SUPPLEMENTARY INFORMATION: The Self-Employment Training (SET)

Demonstration Evaluation examines a reemployment program targeted towards dislocated workers, as defined by the Workforce Investment Act, who wish to start or grow a business in their fields of expertise. The demonstration will seek to connect such workers to self-employment training, intensive business development assistance, and other services (including seed capital microgrants) to help them become more successful in self-employment. The main objective of the evaluation of the SET Demonstration is to understand whether providing dislocated workers with access to intensive business development services and self-employment training increases their likelihood of reemployment, their earnings, and their propensity to start a business.
