II. Discussion

The NRC is proposing to amend its regulations, in part 61 Title 10 of the *Code of Federal Regulations* (10 CFR), "Licensing Requirements for Land Disposal of Radioactive Waste," to require new and revised site-specific analyses and to permit the development of criteria for waste acceptance based on the results of these analyses. These amendments will ensure that waste streams that are significantly different in terms of radiological characteristics (e.g., half-life) from those considered in the technical basis for the current regulations can be disposed of safely and meet the performance objectives. These amendments will also increase the use of site-specific information to ensure that public health and safety would continue to be protected. These changes would revise the existing site-specific analysis for protection of the general population to include a 10,000-year compliance period (i.e., performance assessment); add a new site-specific analysis for the protection of inadvertent intruders that would include a 10,000-year compliance period and a dose limit (i.e., intruder assessment); add a new long-term analysis for certain long-lived wastes that would include a post-10,000-year performance period; and revise the pre-closure analysis to include updates to the performance assessment, intruder assessment, and long-term analyses. The NRC would also be adding a new requirement to develop criteria for the acceptance of waste for disposal based on either the results of these analyses or the existing waste classification requirements. While the existing regulatory requirements are adequate to protect public health and safety, these amendments would enhance the safe disposal of LLRW. The NRC is also proposing additional changes to the regulations for disposal licensees to reduce ambiguity, facilitate implementation, and better align the requirements with current health and safety standards. This rule would affect LLRW disposal facilities that are regulated by the NRC or the Agreement States.

In May, 2011, the NRC published preliminary rule language (76 FR 24831) and the associated regulatory basis document for public comment. Since then, the NRC staff received additional directions from the Commission in a Staff Requirements Memorandum to COMWDM-11-0002/COMGEA-11-0002 (ADAMS accession number

ML120190360). The Commission directed staff to expand the limited-scope revision regarding site-specific analyses to bring a clearer, risk-informed approach to Part 61. Based on the Commission's direction, the NRC staff revised the regulatory basis document associated with this rulemaking and developed a second (November 2012) version of the preliminary rule language.

The NRC is inviting stakeholders to comment on the November 2012 preliminary rule language. The NRC is publishing the November 2012 preliminary rule language and its associated regulatory basis to provide increased awareness to interested stakeholders, inform stakeholders of the current status of the NRC's activities, and solicit public comments on the November 2012 preliminary rule language. The November 2012 preliminary rule language and its associated regulatory basis document supercede the May 2011 versions.

The NRC will review and consider any comments on the November 2012 preliminary rule language received by January 7, 2013. Comments received after this date will be considered if it is practical to do so, but the NRC is able to assure consideration only for comments received on or before this date. Stakeholders will have additional opportunity to comment on the proposed rule when it is published in accordance with the provisions of the Administrative Procedures Act. The NRC will respond to all stakeholder comments in the Statements of Consideration for the final rule.

The NRC may post updates to the preliminary rule language on the Federal rulemaking Web site under Docket ID NRC-2011-0012. The *Regulations.gov* Web site allows members of the public to set-up email alerts so that they may be notified when documents are added to a docket. Users are notified via email at an email address provided at the time of registration for the notification. Directions for signing up for the email alerts can be found at <http://www.regulations.gov>. To do so, navigate to a docket folder you are interested in and then click the "Sign up for Email Alerts" link.

Dated at Rockville, Maryland, this 30th day of November, 2012.

[Docket No.: FAA-2012-0953]

Policy Statement on Occupational Safety and Health Standards for Aircraft Cabin Crewmembers

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of availability; request for comments.

SUMMARY: This notice announces the availability of a proposed policy statement regarding the regulation of some occupational safety and health conditions affecting cabin crewmembers on aircraft by the Occupational Safety and Health Administration (OSHA). This policy statement will enhance occupational safety and health in the aircraft cabin by establishing the extent to which OSHA requirements may apply to the working conditions of aircraft cabin crew while they are onboard aircraft in operation.

DATES: Send comments on or before January 7, 2013.

ADDRESSES: Send comments identified by docket number FAA-2012-0953 using any of the following methods:

- *Federal eRulemaking Portal:* Go to <http://www.regulations.gov> and follow the online instructions for sending your comments electronically.

- *Mail:* Send comments to Docket Operations, M-30; U.S. Department of Transportation (DOT), 1200 New Jersey Avenue SE., Room W12-140, West Building Ground Floor, Washington, DC 20590-0001.

- *Hand Delivery or Courier:* Take comments to Docket Operations in Room W12-140 of the West Building Ground Floor at 1200 New Jersey Avenue SE., Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

- *Fax:* Fax comments to Docket Operations at 202-493-2251.

Privacy: The FAA will post all comments it receives, without change, to <http://www.regulations.gov>, including any personal information the

commenter provides. Using the search function of the docket Web site, anyone can find and read the electronic form of all comments received into any FAA docket, including the name of the individual sending the comment (or signing the comment for an association, business, labor union, etc.). DOT's complete Privacy Act Statement can be found in the **Federal Register** published on April 11, 2000 (65 FR 19477–19478), as well as at <http://DocketsInfo.dot.gov>.

Docket: Background documents or comments received may be read at <http://www.regulations.gov> at any time. Follow the online instructions for accessing the docket or go to the Docket Operations in Room W12–140 of the West Building Ground Floor at 1200 New Jersey Avenue SE., Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: For technical questions concerning this proposed policy statement, contact Gene Kirkendall, Part 121 Air Carrier Operations Branch (AFS–220), Flight Standards Service, Federal Aviation Administration, 800 Independence Avenue SW., Washington, DC 20591; telephone (202) 267–8166; email Gene.Kirkendall@faa.gov.

SUPPLEMENTARY INFORMATION:

Comments Invited

The FAA invites interested persons to participate by submitting written comments, data, or views on the policy statement. The most helpful comments reference a specific portion of the policy statement, explain the reason for any recommended change, and include supporting data. To ensure the docket does not contain duplicate comments, commenters should send only one copy of written comments, or if comments are filed electronically, commenters should submit only one time.

The FAA will file in the docket all comments it receives, as well as a report summarizing each substantive public contact with FAA personnel concerning this notice. The FAA will consider comments filed after the comment period has closed if it is possible to do so without incurring expense or delay. The proposed policy statement is available for review in the assigned docket at <http://www.regulations.gov>.

Background

On July 10, 1975, the FAA published a notice in the **Federal Register** setting forth the FAA's determination that its authority to promote the safety of civil aircraft operations included occupational safety and health for aircraft crewmembers. The FAA

Modernization and Reform Act of 2012 currently requires the FAA to initiate development of a policy statement to set forth the circumstances in which the requirements of the OSHA may be applied to crewmembers while working in an aircraft. Since this proposed policy statement changes an existing FAA policy that has been in effect for 37 years, and this new policy would change the extent of FAA's jurisdiction over cabin crewmembers, FAA believes that the aviation industry as well as all interested parties should have the opportunity to comment on the proposed policy statement before it is implemented.

Therefore, this notice is requesting comment on the proposed policy statement which is available for review in the assigned docket.

Issued in Washington, DC, on November 29, 2012.

[Docket No. TTB–2012–0006; Notice No. 131; Re: T.D. TTB–109]

RIN 1513–AB94

Small Brewers Bond Reduction

AGENCY: Alcohol and Tobacco Tax and Trade Bureau, Treasury.

ACTION: Notice of proposed rulemaking.

SUMMARY: Elsewhere in this issue of the **Federal Register**, the Alcohol and Tobacco Tax and Trade Bureau (TTB) is publishing a temporary rule that for a period of three years modifies the penal sum for a brewer's bond where the excise tax liability of the brewer is reasonably expected to be not more than \$50,000 in the current calendar year and the brewer was liable for not more than \$50,000 in such taxes in the preceding calendar year. Under the temporary rule, for the next three years, the penal sum of the required bond is \$1,000 for such brewers who file excise tax returns and remit taxes quarterly. In this document, TTB proposes to adopt the \$1,000 penal sum amount for the brewer's bond for such brewers as a permanent regulatory change. This document also proposes amendments to the regulatory text to require that such brewers file Federal excise tax returns

and payments quarterly, as well as submit reports of operations quarterly. Finally, TTB is soliciting comments on how the TTB regulations governing brewers' operations might be modified to reduce the burden on brewers and, at the same time, meet all statutory requirements and protect the revenue.

DATES: TTB must receive comments on or before February 5, 2013.
