Internal Revenue Service (IRS)

OMB Number: 1545-2197.

Type of Review: Revision of a currently approved collection.

Title: Form 1097-BTC, Bond Tax Credit.

Form: 1097-BTC.

Abstract: This is an information return for reporting tax credit bond credits distributed to holders of tax credit bonds. The taxpayer holding a tax credit bond on an allowance date during a tax year is allowed a credit against federal income tax equivalent to the interest that the bond would otherwise pay. The bondholder must include the amount of the credit in gross income and treat it as interest income. The issuers and holders of the tax credit bond will send Form 1097-BTC to the bond holders quarterly and file the return with the IRS annually.

The methodology used to calculate this burden has been changed from a “business” form to a “special business” form to better reflect more realistic filing requirements. A business form’s calculation variables include attachments, code references, line items and responses. Special business forms only include line items and responses. The exclusion of these business variables in the special business calculation results in an overall decrease in burden of 794,749,486 hours.

Affected Public: Private Sector: Businesses or other For-Profit Institutions.

Estimated Total Burden Hours: 33,538,022.

Treasury PRA Clearance Officer.
