

nor is it likely to become in danger of extinction in the foreseeable future.

These overall results of our status review portray a species that still occupies its historical range, although at lower and declining abundance, but with both biological characteristics and, potentially, management measures that help maintain the population above the viability threshold. Our information does not indicate that this status is likely to change within the foreseeable future.

Based on these results, we conclude that the bumphead parrotfish is not currently in danger of extinction throughout its range or throughout SPOIR, and is not likely to become in danger of extinction within the foreseeable future. Accordingly, the species does not meet the definition of threatened or endangered. Based on these findings, our listing determination is that the bumphead parrotfish does not warrant listing as threatened or endangered at this time.

Fisheries of the Gulf of Mexico; Southeast Data, Assessment, and Review (SEDAR); Assessment Process Webinar for Gulf of Mexico Spanish Mackerel and Cobia

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of SEDAR 28 Gulf of Mexico Spanish mackerel and cobia assessment webinar.

SUMMARY: The SEDAR 28 assessment of the Gulf of Mexico Spanish mackerel

and cobia fisheries will consist of a series of workshops and supplemental webinars. This notice is for a webinar associated with the Assessment portion of the SEDAR process.

DATES: The SEDAR 28 Assessment Workshop Webinar will be held on November 26, 2012, from 1 p.m. until 5 p.m. EDT. The established time may be adjusted as necessary to accommodate the timely completion of discussion relevant to the assessment process. Such adjustments may result in the meeting being extended from, or completed prior to, the times established by this notice.

ADDRESSES: The webinar will be held via a GoToMeeting Webinar Conference. The webinar is open to members of the public. Those interested in participating should contact Ryan Rindone at SEDAR (see **FOR FURTHER INFORMATION CONTACT**) to request an invitation providing webinar access information. Please request meeting information at least 24 hours in advance.

FOR FURTHER INFORMATION CONTACT:

Ryan Rindone, SEDAR Coordinator, 2203 N Lois Ave, Suite 1100, Tampa FL 33607; telephone: (813) 348-1630; email: ryan.rindone@gulfcouncil.org

SUPPLEMENTARY INFORMATION: The Gulf of Mexico Fishery Management Council (GMFMC), in conjunction with NOAA Fisheries, has implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a three-step process including: (1) Data Workshop; (2) Assessment Process, including a workshop and webinars; and (3) Review Workshop. The product of the Data Workshop is a data report which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The product of the Assessment Process is a stock assessment report which describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The assessment is independently peer reviewed at the Review Workshop. The product of the Review Workshop is a summary documenting panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the GMFMC, NOAA Fisheries Southeast Regional Office, and the NOAA Southeast Fisheries Science Center. Participants include: Data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen,

environmentalists, and non-governmental organizations (NGOs); international experts; and staff of Councils, Commissions, and state and federal agencies.

SEDAR 28 Assessment Workshop Webinar

Panelists will continue deliberations and discussions regarding modeling methodologies for the Gulf of Mexico Spanish mackerel and cobia fisheries.

Special Accommodations

This meeting is accessible to people with disabilities. Requests for auxiliary aids should be directed to the Council office (see **FOR FURTHER INFORMATION CONTACT**) at least 10 business days prior to the meeting.

Dated: November 1, 2012.

Tracey L. Thompson,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

United States Patent and Trademark Office

Submission for OMB Review; Comment Request

The United States Patent and Trademark Office (USPTO) will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: United States Patent and Trademark Office (USPTO).

Title: Invention Promoters/Promotion Firms Complaints.

Form Number(s): PTO/SB/2048.

Agency Approval Number: 0651-0044.

Type of Request: Revision of a currently approved collection.

Burden: 18 hours annually.

Number of Respondents: 50 responses per year.

Avg. Hours per Response: The USPTO estimates that it will take the public approximately 15 minutes (0.25 hours) to gather the necessary information, prepare the form, and submit a complaint to the USPTO and approximately 30 minutes (0.5 hours) for an invention promoter or promotion firm to prepare and submit a response to a complaint.

Needs and Uses: The Inventors' Rights Act of 1999 requires the USPTO to provide a forum for the publication of complaints concerning invention
