

excluded from the scope of the orders are clad products in straight lengths of 0.1875 inch or more in composite thickness and of a width which exceeds 150 mm and measures at least twice the thickness. Also excluded from the scope of the orders are certain clad stainless flat-rolled products, which are three-layered corrosion-resistant carbon steel flat-rolled products less than 4.75 mm in composite thickness that consist of a carbon steel flat-rolled product clad on both sides with stainless steel in a 20%-60%-20% ratio.

Further, the Department made three changed circumstances determination with respect to the order on Germany. The Department partially revoked the order with respect to deep-drawing carbon steel strip, roll-clad on both sides with aluminum (AlSi) foils in accordance with St3 LG as to EN 10139/10140.⁷ The Department also partially revoked the order with respect to certain wear plate products.⁸ In addition, the Department partially revoked the order with respect to the following products: Certain corrosion-resistant carbon steel from Germany, meeting the following description: electrolytically zinc coated flat steel products, with a coating mass between 35 and 72 grams per meter squared on each side; with a thickness range of 0.67 mm or more but not more than 2.95 mm and width 817 mm or more but not over 1830 mm; having the following chemical composition (percent by weight): carbon not over 0.08, silicon not over 0.25, manganese not over 0.9, phosphorous not over 0.025, sulfur not over 0.012, chromium not over 0.1, titanium not over 0.005 and niobium not over 0.05; with a minimum yield strength of 310 Mpa and a minimum tensile strength of 390 Mpa; additionally coated on one or both sides with an organic coating containing not less than 30 percent and not more than 60 percent zinc and free of hexavalent chrome.⁹

Analysis of Comments Received

All issues raised in this review are addressed in the Issues and Decision Memorandum for the Final Results of

Full Third Sunset Reviews of the Antidumping Duty Orders on Corrosion-Resistant Carbon Steel Flat Products from Germany and the Republic of Korea ("Decision Memorandum") from Gary Taverman, Senior Advisor for Antidumping and Countervailing Duty Operations, to Ronald K. Lorentzen, Acting Assistant Secretary for Import Administration, dated concurrently with this final notice, which is hereby adopted by this notice. Parties can find a complete discussion of all issues raised in this full sunset review and the corresponding recommendation in this public memorandum which is on file electronically via Import Administration's Antidumping and Countervailing Duty Centralized Electronic Service System ("IA ACCESS"). IA ACCESS is available to registered users at <http://iaaccess.trade.gov> and in the Central Records Unit, Room 7046 of the main Department of Commerce building. In addition, a complete version of the Decision Memorandum can be accessed directly on the internet at <http://www.trade.gov/ia/>. The signed Decision Memorandum and the electronic versions of the Decision Memorandum are identical in content.

Final Results of Reviews

We determine that revocation of these AD duty orders on CORE from Germany and Korea would be likely to lead to continuation or recurrence of dumping. Further, we determine that the magnitude of the margin likely to prevail are at least 9.35 percent for Thyssen Stahl AG and all other German producers of CORE and at least 12.85 percent for all Korean producers and exporters of CORE, other than POSCO.¹⁰

Notification to Interested Parties

This notice also serves as the only reminder to parties subject to an administrative protective order ("APO") of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305. Timely notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

¹⁰ The order was revoked with respect to Pohang Iron & Steel Co., Ltd. and Pohang Coated Steel Co., Ltd. (collectively, POSCO), who was the only respondent examined in the original antidumping investigation. See *Certain Corrosion-Resistant Carbon Steel Flat Products From the Republic of Korea: Notice of Final Results of the 2009-2010 Administrative Review and Revocation*, in Part, 77 FR 14501 (March 12, 2012).

We are issuing and publishing the final results of these reviews in accordance with sections 751(c), 752, and 777(i) of the Act.
