Agency Information Collection Activities: Submission for the Office of Management and Budget (OMB) Review; Comment Request

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of the OMB review of information collection and solicitation of public comment.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) has recently submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35). The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. 2. *The title of the information collection:* NRC's Policy Statement on Cooperation with States at Commercial Nuclear Power Plants and Other Nuclear Production and Utilization Facilities.
3. *Current OMB approval number:* 3150-0163.
4. *The form number if applicable:* N/A.
5. *How often the collection is required:* On occasion, when a State wishes to observe NRC inspection or perform inspections for the NRC.
6. *Who will be required or asked to report:* Nuclear Power Plant Licensees, Materials Security Licensees and those States interested in observing or performing inspections.
7. *An estimate of the number of annual responses:* 70.
8. *The estimated number of annual respondents:* 55.
9. *An estimate of the total number of hours needed annually to complete the requirement or request:* 1,000.
10. *Abstract:* States are involved and interested in monitoring the safety

status of nuclear power plants and radioactive materials. This involvement is, in part, in response to the States' public health and safety responsibilities and, in part, in response to their citizens' desire to become more knowledgeable about the safety of nuclear power plants and radioactive materials. States have identified NRC inspections as one possible source of knowledge for their personnel regarding plant and materials licensee activities, and the NRC, through the policy statement on Cooperation with States, has been amenable to accommodating the States' needs in this regard. Additionally, the NRC has entered into reimbursable Agreements with certain States under Section 274i of the Act, as amended, to employ their resources to conduct radioactive materials security inspections against NRC Orders.

I. Introduction

Notice of filing. On December 13, 2012, the Postal Service filed a notice announcing that it is entering into an additional Global Expedited Package Services (GEPS) 3 contract (Agreement).¹ The Postal Service seeks to have the Agreement included within the GEPS 3 product on grounds of functional equivalence to a previously approved baseline agreement. *Id.* at 2.

Background. Customers for GEPS contracts are small- or medium-sized businesses that mail products directly to foreign destinations using Express Mail International, Priority Mail International, or both. *Id.* at 4. The Commission added GEPS 1 to the competitive product list, based on Governors' Decision No. 08-7, by operation of Order No. 86. *Id.* at 1. It later approved the addition of GEPS 3 contracts to the competitive product list

¹ Notice of United States Postal Service of Filing a Functionally Equivalent Global Expedited Package Services 3 Negotiated Service Agreement and Application for Non-Public Treatment of Materials Filed Under Seal, December 13, 2012 (Notice). The Notice was filed in accordance with 39 CFR 3015.5. *Id.* at 1.

as a result of Docket No. MC2010–28.² The Commission designated the contract filed in companion Docket No. CP2010–71 as the baseline agreement for purposes of establishing the functional equivalency of other agreements proposed for inclusion within the GEPS 3 product. Notice at 1–2.

II. Contents of Filing

The filing includes a Notice, along with the following attachments:

- Attachment 1—a redacted copy of the Agreement;
- Attachment 2—a redacted copy of the certification required under 39 CFR 3015.5(c)(2);
- Attachment 3—a redacted copy of Governors' Decision No. 08–7; and
- Attachment 4—an application for non-public treatment of material filed under seal.

The material filed under seal consists of unredacted copies of the Agreement and supporting financial documents. *Id.* at 2.

Functional equivalency. The Postal Service asserts that the instant Agreement and the baseline agreement are functionally equivalent because they share similar cost and market characteristics. *Id.* at 3. It notes that the pricing formula and classification established in Governors' Decision No. 08–7 ensure that each GEPS contract meets the criteria of 39 U.S.C. 3633 and related regulations. *Id.* The Postal Service further asserts that the functional terms of the two agreements are the same and the benefits are comparable. *Id.*

The Postal Service states that prices may differ, depending on when an agreement is signed, due to updated costing information. *Id.* at 4. It also identifies other differences in contractual terms, but asserts that the differences do not affect either the fundamental service being offered or the fundamental structure of the Agreement.³ *Id.*

Effective date; term. The Postal Service will inform its contracting partner of the effective date of the Agreement via notice provided as soon as possible, but no later than, 30 days after receiving all necessary regulatory approvals. *Id.* Attachment 1 at 7. The Agreement is to remain in effect for one calendar year, unless terminated sooner. *Id.*
