Fisheries of the Exclusive Economic Zone Off Alaska; Revisions to IFQ Program Regulations

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Proposed rule; request for comments.

SUMMARY: NMFS proposes a regulatory amendment to the vessel ownership requirement of the Individual Fishing Quota (IFQ) Program for fixed-gear Pacific halibut and sablefish fisheries in and off of Alaska. The IFQ Program requires that initial recipients of certain classes of quota shares own a minimum of 20-percent interest in any vessel on which they hire a master to fish their IFQ permits. This action proposes to require such quota share holders to have held a minimum of 20-percent ownership interest in the vessel for at least 12 consecutive months prior to the submission of any application to hire a master. This proposed action also would temporarily exempt from the 12-month ownership requirement an initial recipient whose vessel has been totally lost, as by sinking or fire, or so damaged that the vessel would require at least 60 days to be repaired. This action is necessary to maintain a predominantly owner-operated fishery. This action is intended to promote the goals and objectives of the Magnuson-Stevens Fishery Conservation and Management Act, the Northern Pacific Halibut Act of 1982, the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area, the Fishery Management Plan for Groundfish of the Gulf of Alaska, and other applicable laws.

DATES: Comments on the proposed rule and supporting documents must be received by November 30, 2012.
