Summarized:
On November 1, 2012, the Federal Highway Administration (FHWA) issued a Final Record of Decision (ROD) for the SR–75/282 Transportation Corridor Project in San Diego County, west of the San Diego–Coronado Bridge and Fourth Street Bridge and uses the Fourth Street and Third Street couplet to the naval Station Air Station North Island (NASNI). The project proposed various alternatives to improve traffic congestion encountered along State Routes 75 and 282, which included a Transportation Demand Management alternative, a Transportation System Management alternative, Grade Separation alternatives, Cut and Cover Tunnel alternatives and Bored Tunnel alternatives. The distance of the project is approximately 1.5 miles.

Issued on: November 1, 2012.

Notice of Final Federal Agency Actions on Proposed Highway in California

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of Final Federal Agency Actions on Proposed Highway in California

SUMMARY: The FHWA, on behalf of the California Department of Transportation (Caltrans), is advising the general public that Caltrans conducted studies of the potential environmental impacts associated with the proposed highway project. The SR–75/282 Transportation Corridor Project is located in San Diego County, west of the San Diego–Coronado Bridge and uses the Fourth Street and Third Street couplet to the naval Station Air Station North Island (NASNI). The project proposed various alternatives to improve traffic congestion encountered along State Routes 75 and 282, which included a Transportation Demand Management alternative, a Transportation System Management alternative, Grade Separation alternatives, Cut and Cover Tunnel alternatives and Bored Tunnel alternatives. The distance of the project is approximately 1.5 miles.

Issued on: November 1, 2012.

ISSUE: The FHWA, on behalf of Caltrans, is issuing this notice to announce actions taken by Caltrans, that are final within the meaning of 23 U.S.C. 139(f)(1). The actions relate to a proposed local bridge project, the 6th Street Viaduct Seismic Improvement Project in downtown Los Angeles over the Los Angeles River (Bridge No. 53C–1880) and the 6th Street Viaduct Overcrossing, which also spans the US 101 Hollywood Freeway. The purpose of this project is to reduce the vulnerability of the structure in a major earthquake event and resolve design deficiencies. The project will take approximately four years to complete. The FHWA project reference number is 5006 (342). The actions by the Federal agencies, and the laws under which such actions were taken, are described in the Final Environmental Impact Statement (FEIS) for the project, approved on October 5, 2011, in the FHWA Record of Decision (ROD) issued on December 21, 2011, and in other documents in the FHWA project records. The FEIS, ROD, and other project records are available by contacting Caltrans at the addresses provided above. The Caltrans FEIS and ROD can be viewed and downloaded from the project web site at http://www.dot.ca.gov/dist07/resources/envdocs/. This notice applies to all Federal agency decisions as of the issuance date of this notice and all laws under which such actions were taken, including but not limited to

1. National Environmental Policy Act (NEPA)
2. Safe, Accountable, Flexible and Efficient Transportation Equity Act: A Legacy for Users (SAFETEA–LU)
