Certain Pasta From Italy and Turkey; Notice of Commission Determination To Conduct Full Five-Year Reviews

AGENCY: United States International Trade Commission.

ACTION: Notice.

SUMMARY: The Commission hereby gives notice that it will proceed with full reviews pursuant to section 751(c)(5) of the Tariff Act of 1930 (19 U.S.C. 1675(c)(5)) to determine whether revocation of the countervailing duty orders and revocation of the antidumping duty orders on certain pasta from Italy and Turkey would be likely to lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time. A schedule for the reviews will be established and announced at a later date. For further information concerning the conduct of these reviews and rules of general application, consult the Commission's Rules of Practice and Procedure, part 201, subparts A through E (19 CFR part 201), and part 207, subparts A, D, E, and F (19 CFR part 207).

DATED: : *Effective Date:* December 10, 2012.

SUPPLEMENTARY INFORMATION: On December 10, 2012, the Commission determined that it should proceed to full reviews in the subject five-year reviews pursuant to section 751(c)(5) of the Act. The Commission found that the domestic interested party group response to its notice of institution (77 FR 53909, September 4, 2012) was adequate and that the respondent interested party group response with respect to Turkey was adequate, and decided to conduct full reviews of the countervailing duty order and antidumping duty order on imports of certain pasta from Turkey. DEPARTMENT OF JUSTICE

[OMB Number 1121-0094]

Activities: Existing Collection; Comments Requested: Extension of a Currently Approved Collection; Annual Survey of Jails

ACTION: 60-day notice.

The Department of Justice (DOJ), Bureau of Justice Statistics, will be submitting the following information

collection request to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995. The proposed information collection is published to obtain comments from the public and affected agencies. Comments are encouraged and will be accepted for sixty days until March 8, 2013. This process is conducted in accordance with 5 CFR 1320.10.

If you have comments especially on the estimated public burden or associated response time, suggestions, or need a copy of the proposed information collection instrument with instructions or additional information, please contact Todd D. Minton, Bureau of Justice Statistics, 810 Seventh Street NW., Washington, DC 20531 (phone: 202-305-9630).

Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address one or more of the following four points:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Bureau of Justice Statistics, including whether the information will have practical utility;
- Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Evaluate whether and if so how the quality, utility, and clarity of the information to be collected can be enhanced; and
- Ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of This Information Collection

(1) *Type of Information Collection:* Revisions of a currently approved collection.

(2) *Title of the Form/Collection:* The Annual Survey of Jails (ASJ). The collection includes the forms: Annual Survey of Jails (ASJ), which includes the regular form and the certainty jurisdiction form; and the Survey of Jails in Indian Country (SJIC) regular form.

(3) Agency form number, if any, and the applicable component of the Department of Justice sponsoring the collection: Form numbers include:

- *Annual Survey of Jails:* This collection consists of four forms:

- CJ-5 and CJ-5A, the ASJ regular forms: These forms go to jail jurisdictions in the ASJ sample that are not selected with certainty. The CJ-5 form goes to jail jurisdictions operated by the county or city and the CJ-5A goes to privately owned or operated confinement facilities;

- CJ-5D and CJ-5DA, the ASJ certainty jurisdiction forms: The forms go to jail jurisdictions in the ASJ sample that are selected with certainty. The CJ-5D and CJ-5DA request additional information about the distribution of time served, staffing, and inmate misconduct that are not requested on the CJ-5 and CJ-5A. The CJ-5D goes to jurisdictions operated by the county or city; the CJ-5DA goes to confinement facilities administered by two or more governments and privately owned or operated confinement facilities.

- Survey of Jails in Indian Country (SJIC): All respondents receive the CJ-5B (the SJIC regular form).

The applicable component of the Department of Justice sponsoring the collection is the Bureau of Justice Statistics, which is within the Office of Justice Programs.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:* The affected public that will be asked to respond include approximately 1,000 county, city, and Tribal jail authorities (929 respondents to the ASJ and 82 to the SJIC). As community institutions that book an estimated 12 million inmates per year, local jails are an integral part of the justice system, operating at the front end (that is, following arrest or referral) as well as the back end (discharging inmates and holding those sentenced to jail). Their broad functions include handling inmates who are awaiting trial or sentencing, holding inmates for other authorities, detaining inmates with special needs such as mental health holds or alcohol detoxifications, transferring inmates to court appearances and bringing them back to detention, discharging inmates at the behest of the court or other entities, and holding inmates who have been sentenced to terms in jail. The set of collections in this package provides BJS with the capacity to track and analyze changes in the jail inmate population that might signal changes in the kinds of cases coming into or leaving the criminal justice system, and to analyze how the volatility of jail inmate populations affects the workload of jails and their capacities to provide services. The parallel structure of the SJIC

collection provides BJS with this capacity for Indian country jails.

In its entirety, this collection is the only national effort devoted to describing and understanding annual changes in jail populations as well as assessing programs and capacities to provide services. The collection enables BJS, other federal agencies, and state, local, and Tribal corrections authorities and administrators, as well as legislators, researchers, and jail planners to track growth in the number of jails and their capacities nationally; as well as, track changes in the demographics and supervision status of jail population and the prevalence of crowding.

The forms and information content for this collection are outlined next in the following order: First, the components of the Annual Survey of Jails (ASJ), which include the CJ-5, CJ-5A, CJ-5D, and CJ-5DA. Second, the Survey of Jails in Indian Country (SJIC) includes the CJ-5B.

The two components of the Annual Survey of Jails include the CJ-5/5A and CJ-5D/5DA forms. The CJ-5/5A forms are to be administered to ASJ sample elements that are selected with a probability of less than 1. The CJ-5D/5DA forms are to be administered to ASJ sample elements selected with certainty.

CJ-5 and CJ-5A

These forms will be administered to the certainty jurisdictions in the ASJ sample; in addition to the information collected in the regular ASJ forms (the CJ-5/5A), the 374 respondents that are included with certainty in the ASJ sample survey will be asked to provide additional information on the flow of inmates going through jails and the distribution of time served, staff characteristics and assaults on staff resulting in death, and inmate misconduct. More specifically, these include:
