

determination, must be maintained and made available by public housing authorities.

DATES: *Comments Due Date: February 25, 2013.*

ADDRESSES: Interested persons are invited to submit comments regarding this revised information collection. Comments should refer to the revised information collection by name/or OMB Control number and should be sent to: Colette Pollard., Departmental Reports Management Officer, QDAM, Department of Housing and Urban Development, 451 7th Street, SW., Room 4160, Washington, DC 20410-5000; telephone 202-402-3400 (this is not a toll-free number) or email Ms. Pollard at Colette_Pollard@hud.gov. Persons with hearing or speech impairments may access this number through TTY by calling the toll-free Federal Information Relay Service at (800) 877-8339. (Other than the HUD USER information line and TTY numbers, telephone numbers are not toll-free.)

FOR FURTHER INFORMATION CONTACT: Arlette Mussington, Office of Policy, Programs and Legislative Initiatives, PIH, Department of Housing and Urban Development, 451 7th Street SW., (L'Enfant Plaza, Room 2206), Washington, DC 20410; telephone 202-402-4109, (this is not a toll-free number). Persons with hearing or speech impairments may access this number via TTY by calling the Federal Information Relay Service at (800) 877-8339.

SUPPLEMENTARY INFORMATION: The Department will submit the proposed information collection to OMB for review, as required by the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35, as amended).

This Notice is soliciting comments from members of the public and affected agencies concerning the proposed collection of information to: (1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (3) enhance the quality, utility, and clarity of the information to be collected; and (4) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated collection techniques or other forms of information technology; e.g., permitting electronic submission of responses.

This Notice also lists the following information:

Title of Proposal: Public Housing Reform Act: Changes to Admission and Occupancy Requirements in the Public Housing and Section 8 Assistance Programs.

OMB Control Number: 2577-0230.

Description of the need for the information and proposed use:

The collection of information implements changes to the admission and occupancy requirements for the public housing and Section 8 assisted housing programs made by the Quality Housing and Work Responsibility (QHWRA) Act 1998 (Title V of the FY 1999 HUD appropriations Act, Public Law 105-276, 112 Stat. 2518, approved October 21, 1998), which amended the United States Housing Act of 1937. QHWRA made comprehensive changes to HUD's public housing, Section 8 programs. Some of the changes made by the 1998 Act (i.e., QHWRA) affect public housing only and others affect the Section 8 and public housing programs. These changes cover choice of rent, community service and self-sufficiency in *public housing*; and admission preferences and determination of income and rent in *public housing and Section 8 housing assistance programs*.

Agency form numbers: None.

Members of affected public: Public Housing Agencies (PHAs), State or Local Government

Estimation of the total number of hours needed to prepare the information collection including number of respondents: The estimated number of respondents is 4,058 annually. The average number of hours per response is 24 hours, for a total reporting burden of 97,392 hours.

Status of the proposed information collection: Revision of a Currently Approved Collection.

Authority: Section 3506 of the Paperwork Reduction Act of 1995, 44 U.S.C. Chapter 35 as amended.

Dated: December 20, 2012.

Merrie Nichols-Dixon,
Deputy Director for Office of Policy, Programs, and Legislative Initiatives.

Endangered and Threatened Wildlife and Plants; Draft Revised Recovery Plan for Kendall Warm Springs Dace

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of document availability for review and comment.

SUMMARY: The U.S. Fish and Wildlife Service (Service) announces the availability of a draft revised recovery plan for the Kendall Warm Springs dace (*Rhinichthys osculus thermalis*). This species is federally listed as endangered under the Endangered Species Act of 1973, as amended (ESA). The Service solicits review and comment from the public on this draft revised plan.

DATES: Comments on the draft revised recovery plan must be received on or before February 25, 2013.

ADDRESSES: Copies of the draft revised recovery plan are available by request from the Wyoming Field Office, U.S. Fish and Wildlife Service, 5353 Yellowstone Road, Suite 308A, Cheyenne, WY 82009; telephone 307-772-2374. Submit comments on the draft recovery plan to the Field Supervisor at this same address. An electronic copy of the draft recovery plan is available at <http://www.fws.gov/ endangered/species/recovery-plans.html>.

FOR FURTHER INFORMATION CONTACT: Field Supervisor, at the above address, or telephone 307-772-2374.

SUPPLEMENTARY INFORMATION:

Background

Restoring an endangered or threatened animal or plant to the point where it is again a secure, self-sustaining member of its ecosystem is a primary goal of the Service's endangered species program. To help guide the recovery effort, the Service prepares recovery plans for the federally listed species native to the United States where a plan will promote the conservation of the species. Recovery plans describe site-specific actions necessary for the conservation of the species; establish objective, measurable criteria which, when met, would result in a determination that the species no longer needs the protection of the ESA (16 U.S.C. 1531 *et seq.*); and provide estimates of the time and cost for implementing the needed recovery measures.

The ESA requires recovery plans for listed species unless such a plan would not promote the conservation of a particular species. Section 4(f) of the ESA, as amended in 1988, requires that public notice and opportunity for public review and comment be provided during recovery plan development. The Service will consider all information received during a public comment period when preparing each new or revised recovery plan for approval. The Service and other Federal agencies also will take these comments into consideration in the course of implementing approved recovery plans. It is our policy to request peer review of recovery plans. We will summarize and respond to the issues raised by the public and peer reviewers in an appendix to the approved recovery plan.

The Kendall Warm Springs dace (*Rhinichthys osculus thermalis*), found only in one location in western Wyoming, was first listed as endangered in 1970 under the Endangered Species Preservation Act of 1966 (80 Stat. 926; 16 U.S.C. 668aa(c)). It was later grandfathered into the ESA of 1973, as amended (16 U.S.C. 1531 *et seq.*). At the time of listing, the species was threatened by habitat destruction and modification, overexploitation, and limited distribution. Since the time of its listing, many recovery actions have been implemented, including taxonomic research, protection of habitat, cessation of the species' use as baitfish, and prohibitions against certain forms of mineral development. However, Kendall Warm Springs dace population estimates appear to be trending downward over the last decade. In addition, this fish remains vulnerable to some high-level threats. These include vulnerability to habitat changes from oil and gas development and potential competition and/or disease from the introduction of exotic species.

The recovery of the Kendall Warm Springs dace will depend on effective conservation responses to the varied and complex issues facing the species. These issues include limited distribution, exotic species, grazing, hydrologic changes, invasive plants, pollution, and energy resource exploration and development. Strategically, these issues can be reduced to two overriding concerns: potentially devastating effects from natural resource extraction and exotic species introductions. The recovery strategy for the Kendall Warm Springs dace focuses on the need to address vulnerability due to limited distribution; refugia populations; regulatory mechanisms; protecting habitat quality through a program that

encompasses threats abatement; and population management, research, and monitoring. We emphasize the (1) incorporation of protective measures into land use plans; (2) protection of the spring's recharge zone; (3) establishment of two captive refugia populations; and (4) monitoring and managing population levels, genetics, and habitat conditions.

Request for Public Comments

The Service solicits public comments on the draft recovery plan. All comments received by the date specified in **DATES** will be considered prior to approval of the plan. Written comments and materials regarding the plan should be addressed to the Field Supervisor (see **ADDRESSES** section). Comments and materials received will be available, by appointment, for public inspection during normal business hours at the above address.

Authority

The authority for this action is section 4(f) of the Endangered Species Act, 16 U.S.C. 1533(f).

Dated: December 4, 2012.

Noreen E. Walsh,

Regional Director, Denver, Colorado.

Endangered and Threatened Wildlife and Plants; Draft Recovery Plan for the Gulf Coast Jaguarundi

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; request for comment.

SUMMARY: We, the U.S. Fish and Wildlife Service, announce the availability of our draft recovery plan for the Gulf Coast jaguarundi (*Puma yagouaroundi cacomitli*) under the Endangered Species Act of 1973, as amended (Act). This species historically occurred in southern Texas in the United States and is currently known to occur in eastern Mexico as far south as Veracruz. We request review and comment on our plan from local, State, and Federal agencies, and the public. We will also accept any new information on the status of the Gulf Coast jaguarundi throughout its range to assist in finalizing the recovery plan.

DATES: To ensure consideration, we must receive written comments on or

before February 22, 2013. However, we will accept information about any species at any time.

ADDRESSES: If you wish to review the draft recovery plan, you may obtain a copy by visiting our Web site at <http://www.fws.gov/endangered/species/recovery-plans.html>. Alternatively, you may contact the South Texas Refuges Complex Headquarters at 3325 Green Jay Road, Alamo, Texas, or by phone at (956) 784-7500. If you wish to comment on the plan, you may submit your comments in writing by any one of the following methods:

- *U.S. mail:* Mitch Sternberg, at the above address;
- *Hand-delivery:* South Texas Refuges Complex Headquarters at the above address;
- *Fax:* (956) 787-8338; or
- *Email:* Mitch_Sternberg@fws.gov.

For additional information about submitting comments, see the "Request for Public Comments" section below.

FOR FURTHER INFORMATION CONTACT: Mitch Sternberg at the above address, phone number, or email.

SUPPLEMENTARY INFORMATION:

Background

Recovery of endangered or threatened animals and plants to the point where they are again secure, self-sustaining members of their ecosystems is a primary goal of our endangered species program and the Act (16 U.S.C. 1531 *et seq.*). Recovery means improvement of the status of listed species to the point at which listing is no longer appropriate under the criteria set out in section 4(a)(1) of the Act. The Act requires the development of recovery plans for listed species, unless such a plan would not promote the conservation of a particular species.

Species' History

We listed the Gulf Coast jaguarundi as an endangered species under the Act on June 14, 1976 (41 FR 24062). The Listed Cats of Texas and Arizona Recovery Plan (With Emphasis on the Ocelot), was completed in 1990 and it briefly addressed the jaguar, jaguarundi, and margay, but focused on the ocelot, primarily in Texas. The Draft Gulf Coast Jaguarundi Recovery Plan only applies to the Gulf Coast subspecies of jaguarundi.

The jaguarundi was originally included in the genus *Felis*, and the Gulf Coast jaguarundi was originally listed under the Act as *Felis yagouaroundi cacomitli* in 1976. Later, genus classification was changed from *Felis* to *Herpailurus*, and this widely accepted change was subsequently
