

(Magnuson-Stevens Act) authorizes the Gulf of Mexico Fishery Management Council (Council) to prepare and amend fishery management plans for any fishery in waters under its jurisdiction. National Marine Fisheries Service (NMFS) manages the shrimp fishery in the waters of the Gulf of Mexico under the Shrimp Fishery Management Plan (FMP). The regulations for the Gulf Shrimp Vessel and Gear Characterization Form may be found at 50 CFR 622.5(a)(1)(iii)(C).

Owners or operators of vessels applying for or renewing a commercial vessel moratorium permit for Gulf shrimp must complete an annual Gulf Shrimp Vessel and Gear Characterization Form. The form will be provided by NMFS at the time of permit application and renewal. Compliance with this reporting requirement is required for permit issuance and renewal.

Through this form, NMFS is collecting census-level information on fishing vessel and gear characteristics in the Gulf of Mexico Exclusive Economic Zone (EEZ) shrimp fishery to conduct analyses that will improve fishery management decision-making in this fishery; ensure that national goals, objectives, and requirements of the Magnuson-Stevens Act, National Environmental Policy Act (NEPA), Regulatory Flexibility Act (RFA), Endangered Species Act (ESA), and Executive Order (E.O.) 12866 are met; and quantify achievement of the performance measures in the NMFS' Operating Plans. This information is vital in assessing the economic, social, and environmental effects of fishery management decisions and regulations on individual shrimp fishing enterprises, fishing communities, and the nation as a whole.

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Vessel Monitoring System Requirements under the Western and Central Pacific Fisheries Convention.

OMB Control Number: 0648-0596.

Form Number(s): None.

Type of Request: Regular submission (extension of a current information collection).

Number of Respondents: 78.

Average Hours per Response:

Activation reports and on/off notifications, 5 minutes each; installation and maintenance, 1 hour each.

Burden Hours: 191.

Needs and Uses: This request is for an extension of a currently approved information collection.

National Marine Fisheries Service (NMFS) has issued regulations under authority of the Western and Central Pacific Fisheries Convention Implementation Act (WCPFCIA; 16 U.S.C. 6901 *et seq.*) to carry out the obligations of the United States under the Convention on the Conservation and Management of Highly Migratory Fish Stocks in the Western and Central Pacific Ocean (Convention), including implementing the decisions of the Commission for the Conservation and Management of Highly Migratory Fish Stocks in the Western and Central Pacific Ocean (Commission). The regulations include a requirement for the owners and operators of U.S. vessels that fish for highly migratory species on the high seas in the Convention Area to carry and operate near real-time satellite-based position-fixing transmitters ("VMS units") at all times except when the vessel is in port. As part of this requirement, vessel owners and operators must transmit: (1) "On/off reports" to NMFS whenever the VMS unit is turned off while the vessel is in port, (2) "activation reports" to NMFS prior to the first use of a VMS unit, and

(3) automatic "position reports" from the VMS unit to NOAA and the Commission as part of a vessel monitoring system (VMS) operated by the Commission (50 CFR 300.45). Under this information collection, it is expected that vessel owners and operators would also need to purchase, install, and occasionally maintain the VMS units.

The information collected from the vessel position reports is used by NOAA and the Commission to help ensure compliance with domestic laws and the Commission's conservation and management measures, and are necessary in order for the United States to satisfy its obligations under the Convention.

Affected Public: Business or other for-profit organizations.

Frequency: Annually and on occasion.

Respondent's Obligation: Mandatory.

Steel Concrete Reinforcing Bars From Belarus, Indonesia, Latvia, Moldova, Poland, People's Republic of China and Ukraine: Final Results of the Expedited Second Sunset Reviews of the Antidumping Duty Orders

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

DATES: *Effective Date:* November 23, 2012.

SUMMARY: On July 2, 2012, the Department of Commerce ("Department") initiated the second Sunset Reviews of the antidumping duty orders on steel concrete reinforcing bars from Belarus, Indonesia, Latvia, Moldova, Poland, the People's Republic of China and Ukraine. The Department finds that revocation of these antidumping duty orders would be

likely to lead to continuation or recurrence of dumping at the margins identified in the "Final Results of Reviews" section of this notice.

FOR FURTHER INFORMATION CONTACT: Mahnaz Khan or David Layton, AD/CVD Operations, Office 1, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone (202) 482-0914 and (202) 482-0371, respectively.

SUPPLEMENTARY INFORMATION:

Background

The antidumping duty orders on steel concrete reinforcing bars from Belarus, Indonesia, Latvia, Moldova, the People's Republic of China ("PRC"), Poland, and Ukraine were published on September 7, 2001. See *Antidumping Duty Orders: Steel Concrete Reinforcing Bars From Belarus, Indonesia, Latvia, Moldova, People's Republic of China, Poland, Republic of Korea and Ukraine*, 66 FR 46777 (September 7, 2001).¹

On July 2, 2012, the Department initiated the second sunset reviews of these orders, pursuant to section 751(c) of the Tariff Act of 1930, as amended ("the Act"). See *Initiation of Five-Year ("Sunset") Reviews*, 77 FR 39218 (July 2, 2012) ("notice of initiation"). The Department received a notice of intent to participate from the following domestic parties: The Rebar Trade Action Coalition ("RTAC") and its individual members, Nucor Corporation, Gerdau Long Steel North America, Cascade Steel Rolling Mills, Inc., and Commercial Metals Company (collectively, "domestic interested parties"), within the deadline specified in 19 CFR 351.218(d)(1)(i). Each individual member of the RTAC is a manufacturer of a domestic-like product in the United States and, accordingly, is a domestic interested party pursuant to section 771(9)(C) of the Act.

On July 30, 2012, the Department received adequate substantive responses to the notice of initiation from the domestic interested parties within the 30-day deadline specified in 19 CFR 351.218(d)(3)(i). We received no responses from respondent interested parties with respect to any of the orders covered by these sunset reviews. As a result, pursuant to 19 CFR 351.218(e)(1)(ii)(C)(2), the Department is conducting expedited (120-day) sunset

¹ On August 9, 2007, the Department revoked the antidumping duty order on steel concrete reinforcing bars with respect to the Republic of Korea. See *Steel Concrete Reinforcing Bars From South Korea: Revocation of Antidumping Duty Order*, 72 FR 44830 (August 9, 2007).
