II. Description of the Proposed Amendment

By letter dated June 25, 2012, Utah sent us a proposed amendment to its program (SATS #UT-049-FOR, Administrative Record No. OSM-2012-0015-0002) under SMCRA (30 U.S.C. 1201 *et seq.*). Utah sent the proposed amendment in response to an October 2, 2009 letter (Administrative Record No. OSM-2012-0015-0003) that OSM sent to Utah in accordance with 30 CFR 732.17(c). The full text of the program amendment is available for you to read at the locations listed above under **ADDRESSES**.

We announced receipt of the proposed amendment in the September 5, 2012, **Federal Register** (77 FR 54491), provided an opportunity for a public hearing or meeting on its substantive adequacy, and invited public comment on its adequacy (Administrative Record No. OSM-2012-0015-0001). Because no one requested a public hearing or meeting, none was held. The public comment period ended on October 5, 2012. We received comments from three Federal agencies.

During our review of the amendment, we identified concerns relating to two provisions of the Utah Administrative Code (UAC) at R643-874-160 and R643-875-200. Both provisions specify contractor eligibility criteria for abandoned mine land reclamation projects (general requirements and noncoal reclamation requirements, respectively). The UAC references Federal regulations for those contractor eligibility criteria. The references are currently incorrect due to changes in the Federal Program approved on December 3, 2007 (72 FR 68029) and November 14, 2008 (73 FR 67630). We notified Utah of the concerns by email dated October 4, 2012 (Administrative Record No. OSM-2012-0015-0009). Utah responded in a letter dated November 2, 2012, by submitting a supplemental amendment proposal (Administrative Record No. OSM-2012-0015-0008).

Utah now proposes revisions to update R643-874-160 and R643-875-200 to reference the current Federal contractor eligibility requirements. Specifically, Utah proposes to replace its reference to 30 CFR “773.15(b)(1),” which no longer exists, with reference to 30 CFR “773.12 through 773.14.”

III. Public Comment Procedures

Under the provisions of 30 CFR 732.17(h), we are seeking your comments on whether the amendment satisfies the applicable program approval criteria of 30 CFR 732.15. If we approve the amendment, it will become part of the Utah program.

Electronic or Written Comments

If you submit written comments, they should be specific, confined to issues pertinent to the proposed regulations, and explain the reason for any recommended change(s). We appreciate any and all comments, but those most useful and likely to influence decisions on the final regulations will be those that either involve personal experience or include citations to and analyses of SMCRA, its legislative history, its implementing regulations, case law, other pertinent State or Federal laws or regulations, technical literature, or other relevant publications.

We cannot ensure that comments received after the close of the comment period (see **DATES**) or sent to an address other than those listed above (see **ADDRESSES**) will be included in the docket for this rulemaking and considered.

Public Availability of Comments

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available in the electronic docket for this rulemaking at www.regulations.gov. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

VI. Procedural Determinations

Executive Order 12866—Regulatory Planning and Review

This rule is exempted from review by the Office of Management and Budget (OMB) under Executive Order 12866 (Regulatory Planning and Review).

Other Laws and Executive Orders Affecting Rulemaking

When a State submits a program amendment to OSM for review, our

regulations at 30 CFR 732.17(h) require us to publish a notice in the **Federal Register** indicating receipt of the proposed amendment, its text or a summary of its terms, and an opportunity for public comment. We conclude our review of the proposed amendment after the close of the public comment period and determine whether the amendment should be approved, approved in part, or not approved. At that time, we will also make the determinations and certifications required by the various laws and executive orders governing the rulemaking process and include them in the final rule.

Drawbridge Operation Regulation; Bear Creek, Dundalk, MD

AGENCY: Coast Guard, DHS.

ACTION: Proposed rule; withdrawal.

SUMMARY: The Coast Guard is withdrawing its proposed rule concerning the proposed change to regulations governing the operation of the Baltimore County highway bridge at Wise Avenue across Bear Creek, mile 3.4, between Dundalk and Sparrows Point, MD. The proposed change would have altered the current four hour advance notice requirement for a bridge opening to a 48-hour advance notice for a bridge opening.

DATES: The notice of proposed rulemaking is withdrawn on December 12, 2012.

ADDRESSES: The docket for this withdrawn rulemaking is available for inspection or copying at the Docket Management Facility (M-30), U.S. Department of Transportation, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue SE., Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday,

except Federal holidays. You may also find this docket on the Internet by going to <http://www.regulations.gov>, inserting USCG–2011–1062 in the “Search” box, and then clicking “Search.”

SUPPLEMENTARY INFORMATION:

Background

On February 2, 2012, we published a Notice of Proposed Rulemaking entitled “Drawbridge Operation Regulation; Bear Creek, Dundalk, MD” in the **Federal Register** (77 FR 5201). The rulemaking concerned would alter the current four hour advance notice requirement for a bridge opening, found in 33 CFR 117.543(b), to a 48-hour advance notice.

Baltimore County requested to reduce the necessity for bridge openings based on bridge logs provided over a two year period. However, prior to the publication of the notice of proposed rulemaking the bridge owner displayed on the Wise Avenue Bridge signage that stated a 48-hour advance notice was required to open the draw bridge. This signage portrayed improper operational information since the current operation regulation had not changed. The Coast Guard determined the signage that stated a 48-hour advance notice was required for a bridge opening was misleading to the public and navigational users.

Withdrawal

Baltimore County, responsible for the operation of the Wise Avenue Bridge, had requested advance notification of vessel openings. Following publication of the notice of proposed rulemaking, the Coast Guard received two comments opposing changes to the regulation. Both comments felt the 48-hour advance notice was unnecessary and too burdensome to the waterway users. One of the comments stated signage had been placed on the bridge providing information misleading to the public. Baltimore County admitted establishing signage on the bridge prior to the publication of the notice of proposed rulemaking citing the bridge would open with a 48-hour notice prior to approval from the regulatory process. The second comment stated that a 24-hour advance notice would be better

than the proposed 48 hours. Due to the bridge owner displaying misleading and inaccurate signage during a public comment period and prior to any change in the bridge opening regulations, the Coast Guard is withdrawing the proposed rule. The owner may, however, request a new notice of proposed rulemaking for a future period in which the inaccurate signage is not posted.

Authority

We issue this notice of withdrawal under the authority of 33 U.S.C. 499; 33 CFR 1.05–1; Department of Homeland Security Delegation No. 0170.1.

Dated: December 4, 2012.
