously, drug manufacturers' reporting requirements addressed only the Federal Ceiling Price. The DoD will use the reporting and audit capabilities of the Pharmacy Data Transaction Service (PDTs) to validate refunds owed to the Government.

Defense Acquisition Regulations System

Accelerated Payments to Small Business Subcontractors

AGENCY: Defense Acquisition Regulations System, Department of Defense (DoD).

ACTION: Notice.

SUMMARY: In accordance with the one-year temporary policy established in the OMB Memorandum, *Providing Prompt Payment to Small Business Subcontractors* (July 11, 2012), DoD has taken steps to accelerate Federal payments to prime contractors, so that prime contractors can expedite payments to their small business subcontractors.

DATES: Effective through July 10, 2013, unless otherwise rescinded or extended.

FOR FURTHER INFORMATION CONTACT: Mr. Mark Gomersall, telephone 571-372-6099.

SUPPLEMENTARY INFORMATION: OMB Memorandum M-12-16, *Providing Prompt Payment to Small Business Subcontractors* (July 11, 2012) establishes the Administration's initiative to accelerate Federal payments to prime contractors, so that prime contractors can, in turn, expedite payments to their small business subcontractors. Faster payments to small business subcontractors can improve their cash flow and provide the capital resources needed to expand their business opportunities. This can lead to a stronger supplier base that supports Federal prime contractors in meeting the needs of their Federal customers in a timely and cost-effective manner. The Memorandum is available at <http://www.whitehouse.gov/sites/default/files/omb/memoranda/2012/m-12-16.pdf>.

In accordance with the one-year temporary policy established in the OMB Memorandum, DoD has taken steps to make payments under the contract as soon as practicable, with the goal of paying its contractors within 15 days. DoD strongly encourages all prime contractors to accelerate payments to small business subcontractors under existing contracts to the maximum extent practicable.

The Federal Acquisition Regulatory Council (FAR Council) has recommended that Federal agencies issue deviations to the FAR, which permit immediate incorporation of the policy outlined in OMB Memorandum M-12-16 in solicitations and resultant contracts. In accordance with this recommendation, DoD has begun using a new contract clause, pursuant to Class Deviation 2012-O0014, "Providing Accelerated Payment to Small Business Subcontractors." This class deviation requires prime contractors, upon receipt of accelerated payments from the Government, to make accelerated payments to small business subcontractors to the maximum extent practicable after receipt of a proper invoice and all proper documentation from the small business subcontractor, while also maintaining necessary DoD internal controls. The FAR Council has opened FAR case 2012-031 to undertake rulemaking and obtain public comments to further implement OMB's policy.

Manuel Quinones,

Editor, Defense Acquisition Regulations System.

Department of the Army; Army Corps of Engineers

Notice of Intent to Prepare a Joint Environmental Impact Statement/ Environmental Impact Report for the Folsom Dam Water Control Manual Update

AGENCY: Department of the Army, U.S. Army Corps of Engineers; DOD.

ACTION: Notice of Intent.

SUMMARY: The U.S. Army Corps of Engineers, Sacramento District (USACE) intends to prepare a joint Environmental Impact Statement/Environmental Impact Report (EIS/EIR) for the Folsom Dam Water Control Manual Update (Folsom WCM Update). USACE will serve as lead agency and the Bureau of Reclamation will be a cooperating

agency for compliance with the National Environmental Policy Act (NEPA), and the Central Valley Flood Protection Board (CVFPB) will serve as lead agency for compliance with the California Environmental Quality Act (CEQA). The Folsom WCM Update is intended to improve the ability of Folsom Dam to utilize the new physical features to manage large flood events and meet dam safety requirements.

DATES: Written comments regarding the scope of the environmental analysis should be received by November 11, 2012.

ADDRESSES: Written comments and suggestions concerning this project and requests to be included on the project mailing list may be submitted to Tyler Stalker, U.S. Army Corps of Engineers, Sacramento District, Attn: Public Affairs Office (CESPK-PAO), 1325 J Street, Sacramento, CA 95814.

FOR FURTHER INFORMATION CONTACT: Tyler Stalker via telephone at (916) 557-5107, email at

Tyler.M.Stalker@usace.army.mil, or mail at (see **ADDRESSES**). Study information will also be posted periodically on the Internet at <http://www.spk.usace.army.mil/Missions/CivilWorks/JointFederalProject.aspx>

SUPPLEMENTARY INFORMATION:

1. *Proposed Action.* The Folsom WCM Update will identify, evaluate, and recommend changes to the flood management operation rules of Folsom Dam and Reservoir to reduce flood risk to the Sacramento area by utilizing the auxiliary spillway currently under construction and by incorporating an improved understanding of the American River watershed upstream of Folsom Dam. The findings of the evaluation will be used to help define the Dam's new flood operations plan, with the intention of meeting flood risk management objectives and dam safety requirements in a manner that conserves as much water as possible and maximizes all authorized Folsom Dam project uses to the extent practicable.

2. *Alternatives.* The EIS/EIR will develop new operational rules to meet dam safety and flood risk management objectives that comply with Congressional direction to reduce Folsom Reservoir variable space allocation from the current operating range of 400,000–670,000 acre-feet (ac-ft) to 400,000–600,000 ac-ft. In addition, the incorporation of improved forecasting capabilities and basin wetness parameters as part of flood management operations will be evaluated. A number of flood management operation alternatives are expected to be developed and the effect

of those alternatives on Folsom Dam and Reservoir's other authorized purposes will be analyzed in the EIS/EIR.

3. *Scoping Process.*

a. Two public scoping meetings will be held to present an overview of the Folsom WCM Update and the EIS/EIR process, and to afford all interested parties with an opportunity to provide comments regarding the scope of analysis and potential alternatives. The public scoping meetings will be held at the following locations, dates, and times: Sacramento Library Galleria, 828 I Street, Sacramento, CA. October 15th, 2012, 4 p.m. to 7 p.m. and Folsom Community Center, 52 Natoma Street, Folsom, CA. October 22nd, 2012, 4 p.m. to 7 p.m.

b. Potentially significant issues to be analyzed in depth in the EIS/EIR include project-specific, system-wide, and cumulative effects on authorized purposes of the Folsom Dam project and the environmental resources associated with those purposes. Effects analyzed will include: Water supply for irrigation, municipal, and industrial uses; fish and wildlife resources; power generation; water quality; recreation; special status species; soils and levee safety; and cultural resources.

c. USACE will consult with the U.S. Fish and Wildlife Service and National Marine Fisheries Service to comply with the Endangered Species Act, the Fish and Wildlife Coordination Act, and the requirements of the current Biological Opinions that affect the operations of Folsom Dam. USACE will consult with the State Historic Preservation Officer to comply with the National Historic Preservation Act. USACE will coordinate with the U.S. Bureau of Indian Affairs to establish consultation requirements with tribes having trust assets and tribal interests that could be affected by the WCM Update's outcome.

d. A 45-day public review period will be provided for individuals, interested parties, and agencies to review and comment on the draft EIS/EIR. All interested parties are encouraged to respond to this notice and provide a current address if they wish to be notified of the draft EIS/EIR circulation.

4. *Availability.* The draft EIS/EIR is scheduled to be available for public review and comment in 2015.

Army Federal Register Liaison Officer.
