It also helps the public understand the Department's information collection requirements and provide the requested data in the desired format. ED is soliciting comments on the proposed information collection request (ICR) that is described below. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: Student Assistance General Provisions—Non-Title IV Revenue Requirements (90/10).

OMB Control Number: 1845-0096.

Type of Review: Extension of an existing information collection.

Respondents/Affected Public: Private Sector (Business or for-profit institutions).

Total Estimated Number of Annual Responses: 2,201.

Total Estimated Number of Annual Burden Hours: 3,302 .

Abstract: As provided by the Higher Education Opportunity Act (Pub. L. 110–315), the regulations provide that a proprietary institution must derive at least 10% of its annual revenue from sources other than Title IV, Higher Education Act (HEA) funds, sanctions for failing to meet this requirement, and otherwise implement the statute by (1) Specifying a Net Present Value (NPV) formula used to establish the revenue for institutional loans, (2) providing an

administratively easier alternative to the NPV calculation, and (3) describing more fully the non-Title IV eligible programs from which revenue may be counted for 90/10 purposes. The regulations require an institution to disclose in a footnote to its audited financial statements the amounts of Federal and non-Federal revenues, by category, that it used in calculating its 90/10 ratio (see section 487(d) of the HEA). This request is for extending approval of reporting requirements contained in the regulations related to the administrative requirements of the non-Title IV revenue requirement (90/10) program. The information collection requirements in the regulations are necessary to determine eligibility to receive program benefits and to prevent fraud and abuse of program funds.

Dated: December 5, 2012.

Acting Director, Information Collection Clearance Division, Privacy, Information and Records Management Services, Office of Management.

SUMMARY: The Office of Fossil Energy (FE) of the Department of Energy (DOE) gives notice of the availability of a liquefied natural gas (LNG) export cumulative impact study (LNG Export Study) in the above-referenced proceedings and invites the submission of initial and reply comments regarding the LNG Export Study. DOE commissioned the LNG Export Study to inform DOE's decisions on applications seeking authorization to export LNG from the lower-48 states to non-free trade agreement (FTA) countries.¹ The LNG Export Study consisted of two parts. The first part, performed by the Energy Information Administration (EIA) and originally published in January 2012, assessed how specified scenarios of increased natural gas exports could affect domestic energy markets. The second part, performed by NERA Economic Consulting (NERA) under contract to DOE, evaluated the

macro-economic impact of LNG exports on the U.S. economy using a general equilibrium macroeconomic model of the U.S. economy with an emphasis on the energy sector and natural gas in particular. DOE may use the LNG Export Study to inform its decision in the listed proceedings and for other purposes. Comments submitted in compliance with the instructions in this notice will be placed in the administrative record for all of the above-listed proceedings and need only be submitted once.

DATES: Initial comments are to be filed using procedures detailed in the Public Comment Procedures section no later than 4:30 p.m., eastern time, January 24, 2013. Reply comments are to be filed using the same procedures and will be accepted for filing from January 25, 2013, until 4:30 p.m., eastern time, February 25, 2013.

SUPPLEMENTARY INFORMATION:

Background

Pursuant to section 3 of the Natural Gas Act, 15 U.S.C. 717b, exports of natural gas, including LNG, must be

¹ The LNG Export Study did not consider the impact of exports of Alaska natural gas production. Because there is no natural gas pipeline interconnection between Alaska and the lower-48 states, the macroeconomic consequences of exporting LNG from Alaska are likely to be discrete and separate from those of exporting from the lower-48 states.
