quantity associated with those transactions, the Department will direct CBP to assess importer-specific assessment rates based on the resulting per-unit rates. Where an importer- (or customer-) specific ad valorem or per-unit rate is greater than de minimis, the Department will instruct CBP to collect the appropriate duties at the time of liquidation. Where an importer- (or customer-) specific ad valorem or per-unit rate is zero or de minimis, the Department will instruct CBP to liquidate appropriate entries without regard to antidumping duties.

Cash Deposit Requirements

The following cash deposit requirements will be effective upon publication of the final results of this administrative review for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided by sections 751(a)(2)(C) of the Act: (1) For the exporters listed above, the cash deposit rate will be established in the final results of this review (except, if the rate is zero or de minimis, then no cash deposit will be required); (2) for previously investigated or reviewed PRC and non-PRC exporters not listed above that received a separate rate in a prior segment of this proceeding, the cash deposit rate will continue to be the exporter-specific rate published for the most recent period; (3) for all PRC exporters of subject merchandise that have not been found to be entitled to a separate rate, the cash deposit rate will be the PRC-wide rate of 187.25 percent; and (4) for all non-PRC exporters of subject merchandise which have not received their own rate, the cash deposit rate will be the rate applicable to the PRC exporter that supplied that non-PRC exporter. These deposit requirements, when imposed, shall remain in effect until further notice.

Notification to importers

This notice also serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Department’s presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This determination is issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act and 19 CFR 351.221(b)(4).

Dated: November 1, 2012.

Paul Piquado,
Assistant Secretary for Import Administration.

BILLING CODE 3510–DS–P

DEPARTMENT OF COMMERCE
International Trade Administration
[A–201–830]

AGENCY: Import Administration, International Trade Administration, U.S. Department of Commerce.

SUMMARY: In response to requests from interested parties, the Department of Commerce (the Department) is conducting an administrative review of the antidumping duty order on carbon and certain alloy steel wire rod (wire rod) from Mexico. The period of review is October 1, 2010, through September 30, 2011, and the review covers one producer/exporter of the subject merchandise, Deacero S.A. de C.V., and Deacero USA, Inc. (collectively, Deacero). We have preliminarily found that sales of the subject merchandise have been made at prices below normal value.

FOR FURTHER INFORMATION CONTACT: Patricia M. Tran or Eric B. Greynolds, AD/CVD Operations, Office 3, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington DC 20230; telephone (202) 482–1503 or (202) 482–6071, respectively.

SUPPLEMENTARY INFORMATION:

Scope of the Order

The merchandise subject to this order is carbon and certain alloy steel wire rod. The product is currently classified under the Harmonized Tariff Schedule of the United States (HTSUS) item numbers 7213.91.3010, 7213.91.3090, 7213.91.4510, 7213.91.4590, 7213.91.6010, 7213.91.6090, 7213.99.0031, 7213.99.0038, 7213.99.0090, 7227.20.0010, 7227.20.0020, 7227.20.0090, 7227.20.0091, 7227.90.6053, 7227.90.6055, and 7227.90.6059. Although the HTS numbers are provided for convenience and customs purposes, the written product description, available in Notice of Antidumping Duty Orders: Carbon and Certain Alloy Steel Wire Rod from Brazil, Indonesia, Mexico, Moldova, Trinidad and Tobago, and Ukraine, 67 FR 65945 (October 29, 2002), remains dispositive.

On October 1, 2012, the Department published Carbon and Certain Alloy Steel Wire Rod from Mexico: Affirmative Final Determination of Circumvention of the Antidumping Duty Order. The Department found that shipments of wire rod with an actual diameter of 4.75 mm to 5.00 mm produced in Mexico and exported to the United States by Deacero constitute merchandise altered in form or appearance in such minor respects that it should be included within the scope of the order on wire rod from Mexico.

Methodology

The Department is conducting this review in accordance with section 751(a)(2) of the Tariff Act of 1930, as amended (the Act). Constructed export prices have been calculated in accordance with section 772 of the Act. Normal value is calculated in accordance with section 773 of the Act. Petitioners filed an allegation demonstrating that Deacero made sales below the cost of production. We have reasonable grounds to believe or suspect that Deacero’s sales of the foreign like product under consideration for the determination of normal value in this review may have been made at prices below the cost of production (COP) as provided by section 773(b)(2)(A)(ii) of the Act. Accordingly, pursuant to section 773(b)(1) of the Act, we have conducted a COP analysis of Deacero’s sales in Mexico in this review. Based on this test, we disregarded certain sales made by Deacero in its comparison markets which were made at below-cost prices.

For a full description of the methodology underlying our conclusions, please see the memorandum from Christian Marsh, Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations, to Paul Piquado, Assistant Secretary for Import Administration, “Decision Memorandum for Preliminary Results of Antidumping Duty Administrative Review: Carbon and Certain Alloy Steel Wire Rod from Mexico” (Preliminary Decision

Memorandum), dated concurrently with these results and hereby adopted by this notice. The Preliminary Decision Memorandum is a public document and is on file electronically via Import Administration’s Antidumping and Countervailing Duty Centralized Electronic Service System (IA ACCESS). IA ACCESS is available to registered users at http://iaaccess.trade.gov and in the Central Records Unit (CRU), room 7046 of the main Department of Commerce building. In addition, a complete version of the Preliminary Decision Memorandum can be accessed directly on the Internet at http://www.trade.gov/ia/. The signed Preliminary Decision Memorandum and the electronic versions of the Preliminary Decision Memorandum are identical in content.

Preliminary Results of the Review
As a result of this review, we preliminarily determine that a dumping margin of 12.31 percent exists for Deacero for the period October 1, 2010, through September 30, 2011.

Disclosure and Public Comment
The Department intends to disclose to interested parties the calculations performed in connection with these preliminary results within five days of the date of publication of this notice. Pursuant to 19 CFR 351.309(c), interested parties may submit cases briefs not later than 30 days after the date of publication of this notice. Rebuttal briefs, limited to issues raised in the case briefs, may be filed not later than five days after the date for filing case briefs. Parties who submit case briefs or rebuttal briefs in this proceeding are encouraged to submit with each argument: (1) A statement of the issue, (2) a brief summary of the argument, and (3) a table of authorities.

Pursuant to 19 CFR 351.310(c), interested parties who wish to request a hearing, or to participate if one is requested, must submit a written request to the Assistant Secretary for Import Administration, filed electronically via IA ACCESS within 30 days after the date of publication of this notice. Requests should contain: (1) The party’s name, address, and telephone number; (2) the number of participants; and (3) a list of the issues to be discussed. Issues raised in the hearing will be limited to those raised in the respective case briefs. The Department will issue the final results of this administrative review, including the results of its analysis of the issues raised by the parties in any written briefs, not later 120 days after the date of publication of this notice, pursuant to section 751(a)(3)(A) of the Act.

Assessment Rate
Upon issuance of the final results, the Department shall determine, and U.S. Customs and Border Protection (CBP) shall assess, antidumping duties on all appropriate entries covered by this review. Deacero reported the name of the importer of record and the entered value for all of its sales to the United Stated during the POR. If Deacero’s weighted-average dumping margin is above de minimis, we will calculate importer-specific ad valorem duty assessment rates based on the ratio of the total amount of dumping calculated for the importer’s examined sales to the total entered value of those same sales in accordance with 19 CFR 351.212(b)(1). We will instruct CBP to assess antidumping duties on all appropriate entries covered by this review when the importer-specific assessment rate calculated in the final results of this review is above de minimis (i.e., 0.50 percent). Where either the respondent’s weighted-average dumping margin is zero or de minimis, or an importer-specific assessment rate is zero or de minimis, we will instruct CBP to liquidate the appropriate entries without regard to antidumping duties. The final results of this review shall be the basis for the assessment of antidumping duties on entries of merchandise covered by the final results of this review where applicable.

The Department clarified its “automatic assessment” regulation on May 6, 2003. This clarification will apply to entries of subject merchandise during the POR produced by each respondent for which they did not know that their merchandise was destined for the United States. In such instances, we will instruct CBP to liquidate unreviewed entries at the all-others rate if there is no rate for the intermediate company(ies) involved in the transaction. For a full discussion of this clarification, see Antidumping and Countervailing Duty Proceedings: Assessment of Antidumping Duties, 68 FR 23954 (May 6, 2003).

Cash Deposit Requirements
The following cash deposit requirements will be effective upon publication of the notice of final results of administrative review for all shipments of subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication of the final results of this administrative review, as provided by section 751(a)(2) of the Act: (1) The cash deposit rate for Deacero will be the rate established in the final results of this administrative review; (2) for merchandise exported by manufacturers or exporters not covered in this administrative review but covered in a prior segment of the proceeding, the cash deposit rate will continue to be the company-specific rate published for the most recent period; (3) if the exporter is not a firm covered in this review, a prior review, or the original investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; and (4) the cash deposit rate for all other manufacturers or exporters will continue to be 20.11 percent, the all-others rate established in the investigation. These cash deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers
This notice also serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary’s presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

We are issuing and publishing these results in accordance with sections 751(a)(1) and 777(i)(1) of the Act and 19 CFR 351.213.

2 See 19 CFR 351.224(b).
3 See 19 CFR 351.309(d).
4 See 19 CFR 351.309(c)(2) and (d)(2).
5 See 19 CFR 351.310(c).
6 See Notice of Final Determination of Sales at Less Than Fair Value: Carbon and Certain Alloy Steel Wire Rod From Mexico, 67 FR 55800 (August 30, 2002).
7 See Notice of Final Determination of Sales at Less Than Fair Value: Carbon and Certain Alloy Steel Wire Rod From Mexico, 67 FR 8101 (February 14, 2012).
Dated: November 1, 2012.

Paul Piquado,
Assistant Secretary for Import Administration.

Appendix I

List of Topics Discussed in the Preliminary Decision Memorandum

1. Universe of U.S. Sales
2. Targeted Dumping
3. Fair Value Comparisons
4. Product Comparisons
5. Date of Sale
6. Constructed Export Price
7. Normal Value
8. Affiliated Respondents
9. Cost of Production Analysis
10. Currency Conversion

Summary:

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: As a result of the determinations by the Department of Commerce ("the Department") that revocation of the antidumping duty ("AD") orders on silicomanganese from the People’s Republic of China ("PRC") and Ukraine would likely lead to continuation or recurrence of dumping, and the determinations by the U.S. International Trade Commission ("the ITC") that revocation of these AD orders would likely lead to a continuation or recurrence of material injury to an industry in the United States, the Department is publishing this notice of the continuation of these orders.

FOR FURTHER INFORMATION CONTACT:

SUPPLEMENTARY INFORMATION:

Background

On August 1, 2011, the Department initiated and the ITC instituted sunset reviews of the AD orders on silicomanganese from the PRC and Ukraine, pursuant to sections 751(c) and 752 of the Tariff Act of 1930, as amended ("the Act"). As a result of its reviews, the Department found that revocation of the AD orders would likely lead to continuation or recurrence of dumping and notified the ITC of the margins of dumping likely to prevail were the orders revoked.

On October 31, 2012, the ITC published its determination, pursuant to section 751(c) of the Act, that revocation of the AD orders on silicomanganese from the PRC and Ukraine would be likely to lead to continuation or recurrence of material injury within a reasonably foreseeable time.

Scope of the Orders

The merchandise covered by the orders is silicomanganese. Silicomanganese, which is sometimes called ferrosilicon manganese, is a ferroalloy composed principally of manganese, silicon and iron, and normally contains much smaller proportions of minor elements, such as carbon, phosphorus, and sulfur. Silicomanganese generally contains by weight not less than 4 percent iron, more than 30 percent manganese, more than 8 percent silicon, and not more than 3 percent phosphorus. All compositions, forms, and sizes of silicomanganese are included within the scope of the order, including silicomanganese slag, fines, and briquettes. Silicomanganese is used primarily in steel production as a source of both silicon and manganese. Silicomanganese is currently classifiable under subheading 7202.30.0000 of the Harmonized Tariff Schedule of the United States ("HTSUS"). Some silicomanganese may also currently be classifiable under HTSUS subheading 7202.99.5040. The orders cover all silicomanganese, regardless of its tariff classification. Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the orders remain dispositive.

Silicomanganese From the People’s Republic of China and Ukraine: Continuation of Antidumping Duty Orders

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: As a result of its reviews, the Department found that revocation of the AD orders would likely lead to continuation or recurrence of dumping and notified the ITC of the margins of dumping likely to prevail were the orders revoked.

On October 31, 2012, the ITC published its determination, pursuant to section 751(c) of the Act, that revocation of the AD orders on silicomanganese from the PRC and Ukraine would be likely to lead to continuation or recurrence of material injury within a reasonably foreseeable time.

Scope of the Orders

The merchandise covered by the orders is silicomanganese. Silicomanganese, which is sometimes called ferrosilicon manganese, is a ferroalloy composed principally of manganese, silicon and iron, and normally contains much smaller proportions of minor elements, such as carbon, phosphorus, and sulfur. Silicomanganese generally contains by weight not less than 4 percent iron, more than 30 percent manganese, more than 8 percent silicon, and not more than 3 percent phosphorus. All compositions, forms, and sizes of silicomanganese are included within the scope of the order, including silicomanganese slag, fines, and briquettes. Silicomanganese is used primarily in steel production as a source of both silicon and manganese. Silicomanganese is currently classifiable under subheading 7202.30.0000 of the Harmonized Tariff Schedule of the United States ("HTSUS"). Some silicomanganese may also currently be classifiable under HTSUS subheading 7202.99.5040. The orders cover all silicomanganese, regardless of its tariff classification. Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the orders remain dispositive.

Continuation of the Orders

As a result of the determinations by the Department and the ITC that revocation of these AD orders would likely lead to continuation or recurrence of dumping and of material injury to an industry in the United States, pursuant to section 751(d)(2) of the Act, the Department hereby orders the continuation of the AD orders on silicomanganese from the PRC and Ukraine.

U.S. Customs and Border Protection will continue to collect cash deposits at the rates in effect at the time of entry for all imports of subject merchandise. The effective date of the continuation of these orders is the date of publication in the Federal Register of this notice of continuation. Pursuant to section 751(o)(2) of the Act, the Department intends to initiate the next five-year review of these orders no later than 30 days prior to the fifth anniversary of the effective date of the continuations.

These five-year (sunset) reviews and notice are in accordance with section 751(c) of the Act and published pursuant to sections 751(c) and 777(f)(1) of the Act, as well as 19 CFR 351.218(f)(4).

Dated: November 1, 2012.

Paul Piquado,
Assistant Secretary for Import Administration.
