Animal and Plant Health Inspection Service

Title: Specimen Submission.

OMB Control Number: 0579-0090.

Summary of Collection: The Animal Health Protection Act of 2002 (AHPA) is the primary Federal law governing the protection of animal health. The law gives the Secretary of Agriculture broad authority to detect, control, or eradicate pests or diseases of livestock or poultry. Disease prevention is the most effective method for maintaining a healthy animal population and for enhancing the United States' ability to globally compete in the trade of animals and animal products. VS Forms 10-4 and 10-4A, Specimen Submission are critical components of APHIS' disease surveillance mission. They are used routinely when specimens (such as blood, milk, tissue, or urine) from any animal (including cattle, swine, sheep, goats, horses, and poultry) are submitted to APHIS' National Veterinary Services Laboratories (NVSL) for disease testing. VS Form 5-38, Parasite Submission form, is completed by State veterinarians or other State representatives, accredited veterinarians, private laboratories, research institutions, and owners or producer.

Need and Use of the Information: Using APHIS form VS 10-4, State or Federal veterinarians, accredited veterinarians, or other State and Federal representatives will document the collection and submission of specimens for laboratory analysis. The form identifies the individual animal from which the specimen is taken as well as the animal's herd or flock; the type of specimen submitted, and the purpose of submitting the specimen. The National Tick Surveillance Program is based on the information submitted on VS Form 5-38, in addition to critical surveillance information needed for the Cattle Fever Tick Eradication Program. This information identifies the individual submitting the tick samples. Without the information APHIS would not have the critical information necessary to effectively operate a disease surveillance program.

Description of Respondents: State, Local or Tribal Government; Business or other for-profit.

Number of Respondents: 3,208.

Frequency of Responses: Reporting: On occasion.
