ARRA legislation indicates that agencies requiring additional information for oversight should rely on existing authorities and reflect these requirements in their award terms and conditions as necessary, following existing procedures. Therefore, to capture ARRA expenditures, the ACF–696 has been modified (by the addition of a column) for reporting ARRA expenditure data. In addition, a new data element will ask States and Territories to estimate the number of child service months funded with ARRA dollars. The collection will not duplicate other information.

Respondents: States and Territories.

The program expansion supplement awards will support expanded services to identify and analyze systems that will improve effectiveness and efficiencies across early childhood programs. The grantees will share action plans to improve outcomes and developing peer learning relationships.

**DATES:** September 29, 2012–September 30, 2013.

**FOR FURTHER INFORMATION CONTACT:** Yvette Sanchez Fuentes, Director, Office of Head Start, 1250 Maryland Ave SW., Washington, DC 20024. Telephone: 202–205–8573; Email: yvette.sanchezfuertes@acf.hhs.gov.

**SUPPLEMENTARY INFORMATION:** The program expansion supplemental grants will support the effective identification and analysis of actual and potential systems issues faced by tribes receiving all three ACF early learning grants: Head Start/Early Head Start, Tribal Child Care, and Tribal Maternal, Infant, and Early Childhood Home Visiting (MIECHV). The program expansion supplements will support coordination and collaboration activities such as identifying obstacles that could block efforts to build and maintain partnerships, piloting more effective coordination of Tribal Early Learning Programs, and development of alternative interventions and strategies in line with tribal community values, traditions, and priorities. The Tribal Early Learning Initiative is expected to accomplish the following:

- Identify and analyze systems issues, including obstacles that could block efforts to build and maintain partnerships in tribal communities, to fully and effectively coordinate Tribal Head Start/Early Head Start, Tribal Child Care, and Tribal MIECHV programs (Tribal Early Learning Programs), and to develop a menu of alternative interventions and strategies in line with tribal community values, traditions, and priorities.
- Develop tribally-driven goals and concrete objectives in each local tribal community for building effective and efficient early childhood systems and improved outcomes for young children and families including strategies to support parent, family, and community engagement.
- Develop and carry out concrete community plans for supporting and
strengthening cooperation, coordination, and resource sharing and leveraging among programs that support young children and families in the tribal community

- Share plans of action, barriers and challenges, opportunities and solutions, and the results of action plans with other tribal communities in an effort to further develop peer learning relationships.

The Office of Child Care will separately announce the award of four single-source program expansion supplement grants of up to $15,750 to the same Tribal grantees to support Tribal MIECHV-related activities as part of the Tribal Early Learning Initiative.

SUPPLEMENTARY INFORMATION: Tribes receiving funding under title IV–B, subpart 1, are required to address in the Annual Progress and Services Report (APS) how the Health Care Oversight and Coordination plan requirements are being met for Tribal children in foster care. The NRC4Tribes will address this need through the following:

1. The NRC4Tribes will convene a technical assistance key informant workgroup on the topic of Title IV–B Plan Prescription Medication Oversight for American Indian/Alaska Native children in tribal foster care systems. Tribal input will also be elicited to determine what type of technical assistance can support tribes in the development of prescription medication oversight plans.

2. Based upon the information gathered during these meetings and telephone calls, the NRC4Tribes, with input from the technical assistance key informant workgroup, will develop easy-to-understand step-by-step recommendations for tribes to follow in development of their plan for oversight and coordination of health care services for children in foster care.

Additional training and technical assistance will be provided through peer-to-peer training and technical assistance webinars, training teleconferences, and resource materials located on the NRC4Tribes Web site.

Bryan Samuels,
Commissioner, Administration on Children, Youth and Families.
