SUPPLEMENTARY INFORMATION:
The National Flood Insurance Program (NFIP) promotes and implements sound local floodplain management. Communities must adopt minimum floodplain management standards in order to participate in the NFIP and receive the benefits of flood insurance. The Community Rating System (CRS), codified in the National Flood Insurance Reform Act (NFIRA) of 1994 (Pub. L. 103–325, Sec. 541.) was designed by the Federal Emergency Management Agency (FEMA) to encourage communities to undertake activities that will mitigate flooding and flood damage beyond the minimum standards for NFIP participation. The CRS Program “CRS Coordinator’s Manual” is the key primary explanatory document used by CRS communities. It provides detailed explanations of the program and its activities respondents (communities) will select activities to apply for and receive credit and community certifications so that proper credit is applied for each. Communities that receive these credits become eligible for flood insurance premium discounts.

The Neighborhood Stabilization Program (NSP) is a federal program that provides grants to states, local governments, and nonprofit organizations to help stabilize neighborhoods affected by properties that have been foreclosed upon and abandoned. The program, authorized by the American Recovery and Reinvestment Act of 2009 (Recovery Act) (Pub. L. 111–203, approved July 21, 2010), provides further funding for NSP grantees to target the stabilization of neighborhoods negatively affected by properties that have been foreclosed upon and abandoned. The notice, Notice of Formula Allocations and Program Requirements for Neighborhood Stabilization Program Formula Grants, published October 19, 2010 (75 FR 64322) (“Unified NSP Notice”) provides further guidance for these programs, the program principles, and the objectives and outcomes of the NSP program. In addition, the Notice of Fund Availability (NOFA) for the Neighborhood Stabilization Program 2 under the American Recovery and Reinvestment Act, 2009, 74 FR 21377 (May 7, 2009), as amended by subsequent notices (“NSP2 NOFA”), includes requirements specific to the competitive round of funding under the Recovery Act.

The primary purpose of this notice is to revise requirements set forth in the Unified NSP Notice to provide the grant closeout framework for all three rounds of NSP by minimally adjusting the Community Development Block Grant (CDBG) closeout requirements (24 CFR 570.509). Following publication of this notice, HUD will issue updated CDBG closeout guidance (CPD Notice 12–0004) to incorporate specific operating instructions for closeout of NSP grants. These instructions will create an NSP closeout process that is nearly identical to the CDBG closeout process and place both sets of instructions in a single document. This approach takes advantage of NSP grantees and HUD field staff familiarity with the CDBG closeout procedures because, by the time of grant closeout, almost every NSP grantee will have completed closeout of a CDBG Recovery Act grant.

Since this notice applies to grantees receiving grants under the three rounds of funding under the Neighborhood Stabilization Program, the terms NSP1, NSP2 or NSP3 are used to describe each round of funding under the Neighborhood Stabilization Program 1, 2, or 3, respectively. When referring to the grants, grantees, assisted activities, and implementing rules under HERA, this notice will use the term “NSP1.” When referring to the competitive round of funding under HERA, this notice will use the term “NSP2.” This notice is not a toll-free number. Persons with disabilities may access this number via TTY by calling 202–708–3587 (this is not a toll-free number).
