OMB approval under the NCES system clearance for the Quick Response Information System (QRIS) (OMB #1850–0733) to conduct data collection for the Fast Response Survey System (FRSS) survey #105 on the condition of public school facilities. Congress has appropriated funds for NCES to conduct an FRSS survey on the condition of public school facilities, with a First Look report on the results to be released in late 2013. FRSS previously conducted a survey on this topic in 1999. The 2012–13 FRSS survey will cover many of the same topics as the 1999 survey, but will use a revised questionnaire. The current survey reflects lessons learned from the 1999 survey, topics and issues identified through literature review, with modifications based on two rounds of feasibility calls and two rounds of pretest calls (OMB# 1850–0803) with public school district personnel most knowledgeable about school facilities. As was done in 1999, schools will be sampled, but surveys will be sent to districts, where facilities personnel and records are located. Changes to questionnaires were made based on the feedback received from pretests. A revised questionnaire is being submitted with this request for OMB clearance.

Darrin A. King,
Director, Information Collection Clearance Division, Privacy, Information and Records Management Services, Office of Management.

Hydrogen and Fuel Cell Technical Advisory Committee (HTAC)

ACTION: Notice of Open Meeting.

SUMMARY: The Hydrogen and Fuel Cell Technical Advisory Committee (HTAC) was established under section 807 of the Energy Policy Act of 2005 (EPACT), Public Law 109–58; 119 Stat. 849. The Federal Advisory Committee Act, Public Law 92–463, 86 Stat. 770, requires that agencies publish notice of an advisory committee meeting in the Federal Register. To attend the meeting and/or to make oral statements during the public comment period, please register no later than 5:00 p.m. on Tuesday, November 6, 2012 by email at: HTAC@nrel.gov. An early confirmation of attendance will help to facilitate access to the building more quickly. Entry to the building will be restricted to those who have confirmed their attendance in advance. Please provide your name, organization, citizenship, and contact information, and indicate whether you want to make an oral statement. Anyone attending the meeting will be required to present government issued identification.

DATES: Thursday, November 15, 2012, 9:00 a.m.–6:00 p.m. Friday, November 16, 2012, 9:00 a.m.–12:30 p.m.

ADDRESS: National Renewable Energy Laboratory (NREL); 901 D Street SW., Suite 930; Washington, DC 20024.

FOR FURTHER INFORMATION CONTACT: HTAC@nrel.gov.

SUPPLEMENTARY INFORMATION:

Purpose of the Meeting: To provide advice, information, and recommendations to the Secretary on the program authorized by Title VIII of EPACT.

Tentative Agenda: (updates will be posted on the web at: http://hydrogen.energy.gov).

• Public Comment
• DOE Program Updates
• Congressional Fuel Cell Caucuses
• NREL Reports on Hydrogen in Natural Gas Pipelines and Infrastructure Cost
• Natural Gas Drilling and Availability
• Future Transportation Fuels Study
• Northeast Initiative Update
• Overview of Hydrogen Analysis at University of California, Davis
• Department of Defense Hydrogen and Fuel Cells Update

Public Participation: The meeting is open to the public. Individuals who would like to attend must register no later than 5:00 p.m. on Tuesday, November 6, 2012, by email at: HTAC@nrel.gov. An early confirmation of attendance will help to facilitate access to the building more quickly. Entry to the building will be restricted to those who have confirmed their attendance in advance. Please provide your name, organization, citizenship, and contact information. Anyone attending the meeting will be required to present government-issued identification. Those wishing to make a public comment are required to register. The public comment period will take place between 9:00 a.m. and 9:30 a.m. on November 15, 2012. Time allotted per speaker will depend on the number who wish to speak but will not exceed 5 minutes. Those not able to attend the meeting or have insufficient time to address the committee are invited to send a written statement by email to: HTAC@nrel.gov.

Minutes: The minutes of the meeting will be available for public review at the following Web site: http://hydrogen.energy.gov.

Issued at Washington, DC, on October 23, 2012.

LaTanya R. Butler, Acting Deputy Committee Management Officer.

[Docket No. CP13–6–000]

Eastern Shore Natural Gas Company; Notice of Application

Take notice that on October 12, 2012, Eastern Shore Natural Gas Company (Eastern Shore), 1110 Forrest Avenue, Dover, Delaware 19904, filed in the above referenced docket an application pursuant to section 7 of the Natural Gas Act (NGA) for authorization to construct and operate certain new compression facilities within existing property at Eastern Shore’s Daleville Compression Station in Chester County, Pennsylvania. Eastern Shore states that the proposed project will provide 17,500 dekatherms per day of firm capacity to two existing customers, all as more fully set forth in the application which is on file with the Commission and open to public inspection. The filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission’s Web site web at http://www.ferc.gov using the “eLibrary” link. Enter the docket number field to access the document. For assistance, contact FERC at FERConlineSupport@ferc.gov or call toll-free, (888) 208–3676 or TYY, (202) 502–8659.

Any questions concerning this application may be directed to William B. Zipf, Vice-President, Eastern Shore Natural Gas Company, 1110 Forrest Avenue, Suite 201, Dover, Delaware 19904, by telephone at (302) 736–7624, by facsimile at (302) 734–6745, or by email at wzipf@esng.com.

There are two ways to become involved in the Commission’s review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below file with the Federal
Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission’s Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit seven copies of filings made in the proceeding with the Commission and must mail a copy to the applicant and to every other party. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission’s rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentors will be placed on the Commission’s environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission’s environmental review process. Environmental commentors will not be required to serve copies of filed documents on all other parties. However, the non-party commentors will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission’s final order.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the “eFiling” link at http://www.ferc.gov. Persons unable to file electronically should submit an original and seven copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426. This filing is accessible on-line at http://www.ferc.gov, using the “eLibrary” link and is available for review in the Commission’s Public Reference Room in Washington, DC. There is an “eSubscription” link on the web site that enables subscribers to receive email notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please email FERCOnlineSupport@ferc.gov, or call (866) 208–3676 (toll free). For TTY, call (202) 502–8659.

Comment Date: November 13, 2012.
Kimberly D. Bose,
Secretary.

DEPARTMENT OF ENERGY
Federal Energy Regulatory Commission
[Docket No. CP13–7–000]
Energy Corporation of America; Eastern American Energy Corporation; First ECA Midstream LLC; Notice of Application
Take notice that on October 16, 2012, Energy Corporation of America and Eastern American Energy Corporation (collectively, ECA), and First ECA Midstream LLC (First ECA Midstream), 501 56th Street SE., Charleston, West Virginia 25304, jointly filed in Docket No. CP13–2–000, an application requesting: (1) Authorization, pursuant to section 7(b) of the Natural Gas Act (NGA) and Part 157 of the Commission’s regulations, to abandon the limited jurisdiction certificate issued to ECA on March 25, 2004 in Docket No. CP03–355–000; and (2) issuance, pursuant to section 7(c) of the NGA and Part 157 of the Commission’s regulations, of a limited jurisdiction certificate to First ECA Midstream to allow it to continue operating certain gathering facilities located in West Virginia acquired by First ECA Midstream from ECA (Line 8000 System) in the same manner as ECA has operated the facilities, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The applicants explain that First ECA Midstream has acquired the Line 8000 System from ECA. ECA’s limited jurisdiction certificate allowed gas volumes to be received into the Line 8000 System from Columbia Gas Transmission, LLC (Columbia) in order to provide service to the extent local production gathered by the system became insufficient to meet customers’ needs. The applicants state that First ECA, as the new owner and operator of the Line 8000 System, requires a limited jurisdiction certificate for the same purpose, and they request an order on or before December 1, 2012 to enable First ECA Midstream to receive gas from Columbia if necessary during the winter season.

Any questions regarding this application should be directed to: Donald C. Supcoe, Energy Corporation of America, 501 56th Street SE., Charleston, WV 25304, or phone (304) 925–6100, or email DSupcoe@energycorporationofamerica.com; and Randall S. Rich, Pierce Atwood LLP, 900 17th Street NW., Suite 350, Washington, DC 20006, or phone (202) 470–6424, or email rrich@pierceatwood.com.

There are two ways to become involved in the Commission’s review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below, file with the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission’s Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10).
