Needs and Uses: On January 28, 2010, the Commission adopted a First Report and Order and Further Notice of Proposed Rulemaking (“Rural First R&O”) in MB Docket No. 09–52, FCC 10–24, 25 FCC Rcd 1583 (2010). In the Rural First R&O, the Commission

adopted a Tribal Priority under Section 307(b) of the Communications Act of 1934, as amended, to assist federally recognized Native American Tribes and Alaska Native Villages (“Tribes”) and entities primarily owned or controlled by Tribes in obtaining broadcast radio construction permits designed primarily to serve Tribal Lands (the “Tribal Priority”). Tribal affiliated applicants that meet certain conditions regarding Tribal membership and signal coverage qualify for the Tribal Priority, which in most cases will enable the qualifying applicants to obtain radio construction permits without proceeding to competitive bidding, in the case of commercial stations, or to a point system evaluation, in the case of noncommercial educational (“NCE”) stations. On March 3, 2011, the Commission adopted a Second Report and Order (“Rural Second R&O”), First Order on Reconsideration, and Second Further Notice of Proposed Rule Making in MB Docket No. 09–52, FCC 11–28, 26 FCC Rcd 2556 (2011). On December 28, 2011, the Commission adopted a Third Report and Order in MB Docket No. 09–52, FCC 11–190, 26 FCC Rcd 17642 (2011) (“Rural Third R&O”). In the Rural Third R&O the Commission further refined the use of the Tribal Priority in the commercial FM radio context, specifically adopting a “Threshold Qualifications” approach to commercial FM application processing.

Furthermore, under the Commission’s Tribal Priority procedures, entities obtaining:

(a) An AM authorization for which the applicant claimed and received a dispositive Section 307(b) priority because it qualified for the Tribal Priority; or

(b) An FM commercial non-reserved band station awarded:

(1) To the applicant as a singleton Threshold Qualifications Window applicant,

(2) To the applicant after a settlement among Threshold Qualifications Window applicants, or

(3) To the applicant after an auction among a closed group of bidders composed only of threshold qualified Tribal applicants; or

(c) A reserved-band NCE FM station for which the applicant claimed and received the Tribal Priority in a fair distribution analysis as set forth in 47 CFR 73.7002(b)(1), may not assign or transfer the authorization during the period beginning with issuance of the construction permit, until the station has completed four years of on-air operations, unless the assignee or transferee also qualifies for the Tribal Priority. Pursuant to procedures set

forth in the Rural Third R&O, 26 FCC Rcd at 17645–50, the Tribal Priority Holding Period is now applied in the context of authorizations obtained using Tribal Priority Threshold Qualifications.

Consistent with actions taken by the Commission in the Rural Third R&O, the following changes are made to Forms 314 and 315: Section I of each form includes a question asking applicants to indicate whether any of the authorizations involved in the subject transaction were obtained: after award of a dispositive Section 307(b) preference using the Tribal Priority; through Threshold Qualification procedures; or through the Tribal Priority as applied before the NCE fair distribution analysis. A subsequent question then asks whether both the assignor/transferee and assignee/transferee qualify for the Tribal Priority in all respects. Applicants not meeting the Tribal Priority qualifications and proposing an assignment or transfer during the Holding Period must provide an exhibit demonstrating that the transaction is consistent with the Tribal Priority policies or that a waiver is warranted. The instructions for Section I of Forms 314 and 315 have been revised to assist applicants with completing the questions.

[Docket No. NHTSA–2012–0093 Notice 2]

RIN 2127–AL18

Final Rule

AGENCY: National Highway Traffic Safety Administration (NHTSA), DOT.

ACTION: Final rule.

SUMMARY: This document amends regulations that prescribe the format and contents labels that manufacturers are required to affix to motor vehicles manufactured for sale in the United States to certify the compliance of those vehicles with U.S. safety standards. The amendment will require specified certification language to be included on the labels affixed to certain types of vehicles.

DATES: This rule is effective January 3, 2013. Petitions for reconsideration must be received by NHTSA not later than January 18, 2013.

ADDRESSES: Petitions for reconsideration of this final rule should refer to the docket and notice numbers identified above and be submitted to: Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Avenue SE., West Building, Washington, DC 20590. It is requested, but not required, that 10 copies of the petition be submitted. The petition must be received not later than 45 days after publication of this final rule in the **Federal Register**. Petitions filed after that time will be considered petitions filed by interested persons to initiate rulemaking pursuant to 49 U.S.C. Chapter 301.

The petition must contain a brief statement of the complaint and an explanation as to why compliance with the final rule is not practicable, is unreasonable, or is not in the public interest. Unless otherwise specified in the final rule, the statement and explanation together may not exceed 15 pages in length, but necessary attachments may be appended to the submission without regard to the 15-page limit. If it is requested that additional facts be considered, the petitioner must state the reason why they were not presented to the Administrator within the prescribed time. The Administrator does not consider repetitious petitions and unless the Administrator otherwise provides, the filing of a petition does not stay the effectiveness of the final rule.

SUPPLEMENTARY INFORMATION: NHTSA published a final rule on February 14, 2005 (70 FR 7414) that amended certain provisions of title 49, Code of Federal Regulations, that pertain to the certification of motor vehicles to standards administered by NHTSA. In amending the provisions that establish the format and content requirements for certification labels, the agency inadvertently omitted from 49 CFR 576.4(g)(5) the requirement for manufacturers to include a specific certification statement in the labels they affix to certain types of motor vehicles. This rule corrects that inadvertent omission.
