Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the "Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on December 3, 2012, the International Securities Exchange, LLC (the "Exchange" or the "ISE") filed with the Securities and Exchange Commission the proposed rule change, as described in Items I, II, and III below, which items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The ISE proposes to amend its Schedule of Fees. The text of the proposed rule change is available on the Exchange's Web site (<http://www.ise.com>), at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in sections A, B and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange currently assesses per contract transaction fees and provides rebates to market participants that add or remove liquidity from the Exchange

("maker/taker fees and rebates") in 155 options classes (the "Select Symbols").³ The Exchange's maker/taker fees and rebates are applicable to regular and complex orders executed in the Select Symbols. The Exchange also currently assesses maker/taker fees and rebates for complex orders in symbols that are in the Penny Pilot program but are not a Select Symbol ("Non-Select Penny Pilot Symbols")⁴ and in all symbols that are not in the Penny Pilot Program ("Non-Penny Pilot Symbols").⁵

The purpose of this proposed rule change is to amend the list of Select Symbols. Specifically, the Exchange proposes to add the following 35 symbols to the list of Select Symbols: American Capital Ltd. ("ACAS"), Adobe Systems Inc. ("ADBE"), AK Steel Holding Corp. ("AKS"), Applied Materials Inc. ("AMAT"), Brocade Communications Systems ("BRCD"), Boston Scientific Corp. ("BSX"), CSX Corp. ("CSX"), Delcath Systems Inc. With the addition of the Additional Select Symbols to Select Symbols, the fees currently applicable to regular and complex orders in the Select Symbols will now be applied to regular and complex orders in the Additional Select Symbols.

Regular Order Fees and Rebates

The Exchange currently applies transaction fees to regular orders in the Additional Select Symbols, as follows:⁶

> For Market Maker⁷ orders, a fee of \$0.18 per contract;⁸

> For Market Maker (for orders sent by Electronic Access Members), Firm Proprietary/Broker-Dealer and Professional Customer⁹ orders, a fee of \$0.20 per contract;

> For Non-ISE Market Maker¹⁰ orders, a fee of \$0.45 per contract;

> For Priority Customer¹¹ orders, a fee of \$0.00 per contract.

The Exchange currently charges a fee of \$0.20 per contract to all market participants (except for Market Makers, this fee is currently \$0.18 per contract,¹² and for Priority Customers, this fee is \$0.00 per contract) for regular Crossing Orders in the Non-Select Penny Pilot Symbols (this fee currently applies to the Additional Select Symbols as they are a subset of Non-Select Penny Pilot Symbols). The Exchange also currently charges a fee of \$0.20 per contract to all market participants (except for Non-ISE Market Makers, this fee is currently \$0.45 per contract, and for Market Makers, this fee is \$0.18 per contract¹³) for regular Responses to Crossing Orders in the Non-Select Penny Pilot Symbols (this fee currently applies to the

Additional Select Symbols as they are a subset of Non-Select Penny Pilot Symbols).

With this proposed rule change, the Additional Select Symbols will now be subject to the maker/taker fees and rebates applicable to Regular orders in the Select Symbols.¹⁴ The Exchange currently charges the following maker fees and rebates for Select Symbols: (i) For Market Maker, Non-ISE Market Maker, Firm Proprietary/Broker-Dealer and Professional Customer orders, \$0.10 per contract; (ii) for Priority Customer orders, \$0.00 per contract; and (iii) for Market Maker Plus¹⁵ orders, a rebate of \$0.10 per contract. The Exchange also currently charges the following taker fees for Select Symbols: (i) For Market Maker and Market Maker Plus orders, \$0.32 per contract; (ii) for Non-ISE Market Maker orders, \$0.36 per contract; (iii) for Firm Proprietary/Broker-Dealer and Professional Customer orders, \$0.33 per contract; and (iv) for Priority Customer orders, \$0.25 per contract.

The Exchange currently charges Market Maker, Non-ISE Market Maker, Firm Proprietary/Broker-Dealer and Professional Customers a fee of \$0.20 per contract (\$0.00 per contract for Priority Customers) for regular Crossing Orders in the Select Symbols, and a fee of \$0.40 per contract to all market participants for regular Responses to Crossing Orders in the Select Symbols. With this proposed rule change, the fee for regular Crossing Orders in the Additional Select Symbols will remain at \$0.20 per contract for most market participants. For Priority Customers, this fee will remain at \$0.00 per contract, and for Market Makers, this fee

will increase, from \$0.18 per contract¹⁶ to \$0.20 per contract. With this proposed rule change, the fee for regular Responses to Crossing Orders will increase for most market participants, from \$0.20 per contract to \$0.40 per contract, with the exception of Non-ISE Market Makers who will now pay a lower fee of \$0.40 per contract as opposed to \$0.45 per contract.

The Exchange also currently provides a rebate of \$0.25 per contract for contracts that are submitted to the Price Improvement Mechanism that do not trade with their contra order in the Select Symbols, and a rebate of \$0.15 per contract for contracts that are submitted to the Facilitation and Solicited Order Mechanisms that do not trade with their contra order in the Select Symbols except when those contracts trade against pre-existing orders and quotes on the Exchange's orderbooks. With this proposed rule change, market participants trading in the Additional Select Symbols will now be eligible for rebates that were not previously available for this group of symbols. Specifically, market participants will now receive a rebate of \$0.25 per contract for contracts that are submitted to the Price Improvement Mechanism that do not trade with their contra order in the Additional Select Symbols. Further, market participants will now also receive a rebate of \$0.15 per contract for contracts that are submitted to the Facilitation and Solicited Order Mechanisms that do not trade with their contra order in the Additional Select Symbols except when those contracts trade against pre-existing orders and quotes on the Exchange's orderbooks.

Further, the Exchange currently charges Primary Market Makers (PMMs) a transaction fee of \$0.18 per contract¹⁷ in the Additional Select Symbols when they trade report a Priority Customer or Professional Customer order in accordance with their obligation to provide away market price protection. PMMs in Select Symbols do not receive a maker rebate nor pay a taker fee when trading reporting.¹⁸ With this proposed rule change, PMMs in the Additional Select Symbols will also not receive a maker rebate nor pay a taker fee when trade reporting.

⁶ Additional Select Symbols are currently subject to the standard transaction fee listed in the table titled Non-Select Symbols. See Schedule of Fees, Section I, Regular Order Fees and Rebates.

⁷ The term "Market Makers" refers to "Competitive Market Makers" and "Primary Market Makers" collectively. See ISE Rule 100(a)(25).

⁸ The Exchange provides a volume-based discount to fees to ISE Market Maker contracts for regular orders in Non-Select Symbols. See Schedule of Fees, Section IV, C. ISE Market Maker Discount Tiers.

⁹ A Professional Customer is a person who is not a broker/dealer and is not a Priority Customer.

¹⁰ A Non-ISE Market Maker, or Far Away Market Maker ("FARMM"), is a market maker as defined in Section 3(a)(38) of the Securities Exchange Act of 1934 registered in the same options class on another options exchange.

¹¹ A Priority Customer is defined in ISE Rule 100(a)(37A) as a person or entity that is not a broker/dealer in securities, and does not place more than 390 orders in listed options per day on average during a calendar month for its own beneficial account(s).

¹² The volume-based discount to fees to ISE Market Maker contracts also applies to regular Crossing Orders. See *supra*, note 8.

¹³ The volume-based discount to fees to ISE Market Maker contracts also applies to regular Responses to Crossing Orders. See *supra*, note 8.

¹⁴ See Schedule of Fees, Section I, Regular Order Fees and Rebates.

¹⁵ In order to promote and encourage liquidity in the Select Symbols, the Exchange currently offers a \$0.10 per contract rebate to Market Makers if the quotes they sent to the Exchange qualify the Market Maker to become a Market Maker Plus.

A Market Maker Plus is a Market Maker who is on the National Best Bid or National Best Offer 80% of the time for series trading between \$0.03 and \$5.00 (for options whose underlying stock's previous trading day's last sale price was less than or equal to \$100) and between \$0.10 and \$5.00 (for options whose underlying stock's previous trading day's last sale price was greater than \$100) in premium in each of the front two expiration months and 80% of the time for series trading between \$0.03 and \$5.00 (for options whose underlying stock's previous trading day's last sale price was less than or equal to \$100) and between \$0.10 and \$5.00 (for options whose underlying stock's previous trading day's last sale price was greater than \$100) in premium for all expiration months in that symbol during the current trading month. A Market Maker's single best and single worst overall quoting days each month, on a per symbol basis, is excluded in calculating whether a Market Maker qualifies for this rebate, if doing so will qualify a Market Maker for the rebate.

¹⁶ The volume-based discount to fees to ISE Market Maker contracts also applies. See *supra*, note 8.

¹⁷ The volume-based discount to fees to ISE Market Maker contracts also applies. See *supra*, note 8.

¹⁸ See Schedule of Fees, Section I, Regular Order Fees and Rebates, footnote 9.

Complex Order Fees and Rebates

With this proposed rule change, the maker fee for complex orders in the Additional Select Symbols will remain unchanged because the Exchange currently charges the same maker fee for complex orders in Select Symbols and Penny Pilot Symbols.¹⁹ Specifically, for Select Symbols and Penny Pilot Symbols, the Exchange currently charges a complex order maker fee of: (i) \$0.10 per contract for Market Maker, Firm Proprietary/Broker-Dealer and Professional Customer orders; (ii) \$0.20 per contract for Non-ISE Market Maker orders; and (iii) \$0.00 per contract for Priority Customer orders.

With this proposed rule change, the maker fee for complex orders in the Additional Select Symbols when trading against Priority Customers will also remain unchanged because, once again, the Exchange currently charges the same maker fee for complex orders in Select Symbols when trading against Priority Customers (excluding SPY) and Non-Select Penny Pilot Symbols when trading against Priority Customers.²⁰ Specifically, for complex orders in Select Symbols when trading against Priority Customer (excluding SPY) and Non-Select Penny Pilot Symbols when trading against Priority Customers complex orders, the Exchange currently charges a maker fee of: (i) \$0.37 per contract for Market Maker orders; (ii) \$0.39 per contract for Non-ISE Market Maker, Firm Proprietary/Broker-Dealer and Professional Customer orders; and (iii) \$0.00 per contract for Priority Customer orders.

With this proposed rule change, the taker fee for complex orders in the Additional Select Symbols will remain unchanged because the Exchange currently charges the same taker fee for complex orders in Select Symbols and Non-Select Penny Pilot Symbols.²¹ Specifically, for complex orders in Select Symbols (excluding SPY) and Non-Select Penny Pilot Symbols, the Exchange currently charges a taker fee of: i) \$0.37 per contract for Market Maker orders; ii) \$0.39 per contract for Non-ISE Market Maker, Firm Proprietary/Broker-Dealer and

Professional Customer orders; and iii) \$0.00 per contract for Priority Customer orders.

With this proposed rule change, the Fee for Crossing Orders when trading complex orders in the Additional Select Symbols will remain unchanged because the Exchange currently charges \$0.20 per contract (for largest leg only) for complex Crossing Orders in all symbols, except for Priority Customers who are currently charged \$0.00 per contract. Further, the Fee for Responses to Crossing Orders when trading complex orders will also remain unchanged because the Exchange currently charges \$0.40 per contract for Responses to Crossing Orders when trading complex orders in Select Symbols and Penny Pilot Symbols.²²

With this proposed rule change, the rebate levels payable for Priority Customer complex orders in the Additional Select Symbols will increase because the rebate levels payable for Priority Customer complex orders in the Select Symbols are higher than the rebate levels currently payable for Priority Customer complex orders in Non-Select Penny Pilot Symbols, as described below.

For the Additional Select Symbols, the Exchange currently provides a base rebate of \$0.33 per contract, per leg, for Priority Customer complex orders when these orders trade with non-Priority Customer complex orders in the complex order book.²³ Additionally, Members who achieve a certain level of average daily volume (ADV) of executed Priority Customer complex order contracts across all symbols during a calendar month are provided a rebate of \$0.34 per contract, per leg, in these symbols, if a Member achieves an ADV of 40,000 Priority Customer complex order contracts; \$0.36 per contract, per leg, in these symbols, if a Member achieves an ADV of 75,000 Priority Customer complex order contracts; \$0.37 per contract, per leg, in these symbols, if a Member achieves an ADV of 125,000 Priority Customer complex order contracts; and \$0.38 per contract, per leg, in these symbols, if a Member achieves an ADV of 225,000 Priority Customer complex order contracts. The highest rebate amount achieved by the Member for the current calendar month applies retroactively to all Priority

Customer complex order contracts that trade with non-Priority Customer complex orders in the complex order book executed by the Member during such calendar month.

For Select Symbols (excluding SPY), the Exchange currently provides a base rebate of \$0.34 per contract, per leg, for Priority Customer complex orders when these orders trade with non-Priority Customer complex orders in the complex order book. Additionally, Members who achieve a certain level of average daily volume (ADV) of executed Priority Customer complex order contracts across all symbols during a calendar month are provided a rebate of \$0.36 per contract, per leg, in these symbols, if a Member achieves an ADV of 40,000 Priority Customer complex order contracts; \$0.37 per contract, per leg, in these symbols, if a Member achieves an ADV of 75,000 Priority Customer complex order contracts; \$0.38 per contract, per leg, in these symbols, if a Member achieves an ADV of 125,000 Priority Customer complex order contracts; and \$0.39 per contract, per leg, in these symbols, if a Member achieves an ADV of 225,000 Priority Customer complex order contracts. The highest rebate amount achieved by the Member for the current calendar month applies retroactively to all Priority Customer complex order contracts that trade with non-Priority Customer complex orders in the complex order book executed by the Member during such calendar month. With this proposed rule change, the increased rebate levels currently payable for Priority Customer complex orders in Select Symbols will now apply to Priority Customer complex orders in the Additional Select Symbols.

Additionally, the Exchange currently provides Market Makers with a two-cent discount when trading against Priority Customer orders that are preferenced to them. This discount is applicable when Market Makers add or remove liquidity in, among other symbols, Select Symbols and Non-Select Penny Pilot Symbols. The Additional Select Symbols are currently a part of the Non-Select Penny Pilot Symbols and therefore the two-cent discount currently applies to these symbols and will continue to apply to these symbols when they become Select Symbols.

Further, the Exchange currently provides a \$0.20 per contract fee credit to PMMs for execution of Priority Customer orders in the Non-Select Penny Pilot Symbols—for classes in which it serves as a PMM—that send an Intermarket Sweep Order to other exchanges. This credit is applied regardless of the transaction fee charged

¹⁹ Additional Select Symbols are currently subject to the fee listed in the column titled Maker Fee for Select Symbols and Penny Pilot Symbols. See Schedule of Fees, Section II, Complex Order Fees and Rebates.

²⁰ Additional Select Symbols are currently subject to the fee listed in the column titled Maker Fee for Non-Select Penny Pilot Symbols when trading against Priority Customer. See Schedule of Fees, Section II, Complex Order Fees and Rebates.

²¹ Additional Select Symbols are currently subject to the fee listed in the column titled Taker Fee for Non-Select Penny Pilot Symbols. See Schedule of Fees, Section II, Complex Order Fees and Rebates.

²² Additional Select Symbols are currently subject to the fee listed in the column titled Fee for Responses to Crossing Orders for Select Symbols and Penny Pilot Symbols. See Schedule of Fees, Section II, Complex Order Fees and Rebates.

²³ Additional Select Symbols are currently subject to the rebate listed in the column titled Rebate for non-Select Penny Pilot Symbols. See Schedule of Fees, Section II, Complex Order Fees and Rebates.

by a destination market. For PMMs in the Select Symbols, this credit is equal to the fee charged by the destination market. With this proposed rule change, PMMs in the Additional Select Symbols will now be provided with a credit that is equal to the fee charged by the destination market.

The Exchange also currently provides a \$0.20 per contract credit for responses to flash orders in the Non-Select Penny Pilot Symbols when trading against Professional Customers. For Select Symbols, the per contract fee credit for responses to flash orders is (i) \$0.10 per contract when trading against Priority Customers; (ii) \$0.12 per contract when trading against Preferred Priority Customers; and (iii) \$0.10 per contract when trading against Professional Customers. Market participants trading in the Additional Select Symbols will now be provided the rebate at levels that are currently in place for Select Symbols, as described above.

With this proposed rule change, the Exchange expects to attract additional order flow of regular and complex orders in the Additional Select Symbols. The Exchange's maker/taker fees and rebates have been effective in attracting order flow of regular and complex orders in the Select Symbols and increasing its market share in these symbols. The Exchange believes that applying its maker/taker fees and rebates to the Additional Select Symbols will result in the Exchange increasing its market share for regular and complex orders in these symbols.

With this proposed rule change, the taker fees and Response to Crossing Order fees charged to all market participants for regular orders in the Additional Select Symbols will increase, except for Non-ISE Market Makers whose fee will decrease, while the maker fees for regular orders in the Additional Select Symbols will decrease, except for Priority Customer maker fees, which will remain the same at \$0.00 per contract. Market Makers will now also be eligible for the Market Maker Plus rebate, which was previously not applicable to the Additional Select Symbols. This proposed rule change does not proposed any change to the maker and taker fees for complex orders in the Additional Select Symbols as those fees remain unchanged. The rebate levels payable for Priority Customer complex orders in the Additional Select Symbols will, however, increase compared to the current rebate levels for this group of symbols.

2. Statutory Basis

The Exchange believes that its proposal to amend its Schedule of Fees is consistent with Section 6(b) of the Act²⁴ in general, and furthers the objectives of Section 6(b)(4) of the Act²⁵ in particular, in that it is an equitable allocation of reasonable fees and other charges among Exchange members and other persons using its facilities.

The Exchange believes that it is reasonable to add the Additional Select Symbols to the current list of Select Symbols. The Exchange believes that applying the fees and rebates applicable to Select Symbols to the Additional Select Symbols will attract additional order flow to the Exchange. Select Symbol pricing has proven beneficial for the Exchange and its participants and the Exchange believes that moving the Additional Select Symbols to Select Symbols pricing would enhance liquidity and participation in those symbols.

The Exchange believes that it is equitable and not unfairly discriminatory to amend its list of Select Symbols to add the Additional Select Symbols because the fees and rebates for Select Symbols would apply uniformly to all categories of participants in the same manner. All market participants who trade options in the Select Symbols would be uniformly subject to the fees and rebates applicable to those symbols.

The Exchange believes the proposed rule change is reasonable and equitable because it lowers the maker fees applicable to market participants and believes that the lower maker fees will attract additional maker liquidity and size to the Exchange in the Additional Select Symbols. Additionally, while this proposed rule change proposes to increase the taker fees applicable to market participants, the Exchange believes the benefits of better market quality will outweigh the taker fee increases based on the Exchange's experience with trading in the Select Symbols.

Further, the Exchange believes this proposed rule change is reasonable and equitable because it will result in market participants receiving higher rebates for Priority Customer complex orders when these orders trade with non-Priority Customer complex orders in the complex order book as the current rebate payable for these orders in Select Symbols is higher than the current rebate payable for these orders in Additional Select Symbols. The Exchange believes that it is reasonable

and equitable to provide rebates for Priority Customer complex orders when these orders trade with Non-Priority Customer complex orders in the complex order book because paying a rebate would continue to attract additional order flow to the Exchange and create liquidity in the symbols that are subject to the rebate, which the Exchange believes ultimately will benefit all market participants who trade on ISE. The Exchange already provides these rebates, and is now merely proposing to increase the rebate amounts applicable to the Additional Select Symbols. With this proposed rule change, Market Makers will also now be eligible to receive the Market Maker Plus rebate which was not previously applicable to the Additional Select Symbols. The Exchange believes that the proposed rebates are competitive with rebates provided by other exchanges and are therefore reasonable and equitably allocated to those members that direct orders to the Exchange rather than to a competing exchange.

The Exchange believes that it is reasonable and equitable to provide a two-cent discount to Market Makers on preferred orders as an incentive for them to quote in the complex order book. ISE notes that with this proposed rule change, the Exchange will continue to maintain a two cent differential that was previously in place for Additional Select Symbols.

The Exchange believes that the proposed changes are non-discriminatory because the proposal simply moves the Additional Select Symbols from one category of fees into another category thereby applying fees currently in effect. Further, the Exchange believes that it is equitable and not unfairly discriminatory to amend its list of Select Symbols to add the Additional Select Symbols to the Select Symbols because the fees applicable to the Select Symbols would apply uniformly to all categories of participants in the same manner. All market participants who trade the Select Symbols would be uniformly subject to the fees and rebates applicable to those symbols.

Further, the complex order pricing employed by the Exchange has proven to be an effective pricing mechanism and attractive to Exchange participants and their customers. The Exchange believes that this proposed rule change will continue to attract additional complex order business in the symbols that are subject of this proposed rule change. The Exchange believes that the proposed fees and rebates are fair, equitable and not unfairly

²⁴ 15 U.S.C. 78f(b).

²⁵ 15 U.S.C. 78f(b)(4).

discriminatory because they are consistent with price differentiation and fee structures that exists today at other option exchanges. The Exchange operates in a highly competitive market in which market participants can readily direct order flow to another exchange if they deem fee and rebate levels at a particular exchange to be too low or too high, as the case may be. With this proposed rule change, the Exchange believes it remains an attractive venue for market participants to trade regular and complex orders in the Select Symbols and the Additional Select Symbols.

B. Self-Regulatory Organization's Statement on Burden on Competition

The proposed rule change does not impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

The Exchange has not solicited, and does not intend to solicit, comments on this proposed rule change. The Exchange has not received any unsolicited written comments from members or other interested parties.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act²⁶ and subparagraph (f)(2) of Rule 19b-4 thereunder,²⁷ because it establishes a due, fee, or other charge imposed by ISE.

At any time within 60 days of the filing of such proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. Solicitation of Comments
