Previous Version of MSPB Appeal Form 185

A revised version of Form 185 was included in the **Federal Register** notice published on October 29, 2012. (See 77 FR 65586.) That ICR request was approved by OMB on November 5, 2012. The MSPB now requests emergency reinstatement of the same ICR but with the previous version of Form 185.

We are concerned that the abrupt implementation of the revised version of the form will be confusing to the parties appearing before MSPB. Indeed, if we implement the revised version only to modify it further following the requisite notice-and-comment periods under the Paperwork Reduction Act, we believe that it will add to any confusion and result in inefficiencies in processing appeals. Most significantly, it will take longer than anticipated to implement a revised form in our e-Appeal Online filing system. This delay will create further confusion for e-filers. Upon approval of this ICR by OMB, we will publish a 60-day notice in the **Federal Register** seeking public comment on the revised version of Form 185 and begin the process of incorporating and testing the revisions in a non-production environment with e-Appeal Online.

Estimated Reporting Burden

In accordance with the requirements of the Paperwork Reduction Act of 1995, MSPB is soliciting comments on the public reporting burden for this information collection. The public reporting burden for this collection of information is estimated to vary from 20 minutes to 4 hours, with an average of 60 minutes per response, including time for reviewing the form and instructions, searching existing data sources, gathering the data necessary, and completing and reviewing the collection of information.

Specifically, MSPB invites comments on: (1) Whether the proposed collection of information is necessary for the proper performance of MSPB's functions, including whether the information will have practical utility;
