Summary of Collection: The Lacey Act, first enacted in 1900 and significantly amended in 1988, is the

United States' oldest Wildlife Protection Statute. The Act combats trafficking in “illegal” wildlife, fish, or plants. The Food, Conservation and Energy Act of 2008, which took effect May 22, 2008, amended the Lacey Act by expanding its protection to a broader range of plants and plant products (Section 8204, Prevention of Illegal Logging Practices).

Need and Use of the Information: Under the amended Lacey Act, importers are required to submit a declaration form (PPQ–505) for certain plants and plant products and PPQ–(505B) supplemental form to provide the declarer additional space to enter the required information, if needed. The declaration must contain, among other things, the scientific name of the plant, value of the importation, quantity of the plant, and name of the country from which the plant was harvested. If species varies or is unknown, importers will have to declare the name of each species that may have been used to produce the product. This information will be used to support investigations into illegal logging practices by the Justice Department and also acts as a deterrent to illegal logging practices worldwide.

Description of Respondents: Business or other for-profit.

Number of Respondents: 20,352.

Frequency of Responses: Recordkeeping; Reporting: On occasion.

Total Burden Hours: 203,846.
