CONSUMER PRODUCT SAFETY COMMISSION

[Docket No. CPSC-2009-0015]

Proposed Extension of Approval of Information Collection; Comment Request—Testing and Recordkeeping Requirements Under the Standard for the Flammability (Open Flame) of Mattresses

AGENCY: Consumer Product Safety Commission.

ACTION: Notice.

SUMMARY: As required by the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35), the Consumer Product Safety Commission (CPSC or Commission) requests comments on a proposed 3-year extension of approval of information collection requirements in the Standard for the Flammability—Open Flame—of Mattresses Sets (Open-Flame standard), 16 CFR part 1633. The Commission has a separate flammability standard that addresses cigarette ignition of mattresses, 16 CFR part 1632. The Open-Flame standard is intended to reduce unreasonable risks of burn injuries and deaths from fires associated with mattresses, particularly those initially ignited by open-flame sources, such as lighters, candles, and matches. The Open-Flame standard prescribes a test to minimize or delay flashover when a mattress is ignited. The standard requires manufacturers to test specimens of each of their mattress prototypes before mattresses based on that prototype may be introduced into commerce. The Office of Management

and Budget (OMB) previously approved the collection of information under control number 3041-0133. OMB's most recent extension of approval will expire on March 31, 2013. The Commission will consider all comments received in response to this notice before requesting an extension of approval of this collection of information from OMB.

DATES: The Office of the Secretary must receive comments not later than March 5, 2013.
