

Filing fees associated with submitting requests for approval of simple applications (applications to temporarily reroute production (for a duration not to exceed 6 months); production tests prior to pipeline construction; departures related to meter proving, well testing, or sampling frequency (\$1,271 per application)) or, (2) submitting a request for approval of a complex application (creation of new facility measurement points (FMPs); association of leases or units with existing FMPs; inclusion of production from additional structures; meter updates which add buyback gas meters or pigging meters; other applications which request deviations from the approved allocation procedures (\$3,760 per application)).

Public Disclosure Statement: The PRA (44 U.S.C. 3501, *et seq.*) provides that an agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. Until OMB approves a collection of information, you are not obligated to respond.

Comments: Before submitting an ICR to OMB, PRA section 3506(c)(2)(A) requires each agency “* * * to provide notice * * * and otherwise consult with members of the public and affected agencies concerning each proposed collection of information * * *”.

Agencies must specifically solicit comments to: (a) Evaluate whether the collection is necessary or useful; (b) evaluate the accuracy of the burden of the proposed collection of information; (c) enhance the quality, usefulness, and clarity of the information to be collected; and (d) minimize the burden on the respondents, including the use of technology.

Agencies must also estimate the non-hour paperwork cost burdens to respondents or recordkeepers resulting from the collection of information. Therefore, if you have other than hour burden costs to generate, maintain, and disclose this information, you should comment and provide your total capital and startup cost components or annual operation, maintenance, and purchase of service components. For further information on this burden, refer to 5 CFR 1320.3(b)(1) and (2), or contact the Bureau representative listed previously in this notice.

We will summarize written responses to this notice and address them in our submission for OMB approval. As a result of your comments, we will make any necessary adjustments to the burden in our submission to OMB.

Public Comment Procedures: Before including your address, phone number, email address, or other personal

identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Acting BSEE Information Collection Clearance Officer: Cheryl Blundon (703) 787-1607.

Dated: November 6, 2012.

Robert W. Middleton,

Deputy Chief, Office of Offshore Regulatory Programs.

National Park Service

[NPS-SERO-SAJU-11286; 5331-0901-630]

Notice of Intent To Prepare an Environmental Impact Statement for the Paseo del Morro National Recreational Trail Extension, San Juan National Historic Site, San Juan, Puerto Rico

AGENCY: National Park Service, Interior.

ACTION: Notice of Intent.

SUMMARY: Pursuant to the National Environmental Policy Act of 1969 (42 U.S.C. 4332) (2) (C), the National Park Service (NPS) will prepare an Environmental Impact Statement for the Paseo del Morro National Recreational Trail Extension (EIS). The EIS will include the involvement of multiple entities, including the Municipality of San Juan and the Commonwealth of Puerto Rico and neighborhoods along the trail corridor. Segments of the extension within and outside of the NPS boundary might include several amenities such as: Pedestrian trails, bicycle trail, Plaza, access to the Santa Maria Magdalena Cemetery, viewpoints, pocket seating areas, and drinking fountains. The project would be constructed in four phases according to the segments within the project extension. The first segment would run parallel to the Santa Maria Magdalena Cemetery, the second segment parallel to the community of La Perla, the third segment along the coastal area of Castillo San Cristobal, and the fourth segment through the “Lomita de Los Vientos”. The characteristics of the trail, such as width of the primary and secondary trails, amenities, complementary programs, activities and methods of construction, would vary in the different segments of the projects.

The objectives of the project are: To create public access to the North Coast of the Old San Juan Islet and create recreational public space along coastal area in front of Old San Juan, protect the historic walls of El Morro, encourage educational tourism within the area. The DEIS will assess potential environmental impacts associated with a range of reasonable alternatives for extension of the Paseo del Morro on
