**SUPPLEMENTARY INFORMATION:**
First Solar Development, Inc. (First Solar) has requested a right-of-way (ROW) authorization to construct, operate, maintain and decommission the 300-megawatt (MW) Stateline Project from the BLM and a separate well permit from the County of San Bernardino. The BLM is responding to the ROW application as required by FLPMA. The proposed project located on BLM-administered lands would include access roads, a photovoltaic solar energy facility on public lands in compliance with FLPMA, BLM ROW regulations, and other applicable Federal laws. The BLM will decide whether to grant, grant with modification, or deny a ROW to First Solar. In connection with its consideration of the Stateline ROW application, the BLM is proposing to amend the CDCA Plan by designating the project area as either suitable or unsuitable for solar energy development. The CDCA Plan (1980, as amended), recognized the potential compatibility of solar energy generation facilities with other uses on public lands; however, it requires that all sites proposed for power generation or transmission not already identified in the plan be considered through the plan amendment process. While connected, the decision to amend the CDCA plan is separate from the decision to approve the ROW application. As part of its consideration of project impacts, the BLM may also amend the CDCA Plan to address cumulative impacts of this and other developments in the Ivanpah Valley watershed. Specifically, the BLM will consider whether to expand the boundaries of the Ivanpah Desert Wildlife Management Area (DWMA).

The Draft Plan Amendment and Draft EIS/EIR analyze four project development alternatives, including the proposed action, which is analyzed as Alternative 1: 300 MWs of development on 2,143 acres. The other alternatives include—Alternative 2: 300 MWs of development on 2,385 acres; Alternative 3: 300 MWs of development on 2,151 acres; and Alternative 4: 232 MWs of development on 1,766 acres. In addition to project-related impacts, all project development alternatives analyze potential expansion of the current boundaries of the Ivanpah DWMA. The management prescriptions for the Ivanpah DWMA are defined in Appendix A, Section A.2, of the Northern and Eastern Mojave Desert Management Plan Amendment to the California Desert Conservation Area Plan (July 2002). If the DWMA is expanded, these management prescriptions will be applied to the expansion.

The Draft Plan Amendment and Draft EIS/EIR also analyze three No Project alternatives—Alternative 5: No Action; Alternative 6: No Project and amendment of the CDCA Plan to find the Project area unsuitable for solar development; and Alternative 7: No Project and amendment of the CDCA Plan to find the Project area unsuitable for solar development.

The Draft Plan Amendment and EIS/EIR evaluate potential impacts of the proposed Stateline on air quality and greenhouse gas emissions, biological resources, cultural resources, special status species, geology and soils, hazards and hazardous materials, hydrology and water quality, land use, noise, recreation, traffic, visual resources, lands with wilderness characteristics, cumulative effects and areas with high potential for renewable energy development.

A Notice of Intent to Prepare a Draft Plan Amendment and EIS/EIR for the Stateline Project was published in the Federal Register on August 4, 2011 (76 FR 47235). The BLM held one joint public scoping meeting with San Bernardino County at the Primm Valley Golf Course on August 31, 2011. The formal scoping period ended on September 6, 2011.

DEPARTMENT OF THE INTERIOR
Office of Surface Mining Reclamation and Enforcement

Notice of Proposed Information Collection for 1029–0098

AGENCY: Office of Surface Mining Reclamation and Enforcement, Interior.

ACTION: Notice and request for comments.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995, the Office of Surface Mining Reclamation and Enforcement (OSM) is announcing that the information collection request for the Petition process for designation of Federal lands as unsuitable for all or certain types of surface coal mining operations and for termination of previous designations, has been submitted to the Office of Management and Budget (OMB) for review and approval. The information collection request describes the nature of the information collection and its expected burden and cost. This information collection activity was previously approved by OMB and assigned clearance number 1029–0098.

DATES: Comments must be submitted on or before December 24, 2012, to be assured of consideration.

ADDRESSES: Comments may be submitted to the Office of Information and Regulatory Affairs, Office of Management and Budget, Department of the Interior Desk Officer, via email at OIRA_submission@omb.eop.gov, or by facsimile to (202) 395–5806. Also, please send a copy of your comments to John Trelease, Office of Surface Mining Reclamation and Enforcement, 1951 Constitution Ave NW., Room 203—SIB, Washington, DC 20240, or electronically to jtrelease@osmre.gov. Please reference 1029–0098 in your correspondence.

FOR FURTHER INFORMATION CONTACT: To receive a copy of the information collection request contact John Trelease at (202) 208–2783, or electronically at jtrelease@osmre.gov. You may also review this information collection request on the Internet by going to http://www.reginfo.gov (Information Collection Review, Currently Under Review, Agency is Department of the Interior, DOI–OSMRE).

SUPPLEMENTARY INFORMATION: OMB regulations at 5 CFR part 1320, which implement provisions of the Paperwork Reduction Act of 1995 (Pub. L. 104–13), require that interested members of the public and affected agencies have an opportunity to comment on information collection and recordkeeping activities [see 5 CFR 1320.8(d)]. OSM has submitted a request to OMB to renew its approval for the collection of information found at 30 CFR part 769—Petition process for designation of Federal lands as unsuitable for all or certain types of surface coal mining operations and for termination of previous designations. OSM is requesting a 3-year term of approval for this collection. This collection is required to obtain or retain a benefit. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control number for this collection of information is 1029–0098.

As required under 5 CFR 1320.8(d), a Federal Register notice soliciting comments on this collection of information was published on August 17, 2012 (77 FR 49827). No comments were received. This notice provides the public with an additional 30 days in which to comment on the following information collection activity:

Title: 30 CFR Part 769—Petition process for designation of Federal lands as unsuitable for all or certain types of surface coal mining operations and for termination of previous designations. OMB Control Number: 1029–0098.

Summary: This part establishes the minimum procedures and standards for designating Federal lands unsuitable for certain types of surface mining operations and for terminating designations pursuant to a petition. The information requested will aid the regulatory authority in the decision making process to approve or disapprove a request.

Bureau Form Number: None.

Frequency of Collection: Once.

Description of Respondents: People who may be adversely affected by surface mining on Federal lands.

Total Annual Responses: 1.

Total Annual Burden Hours: 1,000.

Send comments on the need for the collection of information for the performance of the functions of the agency; the accuracy of the agency’s burden estimates; ways to enhance the quality, utility and clarity of the information collection; and ways to minimize the information collection burden on respondents, such as use of automated means of collection of the information, to the offices listed in the ADDRESSES section. Please refer to the appropriate OMB control number in all correspondence.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.
