ENVIRONMENTAL PROTECTION AGENCY

Agency Information Collection Activities; Proposed Collection; Comment Request; Part B Permit Application, Permit Modifications, and Special Permits

AGENCY: Environmental Protection Agency.

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) is planning to submit an information collection request (ICR), “Part B Permit Application, Permit Modifications, and Special Permits” (EPA ICR No. 1573.13, OMB Control No. 2050–0009) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (44 U.S.C. 3501 et seq.). Before doing so, EPA is soliciting public comments on specific aspects of the proposed information collection as described below. This is a proposed extension of the ICR, which is currently approved through February 28, 2013. An Agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Comments must be submitted on or before January 4, 2013.

ADDRESSES: Submit your comments, referencing by Docket ID No. EPA–HQ–RCRA–2012–0757, online using www.regulations.gov (our preferred method), by email to rcra-docket@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW., Washington, DC 20460.

EPA’s policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

SUPPLEMENTARY INFORMATION:

Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, EPA West, Room 3334, 1301 Constitution Ave. NW., Washington, DC. The telephone number for the Docket Center is 202–566–1744. For additional information about EPA’s public docket, visit http://www.epa.gov/dockets.

Pursuant to section 3506(c)(2)(A) of the PRA, EPA is soliciting comments and information to enable it to: (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (ii) evaluate the accuracy of the Agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) enhance the quality, utility, and clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, EPA will issue another Federal Register notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: Section 3005 of Subtitle C of RCRA requires treatment, storage or disposal facilities (TSDFs) to obtain a permit. To obtain the permit, the TSDFs must submit an application describing the facility’s operation. There are two parts to the RCRA permit application—Part A and Part B. Part A defines the processes to be used for treatment, storage, and disposal of hazardous wastes; the design capacity of such processes; and the specific hazardous wastes to be handled at the facility. Part B requires detailed site specific information such as geologic, hydrologic, and engineering data. In the event that permit modifications are proposed by the applicant or EPA, modifications must conform to the requirements under Sections 3004 and 3005.

Form Numbers: None.

Respondents/affected entities: Business or other for-profit; as well as State, Local, or Tribal governments.

Respondent’s obligation to respond: Mandatory (RCRA 3005).

ENVIRONMENTAL PROTECTION AGENCY
Adequacy of Arizona Municipal Solid Waste Landfill Permit Program

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of public hearing and continued opportunity to comment.

SUMMARY: The Environmental Protection Agency Region IX will hold a public hearing concerning the agency’s tentative determination to approve a modification to Arizona’s municipal solid waste landfill (MSWLF) permit program to allow the State to issue research, development, and demonstration (RD&D) permits for new and existing MSWLF units and lateral expansions. EPA published its tentative determination on February 22, 2011 and offered an opportunity for a public hearing. Initially, EPA closed its comment period on April 25, 2011 and announced it would not hold a public hearing. Since that time, in response to public interest and updates to Arizona’s RD&D permit program, EPA decided to hold a public hearing, extend the comment period through the date of the public hearing, and make available for public review the updated information submitted by Arizona in support of its RD&D program.
DATES: EPA will hold a public hearing on December 18, 2012 at 6:00 p.m. in Room 145 on the first floor of the office of the Arizona Department of Environmental Quality at 1110 West Washington Street, Phoenix, Arizona. Comments must be received on or before December 18, 2012. EPA will accept all comments received between February 22, 2011 and December 18, 2012.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA–R09–RCRA–2011–0103 by one of the following methods:

EPA’s policy is that all comments received will be included in the public docket without change and may be made available online at www.regulations.gov, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit information that you consider to be CBI or otherwise protected through www.regulations.gov or email. The www.regulations.gov Web site is an “anonymous access” system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an email comment directly to EPA without going through www.regulations.gov your email address will be automatically captured and included as part of the comment that is placed in the public docket and made available on the Internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment with any disk or CD–ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, or any form of encryption, and be free of any defects or viruses.

Docket: All documents in the docket are listed in the www.regulations.gov index. Although listed in the index, some information is not publicly available, e.g., CBI or other information disclosure of which is restricted by statute. SUPPLEMENTARY INFORMATION:
I. General Information
A. Background
On March 22, 2004, EPA issued a final rule amending the municipal solid waste landfill criteria at 40 CFR 258.4 to allow for Research, Development, and Demonstration (RD&D) permits (69 FR 13242). This rule allows for variances from specified criteria for a limited period of time. Specifically, the rule allows the Director of an EPA-approved State permit program to issue a time-limited RD&D permit for a new MSWLF unit, existing MSWLF unit, lateral expansion, or the operator proposes to use innovative and new methods which vary from either or both of the following: (1) The run-on control systems at 40 CFR 258.26, and/or (2) the liquids restrictions at 40 CFR 258.28(a), provided that the MSWLF unit has a leachate collection system designed and constructed to maintain less than a 30 cm depth of leachate on the liner. The rule also allows the Director of an EPA-approved State permit program to issue a time-limited RD&D permit for which the owner or operator proposes to use innovative and new methods that vary from the final cover criteria at 40 CFR 258.60(a) (1) and (2), and (b) (1), provided that the owner or operator demonstrates that the alternative cover system will not contaminate groundwater or surface water, or cause leachate depth on the liner to exceed 30 cm. An RD&D permit cannot exceed three years and a renewal of an RD&D permit cannot extend three years. Although multiple renewals of an RD&D permit can be issued, the total term for an RD&D permit including renewals cannot exceed twelve years.

RD&D permits are only available in states with EPA-approved MSWLF permit programs that have been modified to incorporate the RD&D permit authority. Although a state is not required to seek approval for the RD&D permit provision, a state must obtain EPA approval before it may issue such a permit. Requirements for EPA’s determination of a state program’s adequacy and the approval procedures are contained in 40 CFR Part 239.

In 1994, EPA Region IX approved the State of Arizona’s municipal solid waste landfill (MSWLF) permit program pursuant to Subtitle D of the federal Resource Conservation and Recovery Act (RCRA). By application dated June 28, 2010, updated on January 26, 2011 and September 27, 2012, the State of Arizona is seeking EPA approval for a modification to the State’s existing MSWLF permit program to include RD&D permits. On February 22, 2011, EPA published a tentative approval of Arizona’s RD&D permit program modification. (76 FR 9772).

Following the close of the public hearing and the public comment period, and after consideration of comments received, EPA will issue a final determination. If EPA grants an Arizona permit, the State will be able to issue variances for run-on control systems, liquid restrictions, and final cover criteria to allow for innovative and new methods, such as bioreactor landfills. The approval of the program modification will allow the Director of Arizona’s program to provide a variance from certain MSWLF criteria, provided that the MSWLF owner/operator demonstrates that compliance with the RD&D permit will not increase risk to human health and the environment. The Director may provide a variance from existing requirements of MSWLF criteria for run-on control systems, liquids restrictions, and final cover. EPA is seeking public comment on its tentative determination of the adequacy of Arizona’s RD&D modification to its MSWLF permit program.
