In addition to the six project specific scoping meetings identified above, we will hold a public scoping meeting specifically to identify cumulatively effected resources and to help identify the incremental effect of licensing these five Connecticut River projects with other past, present and reasonably foreseeable future actions within the Connecticut River Basin. We invite all interested agencies, Indian tribes, NGOs, and individuals to attend the Cumulative Effects scoping meeting to assist us in identifying cumulatively effected resources and the associated geographic scope that should be analyzed in the EIS. The time and location of that meeting is:

Connecticut River Projects' Cumulative Effects—Daytime Scoping Meeting

Date & Time: Thursday, January 31, 2013 at 9:00 a.m.

Location: Great Falls Discovery Center, 2 Avenue A., Turners Falls, MA 01376, (413) 863-3221.

Scoping Document 1 (SD1), which outlines the subject areas to be

addressed in the environmental document, was mailed to the individuals and entities on the Commission's mailing list. Copies of SD1 will be available at the scoping meetings, or may be viewed on the Web at <http://www.ferc.gov>, using the "eLibrary" link. Follow the directions for accessing information in paragraph n. Based on all oral and written comments, a Scoping Document 2 (SD2) may be issued. SD2 may include a revised process plan and schedule, as well as a list of issues, identified through the scoping process.

Meeting Objectives

At the scoping meetings, staff will: (1) Initiate scoping of the issues; (2) review and discuss existing conditions and resource management objectives; (3) review and discuss existing information and identify preliminary information and study needs; (4) review and discuss the process plan and schedule for pre-filing activity that incorporates the time frames provided for in Part 5 of the Commission's regulations and, to the extent possible, maximizes coordination of federal, state, and tribal permitting and certification processes; and (5) discuss the appropriateness of any federal or state agency or Indian tribe acting as a cooperating agency for development of an environmental document.

Meeting participants should come prepared to discuss their issues and/or concerns. Please review the PAD in preparation for the scoping meetings. Directions on how to obtain a copy of the PAD and SD1 are included in item n. of this document.

Meeting Procedures

The meetings will be recorded by a stenographer and will be placed in the public records of the project.

Environmental Site Review

An environmental site review is typically held in conjunction with the Commission's NEPA scoping meetings. However, Commission staff anticipated that access to some project facilities would be limited by winter weather conditions during the early part of 2013 when scoping for these projects was scheduled. For this reason, and to provide all interested stakeholders an opportunity to view the projects' facilities, the Commission hosted the environmental site reviews in October 2012, before the onset of winter. Public notice of the environmental site reviews was issued on August 3, 2012, and published in eight newspapers from the Connecticut River projects' region. The site visits were widely attended by

individuals representing, local, state, and federal government agencies, NGOs, and members of the public. At this time, the Commission does not intend to host any future environmental site reviews for these five Connecticut River projects.
