This Notice also lists the following information:

Title of Proposal: Evaluating Outcomes of HUD's Healthy Homes Demonstration Grants.

OMB Control Number: To be assigned.

Need for the Information and Proposed Use: The mission of HUD's Healthy Homes Program is "To reduce health and safety hazards in housing in a comprehensive and cost effective manner, with a particular focus on protecting the health of children and other sensitive populations in low income households." (*Leading Our Nation to Healthier Homes: The Healthy Homes Strategic Plan*, U.S. Department of Housing and Urban Development Office of Healthy Homes and Lead Hazard Control, 2010, p. 7.) An evaluation and summarization of grants

awarded under the program was last completed in 2005 (“*An Evaluation of HUD’s Healthy Homes Initiative: Current Findings and Outcomes*,” Healthy Housing Solutions, March 5, 2007).

The objectives of the Healthy Homes Demonstration (HHD) grants that will be evaluated through the effort described in this notice include:

- Carrying out direct remediation where housing-related hazards may contribute to injury or illness, with a focus on children’s health;
- Delivering education and outreach activities to protect children from housing-related hazards; and
- Building capacity to increase the probability that aspects of grant-supported Healthy Homes programs are sustained.

OHHLHC intends to administer an online questionnaire for up to 30 HHD grantees. This questionnaire will

capture key project information to supplement information already available in reports and manuscripts from the approximately 54 HHD grants that were awarded from fiscal years 2005 to 2009, including any 2004 grant not included in the earlier evaluation, and any more recent grantee whose grant ends this fiscal year. OHHLHC is especially interested in determining whether any of the grantee’s data sets (i.e., resulting from project evaluation) would be of value to OHHLHC for additional analyses. After a review of available reports and manuscripts, OHHLHC anticipates roughly half of these grantees (up to 30) will be asked to complete the online questionnaire. OHHLHC will target those grantees that have carried out the greatest number of interventions, collected the most detailed evaluation data on cost, health and housing impacts and outcomes, and can demonstrate significant capacity-

building and sustainable approaches to guide policy development and guidance for future healthy homes efforts.

A questionnaire was developed for the 2005 evaluation that captured key information about recruitment/enrollment, assessment, interventions, skills training, and community education/outreach in HHI grantee projects. This questionnaire will be modified for this new data collection effort. The online questionnaire will be administered through a secure Web site.

Agency Form Numbers: None.

Members of Affected Public: HUD Office of Healthy Homes Demonstration grantees (i.e., not-for profit and for-profit firms located in the United States, state and local governments, federally recognized Indian Tribes, and colleges and universities). Participation is voluntary. The only cost to respondents is their time.

TOTAL BURDEN ESTIMATE

Requirement	Number of respondents	Hours per respondent	Total hours	Cost per hour	Labor cost	Startup cost	O&M cost	Total cost
Complete questionnaire	30	16	480	\$32.75	\$15,720	\$0	\$0	\$15,720
Total	30	16	480	15,720	0	0	15,720

Status of the Proposed Information Collection: New request. OMB approval is requested for up to two years, with data collection beginning approximately July 2013.

Authority: The Paperwork Reduction Act of 1995, 44 U.S.C. Chapter 35, as amended.

Dated: December 12, 2012.

Jon L. Gant,

Director, HUD Office of Healthy Homes and Lead Hazard Control.

SUPPLEMENTARY INFORMATION: Under a Safe Harbor Agreement, participating landowners voluntarily undertake conservation activities on their property to benefit species listed under the ESA (16 U.S.C. 1531 *et seq.*). Enrolled landowners have the option to return their property to baseline conditions established at the time the Agreement was developed. If the Agreement meets all the permit issuance criteria, we issue an enhancement-of-survival permit under section 10(a)(1)(A) of the ESA. The permit authorizes incidental take of the covered species that may result from implementation of conservation actions,
