Background and Purpose

On September 7, 2012, the Coast Guard published a notice of proposed policy change and request for comments regarding criteria for granting medical waivers to mariners who have anti-tachycardia devices or ICDs (77 FR 55174). The notice contains a detailed description of the relevant regulatory provisions, guidance documents, and policy considerations. The notice also lists a series of 12 questions we are considering as the criteria for granting a medical waiver. The notice requests public comment regarding whether the 12 questions represent an appropriate and sufficient list of the criteria a mariner should be required to meet in order to be eligible for waiver consideration, or whether we should eliminate or modify any of the questions, or add other questions to the list.

We received 33 public comments in response to the notice before the comment period closed on October 9, 2012. Because of the complexity and importance of the issues involved, we are reopening the comment period to provide interested parties additional time to submit comments. We request that you not re-submit comments already in the docket. We may, however, comment on other comments already in the docket; if you choose to do so, please ensure you identify which comment you are responding to.

Request for Comments

We encourage your participation by submitting your comments to the Docket Management Facility as specified in the ADDRESSES section above. We will consider comments received during the reopened comment period prior to establishing a final policy on whether waivers should be granted for anti-tachycardia devices or ICDs, and if so, under what circumstances.

Authority

We issue this request for public comments under the authority of 5 U.S.C. 552(a).

P.F. Thomas,
Captain, U.S. Coast Guard, Director of Inspections and Compliance.
