

DEPARTMENT OF LABOR**Employment and Training Administration****Investigations Regarding Certifications of Eligibility To Apply for Worker Adjustment Assistance**

Petitions have been filed with the Secretary of Labor under Section 221(a) of the Trade Act of 1974 (“the Act”) and are identified in the Appendix to this notice. Upon receipt of these petitions, the Director of the Division of Trade Adjustment Assistance, Employment and Training Administration, has instituted investigations pursuant to Section 221(a) of the Act.

The purpose of each of the investigations is to determine whether the workers are eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act. The investigations will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved.

The petitioners or any other persons showing a substantial interest in the subject matter of the investigations may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than January 14, 2013.

Interested persons are invited to submit written comments regarding the subject matter of the investigations to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than January 14, 2013.

The petitions filed in this case are available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Employment and Training Administration, U.S. Department of Labor, Room N-5428, 200 Constitution Avenue NW., Washington, DC 20210.

Signed at Washington, DC, this 14th day of December 2012.

Elliott S. Kushner,
Certifying Officer, Office of Trade Adjustment Assistance.

BILLING CODE 4510-FN-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-397; NRC-2012-0322]

Energy Northwest; Columbia Generating Station; Exemption

1.0 Background

Energy Northwest (the licensee) is the holder of Renewed Facility Operating License No. NPF-21, which authorizes operation of the Columbia Generating Station. The license provides, among other things, that the facility is subject to all rules, regulations, and orders of the U.S. Nuclear Regulatory

Commission (NRC, the Commission) now or hereafter in effect.

The facility consists of a boiling-water reactor located in Benton County in the state of Washington.

2.0 Request/Action

The regulations in paragraph 50.36a(a)(2) of Title 10 of the *Code of Federal Regulations* (10 CFR), require a radioactive effluent release report for each commercial nuclear power plant to be submitted annually such that the time between submission of any two reports is not longer than 12 months.

The licensee's Technical Specification (TS) 5.6.2, "Radioactive Effluent Release Report," requires the Annual Radioactive Effluent Release Report (ARERR) to be submitted in accordance with 10 CFR 50.36a as specified in the

licensee's Offsite Dose Calculation Manual (ODCM). The licensee's ODCM specifies the ARERR to be submitted within 60 days after January 1 of each calendar year. The licensee indicates this constitutes an undue administrative burden due to the compressed schedule for data collection, report preparation, and internal review following closure of the reporting period. As a result, the licensee wants to change the ODCM so that the report can be submitted prior to May 1 of each year. In order to implement this change to the ODCM, the licensee has requested a one-time exemption from the required 12-month reporting interval for the next required submittal of the ARERR for the Columbia Generating Station. This would result in a one-time allowance of an additional 2 months (i.e., a 14-month
