

completion of the new SR 509, the Murray Morgan Bridge connection between Northeast Tacoma and downtown was severed due to roadway reconfiguration, resulting in traffic volumes dropping dramatically; therefore, the bridge no longer conveys high volumes of traffic during the morning and afternoon rush hours.

The third change being tested in this deviation is principally administrative and changes the contact information for emergency bridge openings. The existing regulation states "In emergencies, openings shall be made as soon as possible upon notification to the Washington State Department of Transportation." The change being tested in this deviation requires notification for emergency opening to be made to the City of Tacoma. The reason for this change is because Washington State turned over ownership and responsibility of the bridge to the City of Tacoma on January 6, 1998.

Under this temporary deviation the bridge will operate as follows. The draw of the Murray Morgan Bridge, also known as the South 11th Street Bridge, across Thea Foss Waterway, previously known as City Waterway, mile 0.6, at Tacoma, shall open on signal if at least two hours notice is given. However, to obtain a bridge opening between 10 p.m. and 8 a.m. notification must be made to the City of Tacoma by 8 p.m. In emergencies, openings shall be made as soon as possible upon notification to the City of Tacoma. The Murray Morgan Bridge is a vertical lift bridge which provides a vertical clearance of 60 feet above mean high water. Vessels which do not require a bridge opening may continue to transit beneath the bridge at any time.

The Coast Guard has issued a Notice of Proposed Rule Making (NPRM) under docket number USCG-2012-0911 to receive comments on these changes. Comments can be submitted for this deviation or for the NPRM by following procedures outlined in the SUBMITTING COMMENTS section above.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the designated time period. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: October 2, 2012.

Randall D. Overton,
Bridge Administrator.

BILLING CODE 9110-04-P

DEPARTMENT OF HOMELAND SECURITY

Coast Guard

33 CFR Part 117

[Docket No. USCG-2012-0979]

Drawbridge Operation Regulation; Bayou Boeuf, Amelia, LA

AGENCY: Coast Guard, DHS.

ACTION: Notice of temporary deviation from regulations.

SUMMARY: The Coast Guard has issued a temporary deviation from the operating schedule that governs the Burlington Northern Santa Fe (BNSF) Railway Company swing span bridge across Bayou Boeuf, mile 10.2, at Amelia, St. Mary Parish, Louisiana. The deviation is necessary to complete scheduled repairs necessitated by a bridge allision. This deviation allows the bridge to remain in the closed-to-navigation position for sixteen consecutive hours.

DATES: This deviation is effective from 7 a.m. through 11 p.m. on Thursday, December 6, 2012.

ADDRESSES: Documents mentioned in this preamble as being available in the docket are part of docket USCG-2012-0979 and are available online by going to <http://www.regulations.gov>, inserting USCG-2012-0979 in the "Keyword" box and then clicking "Search". They are also available for inspection or copying at the Docket Management Facility (M-30), U.S. Department of Transportation, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue SE., Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: If you have questions on this rule, call or email Jim Wetherington, Bridge Branch Office, Coast Guard; telephone 504-671-2128, email james.r.wetherington@uscg.mil. If you have questions on viewing the docket, call Renee V. Wright, Program Manager, Docket Operations, telephone 202-366-9826.

SUPPLEMENTARY INFORMATION: The BNSF Railway Company has requested a temporary deviation from the operating schedule of the swing span railroad bridge across Bayou Boeuf, mile 10.2, at Amelia, St. Mary Parish, Louisiana. The bridge provides no vertical clearance in the closed-to-navigation position.

In accordance with 33 CFR 117.5, the bridge currently opens on signal for the passage of vessels. This deviation allows the vertical lift span of the bridge to remain in the closed-to-navigation

position from 7 a.m. through 11 p.m. on Thursday, December 6, 2012.

The closure is necessary in order to change out a shaft and reducer gear damaged during a bridge allision earlier this year. Notices will be published in the Eighth Coast Guard District Local Notice to Mariners and will be broadcast via the Coast Guard Broadcast Notice to Mariners System.

Navigation at the site of the bridge consists mainly of tows with barges and some recreational pleasure craft. Due to prior experience, as well as coordination with waterway users, it has been determined that this closure will not have a significant effect on these vessels. An alternate route is available by using the GIWW, Morgan City to Port Allen Alternate Route.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the designated time period. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: November 6, 2012.

David M. Frank,
Bridge Administrator.

BILLING CODE 9110-04-P

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

44 CFR Part 64

[Docket ID FEMA-2012-0003; Internal Agency Docket No. FEMA-8257]

Suspension of Community Eligibility

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Final rule.

SUMMARY: This rule identifies communities where the sale of flood insurance has been authorized under the National Flood Insurance Program (NFIP) that are scheduled for suspension on the effective dates listed within this rule because of noncompliance with the floodplain management requirements of the program. If the Federal Emergency Management Agency (FEMA) receives documentation that the community has adopted the required floodplain management measures prior to the effective suspension date given in this rule, the suspension will not occur and a notice of this will be provided by publication in the **Federal Register** on a subsequent date. Also, information identifying the current participation

status of a community can be obtained from FEMA's Community Status Book (CSB). The CSB is available at <http://www.fema.gov/fema/csb.shtm>.

DATES: The effective date of each community's scheduled suspension is the third date ("Susp.") listed in the third column of the following tables.

FOR FURTHER INFORMATION CONTACT: If you want to determine whether a particular community was suspended on the suspension date or for further information, contact David Stearrett, Federal Insurance and Mitigation Administration, Federal Emergency Management Agency, 500 C Street SW., Washington, DC 20472, (202) 646-2953.

SUPPLEMENTARY INFORMATION: The NFIP enables property owners to purchase Federal flood insurance that is not otherwise generally available from private insurers. In return, communities agree to adopt and administer local floodplain management measures aimed at protecting lives and new construction from future flooding. Section 1315 of the National Flood Insurance Act of 1968, as amended, 42 U.S.C. 4022, prohibits the sale of NFIP flood insurance unless an appropriate public body adopts adequate floodplain management measures with effective enforcement measures. The communities listed in this document no longer meet that statutory requirement for compliance with program regulations, 44 CFR part 59.

Accordingly, the communities will be suspended on the effective date in the third column. As of that date, flood insurance will no longer be available in the community. We recognize that some of these communities may adopt and submit the required documentation of legally enforceable floodplain management measures after this rule is published but prior to the actual suspension date. These communities will not be suspended and will continue to be eligible for the sale of NFIP flood insurance. A notice withdrawing the

suspension of such communities will be published in the **Federal Register**.

In addition, FEMA publishes a Flood Insurance Rate Map (FIRM) that identifies the Special Flood Hazard Areas (SFHAs) in these communities. The date of the FIRM, if one has been published, is indicated in the fourth column of the table. No direct Federal financial assistance (except assistance pursuant to the Robert T. Stafford Disaster Relief and Emergency Assistance Act not in connection with a flood) may be provided for construction or acquisition of buildings in identified SFHAs for communities not participating in the NFIP and identified for more than a year on FEMA's initial FIRM for the community as having flood-prone areas (section 202(a) of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4106(a), as amended). This prohibition against certain types of Federal assistance becomes effective for the communities listed on the date shown in the last column. The Administrator finds that notice and public comment procedures under 5 U.S.C. 553(b), are impracticable and unnecessary because communities listed in this final rule have been adequately notified.

Each community receives 6-month, 90-day, and 30-day notification letters addressed to the Chief Executive Officer stating that the community will be suspended unless the required floodplain management measures are met prior to the effective suspension date. Since these notifications were made, this final rule may take effect within less than 30 days.

National Environmental Policy Act. This rule is categorically excluded from the requirements of 44 CFR part 10, Environmental Considerations. No environmental impact assessment has been prepared.

Regulatory Flexibility Act. The Administrator has determined that this rule is exempt from the requirements of

the Regulatory Flexibility Act because the National Flood Insurance Act of 1968, as amended, Section 1315, 42 U.S.C. 4022, prohibits flood insurance coverage unless an appropriate public body adopts adequate floodplain management measures with effective enforcement measures. The communities listed no longer comply with the statutory requirements, and after the effective date, flood insurance will no longer be available in the communities unless remedial action takes place.

Regulatory Classification. This final rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

Executive Order 13132, Federalism. This rule involves no policies that have federalism implications under Executive Order 13132.

Executive Order 12988, Civil Justice Reform. This rule meets the applicable standards of Executive Order 12988.

Paperwork Reduction Act. This rule does not involve any collection of information for purposes of the Paperwork Reduction Act, 44 U.S.C. 3501 *et seq.*

BILLING CODE 9110-12-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 648

[Docket No. 111220786-1781-01]

RIN 0648-XC340

Fisheries of the Northeastern United States; Summer Flounder Fishery; Quota Transfer

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; quota transfer.

SUMMARY: NMFS announces that the State of North Carolina is transferring a portion of its 2012 commercial summer flounder quota to the State of Rhode Island. NMFS is adjusting the quotas

and announcing the revised commercial quota for each state involved.

DATES: Effective November 19, 2012, through December 31, 2012.

FOR FURTHER INFORMATION CONTACT:

Carly Bari, Fishery Management Specialist, 978-281-9224.

SUPPLEMENTARY INFORMATION:

Regulations governing the summer flounder fishery are in 50 CFR part 648, and require annual specification of a commercial quota that is apportioned among the coastal states from North Carolina through Maine. The process to set the annual commercial quota and the percent allocated to each state are described in § 648.100.

The final rule implementing Amendment 5 to the Summer Flounder, Scup, and Black Sea Bass Fishery Management Plan, which was published on December 17, 1993 (58 FR 65936), provided a mechanism for summer flounder quota to be transferred from one state to another. Two or more states, under mutual agreement and with the concurrence of the Administrator, Northeast Region, NMFS (Regional Administrator), can transfer or combine summer flounder commercial quota under § 648.102(c)(2). The Regional Administrator is required to consider the criteria in § 648.102(c)(2)(i) to

evaluate requests for quota transfers or combinations.

North Carolina has agreed to transfer 13,925 lb (6,316 kg) of its 2012 commercial quota to Rhode Island. This transfer was prompted by summer flounder landings of one North Carolina vessels that was granted safe harbor in Rhode Island due to Hurricane Sandy, on October 30, 2012, thereby requiring a quota transfer to account for an increase in Rhode Island's landings that would have otherwise accrued against the North Carolina quota. The Regional Administrator has determined that the criteria set forth in § 648.102(c)(2)(i) have been met. The revised summer flounder quotas for calendar year 2012 are: North Carolina, 1,589,325 lb (720,955 kg); and Rhode Island, 2,010,325 lb (911,868 kg).

Classification

This action is taken under 50 CFR part 648 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: November 14, 2012.

Lindsey Fullenkamp,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
