opinion and without reservation I believe Mr. Taylor is able to visually perform the task of operating a commercial vehicle.” Mr. Taylor reported that he has driven tractor-trailer combinations for 3 years, accumulating 111,000 miles. He holds a Class A CDL from Virginia. His driving record for the last 3 years shows no crashes and no convictions for moving violations in a CMV.

Mr. Weston, 39, has had medullated nerve fibers in his right eye since birth. The best corrected visual acuity in his right eye is 20/25, and in his left eye, 20/30. Following an examination in 2012, his ophthalmologist noted, “There have been no changes in your visual acuity or visual fields since 2007. It is my opinion that if you have been able to operate a commercial vehicle since that time, then there is no reason to make a change at this time.” Mr. Weston reported that he has driven tractor-trailer combinations for 4 years, accumulating 5.5 million miles. He holds a Class A CDL from Illinois. His driving record for the last 3 years shows no crashes and no convictions for moving violations in a CMV.

Mr. Washington, 55, has had a branch retinal artery occlusion in his right eye since 1985 due to a traumatic incident. The best corrected visual acuity in his right eye is 20/50, and in his left eye, 20/20. Following an examination in 2012, his ophthalmologist noted, “Patient has sufficient vision to drive and operate a commercial vehicle.” Mr. Washington reported that he has driven straight trucks for 6 years, accumulating 366,000 miles, and tractor-trailer combinations for 19 years, accumulating 1.08 million miles. He holds a Class A CDL from Illinois. His driving record for the last 3 years shows no crashes and no convictions for moving violations in a CMV.

Mr. Donald, 63, has had medullated nerve fibers in his right eye since age 15, causing a field defect in his right eye. The best corrected visual acuity in his right eye is 20/25, and in his left eye, 20/30. Following an examination in 2012, his ophthalmologist noted, “There have been no changes in your visual acuity or visual fields since 2007. It is my opinion that if you have been able to operate a commercial vehicle since that time, then there is no reason to make a change at this time.” Mr. Donald will be more than capable of performing the task of operating a commercial vehicle.” Mr. Donald reported that he has driven tractor-trailer combinations for 19 years, accumulating 366,000 miles, and tractor-trailer combinations for 44 years, accumulating 5.5 million miles. He holds a Class A CDL from Arkansas. His driving record for the last 3 years shows no crashes and no convictions for moving violations in a CMV.

Mr. Washington reported that he has driven straight trucks for 7 years, accumulating 77,000 miles, and buses for 7 months, accumulating 9000 miles. He holds an operator’s license from Pennsylvania. His driving record for the last 3 years shows no crashes and no convictions for moving violations in a CMV.

**Request for Comments**

In accordance with 49 U.S.C. 31136(e) and 31315, FMCSA requests public comment from all interested persons on the exemption petitions described in this notice. The Agency will consider all comments received before the close of business December 26, 2012. Comments will be available for examination in the docket at the location listed under the **ADDRESSES** section of this notice. The Agency will file comments received after the comment closing date in the public docket, and will consider them to the extent practicable.

In addition to late comments, FMCSA will also continue to file, in the public docket, relevant information that becomes available after the comment closing date. Interested persons should monitor the public docket for new material.

**DEPARTMENT OF TRANSPORTATION**

**Federal Motor Carrier Safety Administration**

**Qualification of Drivers; Exemption Applications; Vision**

**AGENCY:** Federal Motor Carrier Safety Administration (FMCSA), DOT.

**ACTION:** Notice of renewal of exemptions; request for comments.

**SUMMARY:** FMCSA announces its decision to renew the exemptions from the vision requirement in the Federal Motor Carrier Safety Regulations for 16 individuals. FMCSA has statutory authority to exempt individuals from the vision requirement if the exemptions granted will not compromise safety. The Agency has concluded that granting these exemption renewals will provide a level of safety that is equivalent to or greater than the level of safety maintained without the exemptions for these commercial motor vehicle (CMV) drivers.

Office hours are from 8:30 a.m. to 5 p.m. Monday through Friday, except Federal holidays.

SUPPLEMENTARY INFORMATION:

Background

Under 49 U.S.C. 31136(e) and 31315, FMCSA may renew an exemption from the vision requirements in 49 CFR 391.41(b)(10), which applies to drivers of CMVs in interstate commerce, for a two-year period if it finds “such exemption would likely achieve a level of safety that is equivalent to or greater than the level that would be achieved absent such exemption.” The procedures for requesting an exemption (including renewals) are set out in 49 CFR part 381.

Exemption Decision

This notice addresses 16 individuals who have requested renewal of their exemptions in accordance with FMCSA procedures. FMCSA has evaluated these 16 applications for renewal on their merits and decided to extend each exemption for a renewable two-year period. They are:

Charlene F. Brown (KS)
Nathan A. Buckles (IN)
Dale H. Dattler (NY)
Paul A. Giarrusso (FL)
Benjamin P. Hall (NY)
John N. Lanning (CA)
Bruce J. Lewis (RI)
John L. Lolley (AL)
Charles M. McDeris (GA)
Tommy L. McKnight (OH)
Calvin J. Schaap (MN)
Frederick C. Schultz, Jr. (NY)
Steve C. Sinclair (IA)
Eugene J. Smith (WI)
Charles R. Sylvester (NC)
Daniel M. Veselitza (NV)

The exemptions are extended subject to the following conditions: (1) That each individual has a physical examination every year (a) by an ophthalmologist or optometrist who attests that the vision in the better eye continues to meet the requirements in 49 CFR 391.41(b)(10), and (b) by a medical examiner who attests that the individual is otherwise physically qualified under 49 CFR 391.41; (2) that each individual provides a copy of the ophthalmologist’s or optometrist’s report to the medical examiner at the time of the annual medical examination; and (3) that each individual provide a copy of the annual medical certification to the employer for retention in the driver’s qualification file and retains a copy of the certification on his/her person while driving for presentation to a duly authorized Federal, State, or local enforcement official. Each exemption will be valid for two years unless rescinded earlier by FMCSA. The exemption will be rescinded if: (1) The person fails to comply with the terms and conditions of the exemption; (2) the exemption has resulted in a lower level of safety than was maintained before it was granted; or (3) continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31136(e) and 31315.

Basis for Renewing Exemptions

Under 49 U.S.C. 31315(b)(1), an exemption may be granted for no longer than two years from its approval date and may be renewed upon application for additional two year periods. In accordance with 49 U.S.C. 31136(e) and 31315, each of the 16 applicants has satisfied the entry conditions for obtaining an exemption from the vision requirements (73 FR 35194; 73 FR 38497; 73 FR 48271; 73 FR 48273; 73 FR 61922; 73 FR 74563; 75 FR 34209; 75 FR 47886; 75 FR 65057; 75 FR 77590; 75 FR 79081). Each of these 16 applicants has requested renewal of the exemption and has submitted evidence showing that the vision in the better eye continues to meet the requirement specified at 49 CFR 391.41(b)(10) and that the vision impairment is stable. In addition, a review of each record of safety while driving with the respective vision deficiencies over the past two years indicates each applicant continues to meet the vision exemption requirements.

These factors provide an adequate basis for predicting each driver’s ability to continue to drive safely in interstate commerce. Therefore, FMCSA concludes that extending the exemption for each renewal applicant for a period of two years is likely to achieve a level of safety equal to that existing without the exemption.

Request for Comments

FMCSA will review comments received at any time concerning a particular driver’s safety record and determine if the continuation of the exemption is consistent with the requirements at 49 U.S.C. 31136(e) and 31315. However, FMCSA requests that interested parties with specific data concerning the safety records of these drivers submit comments by December 26, 2012.

FMCSA believes that the requirements for a renewal of an exemption under 49 U.S.C. 31136(e) and 31315 can be satisfied by initially granting the renewal and then requesting and evaluating, if needed, subsequent comments submitted by interested parties. As indicated above, the Agency previously published notices of final disposition announcing its decision to exempt these 16 individuals from the vision requirement in 49 CFR 391.41(b)(10). The final decision to grant an exemption to each of these individuals was made on the merits of each case and made only after careful consideration of the comments received to its notices of applications. The notices of applications stated in detail the qualifications, experience, and medical condition of each applicant for an exemption from the vision requirements. That information is available by consulting the above cited Federal Register publications.

Interested parties or organizations possessing information that would otherwise show that any, or all, of these drivers are not currently achieving the statutory level of safety should immediately notify FMCSA. The Agency will evaluate any adverse evidence submitted and, if safety is being compromised or if continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31136(e) and 31315, FMCSA will take immediate steps to revoke the exemption of a driver.
