[Docket No. 111207737-2141-02]

RIN 0648-XC346

Fisheries of the Exclusive Economic Zone Off Alaska; Reallocation of Pacific Cod in the Central Regulatory Area of the Gulf of Alaska Management Area

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; reallocation.

SUMMARY: NMFS is reallocating the projected unused amount of Pacific cod from catcher vessels using trawl gear to

vessels using pot gear and vessels using jig gear in the Central Regulatory Area of the Gulf of Alaska management area. This action is necessary to allow the 2012 total allowable catch of Pacific cod to be harvested.

DATES: Effective November 7, 2012, through 2400 hrs, Alaska local time (A.l.t.), December 31, 2012.

FOR FURTHER INFORMATION CONTACT: Obren Davis, 907-586-7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the Gulf of Alaska (GOA) exclusive economic zone according to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679. Regulations governing sideboard protections for GOA groundfish fisheries appear at subpart B of 50 CFR part 680.

The 2012 Pacific cod total allowable catch specified for catcher vessels using trawl gear in the Central Regulatory Area of the GOA is 15,954 metric tons (mt) as established by the final 2012 and 2013 harvest specifications for groundfish in the GOA (77 FR 15194, March 14, 2012), after a 1,627 mt apportionment to the trawl catcher vessel sector under the Central GOA Rockfish Program (§ 679.81(c)(4)(ii)). The Administrator, Alaska Region (Regional Administrator) has determined that catcher vessels using trawl gear will not be able to harvest 1,800 mt of the 2012 Pacific cod TAC allocated to those vessels under § 679.20(a)(12)(i)(B)(4). In accordance with § 679.20(a)(12)(ii)(B), the Regional Administrator has also determined that the pot and jig sectors currently have the capacity to harvest this excess allocation and reallocates 1,500 mt to vessels using pot gear and 300 mt to vessels using jig gear.

The harvest specifications for Pacific cod included in the final 2012 harvest specifications for groundfish in the GOA (77 FR 15194, March 14, 2012) are revised as follows: 14,154 mt for catcher vessels using trawl gear, 13,255 mt for vessels using pot gear, and 727 mt to vessels using jig gear. This action does not reduce the Pacific cod apportionment (1,627 mt) made to the trawl catcher vessel sector operating under the Central GOA Rockfish Program.

Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA (AA), finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B) as such requirement is impracticable and contrary to the public interest. This requirement is impracticable and contrary to the public interest as it would prevent NMFS from responding to the most recent fisheries data in a timely fashion and would delay the reallocation of Pacific cod specified from catcher vessels using trawl gear to vessels using pot gear and vessels using jig gear. Since the fishery is currently open, it is important to immediately inform the industry as to the revised allocations. Immediate notification is necessary to allow for the orderly conduct and efficient operation of this fishery, to allow the industry to plan for the fishing season, and to avoid potential disruption to the fishing fleet as well as processors. NMFS was unable to publish a notice providing time for public comment because the most recent, relevant data only became available as of November 6, 2012.

The AA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

This action is required by § 679.20 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the GOA exclusive economic zone according to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

NMFS closed directed fishing for Pacific cod by vessels using jig gear in the Central Regulatory Area of the GOA under § 679.20(d)(1)(iii) on June 29, 2012 (77 FR 39183, July 2, 2012).

As of November 5, 2012, NMFS has determined that approximately 25 metric tons of Pacific cod remain in the directed fishing allowance of the Pacific cod TAC apportioned to vessels using jig gear in the Central Regulatory Area of the GOA. Therefore, in accordance with § 679.25(a)(1)(i), (a)(2)(i)(C), and (a)(2)(iii)(D), and to fully utilize the 2012 TAC of Pacific cod apportioned to vessels using jig gear in the Central Regulatory Area of the GOA, NMFS is terminating the previous closure and is reopening directed fishing for Pacific cod by vessels using jig gear in the Central Regulatory Area of the GOA, effective 1200 hrs, A.l.t., November 9, 2012.
