The project site is located on the Campo Indian Reservation in southeastern San Diego County, approximately 60 miles east of San Diego. A Notice of Intent to prepare the DEIS was published in the Federal Register on May 20, 2011. The BIA held public scoping meetings for the project environmental review on June 21, 2012, and June 22, 2012, at the Mountain Empire High School, 3305 Buckman Springs Road, Pine Valley, California, and the Campo Indian Reservation Tribal Hall, 31690 Church Road, Campo, California, respectively. Pursuant to Council on Environmental Quality (CEQ) National Environmental Policy Act (NEPA) regulations (40 CFR 1506.10), the publication of this Notice of Availability in the Federal Register initiates a 45-day public comment period.

**Background:** The proposed action consists of BIA approval of a lease between the Tribe and the developer to enable construction and operation of the proposed Shu’luuk Wind Project. Subsequent to the approval of the lease, a wind energy project would be developed on the Campo Indian Reservation in southeastern San Diego County, approximately 60 miles east of San Diego. A Notice of Availability for the DEIS was published in the Federal Register on May 20, 2011. The BIA held public scoping meetings for the project environmental review on June 21, 2012, and June 22, 2012, at the Mountain Empire High School, 3305 Buckman Springs Road, Pine Valley, California, and the Campo Indian Reservation Tribal Hall, 31690 Church Road, Campo, California, respectively. Pursuant to Council on Environmental Quality (CEQ) National Environmental Policy Act (NEPA) regulations (40 CFR 1506.10), the publication of this Notice of Availability in the Federal Register initiates a 45-day public comment period.

**Background:** The proposed action consists of BIA approval of a lease between the Tribe and InvenergyWind California, LLC to construct and operate a renewable energy facility for up to 35 years on the Campo Indian Reservation. The purpose of the project is to improve the economic conditions of the Campo Band and to provide environmental benefits for the San Diego region through the construction and operation of a renewable energy facility. The project site is located on the Campo Indian Reservation in southeastern San Diego County, California. The lease area would be approx. 900 acres, based on final project design, which is dependent upon which alternative is selected. The actual disturbance area would be less than the lease area. The project would
be a wind energy project with one alternative that may include some solar energy generation. The approval of the lease would allow Invenergy, LLC to develop and operate a wind power generation facility capable of generating up to 250 MW of electricity, and would consist of up to 85 turbines, depending on which alternative is selected. Each of the four alternatives, with the exception of the No Action Alternative, would achieve the generation of electricity from wind turbines installed by Invenergy.

The manufacturer and model of the wind turbines have not yet been selected for the Shu’luuk Wind Project as the advancement in technology continues throughout the project site approval process. The turbines for the proposed project would have a tower hub height of up to 309 feet, a rotor diameter up to 414 feet, and a total height (tip) of up to 515 feet. Each turbine would be set on a concrete foundation, and turbines would be connected by underground electrical cable to a project substation. The substation would be sited on a two-acre area and would consist of a graveled, fenced area containing transformer and switching equipment and an area for vehicle parking. Up to five miles of new three-phase 138 KV overhead interconnection transmission circuit would be constructed within the Campo Indian Reservation from the project collector substation to a San Diego Gas & Electric (SDG&E) pole located on private land. Other required facilities, all located within the Campo Indian Reservation, would include: up to three permanent meteorological towers; temporary material laydown areas during construction; temporary office areas; an operations and maintenance facility; approximately 25 miles of new access roads; approximately 22 miles of improved existing roads; an electrical collection and communications system; and a temporary concrete batch plant. The wind power generation facility would operate year-round for a minimum of 25 years. Construction of the proposed project is anticipated to take between 11 and 24 months depending on the alternative selected. In addition to the No Action Alternative, three alternatives are evaluated in the DEIS.

Alternative 1 consists of 250 MW generated from up to 85 wind turbines. Each turbine would have a hub height up to 309 feet, a rotor diameter up to 414 feet, and tip height up to 515 feet. Alternative 2 consists of 200 MW generated from up to 80 2.3–MW wind turbines (totaling 160 MW from wind) in combination with up to 40 1–MW solar photovoltaic (PV) panels (totaling 40 MW from solar). Each turbine would generate 2 MW, have a hub height up to 305 feet, a rotor diameter up to 375 feet, and a tip height up to 493 feet.

Alternative 3 consists of 160 MW generated from up to 71 3–MW to 2.3–MW wind turbines. Each turbine would have a hub height of up to 308 feet, rotor diameter of up to 407 feet, and tip height of up to 515 feet.

Environmental issues addressed in this DEIS include effects on land resources, water resources, air quality, biological resources, climate change, cultural resources, socioeconomic conditions, resource use patterns, traffic, noise, visual and aesthetic resources, public health and safety, and cumulative effects.

Directions for Submitting Comments: Please include your name, return address, and “EIS Comments, Shu’luuk Wind Project, San Diego County, CA,” on the first page of your written comments.

Locations Where the DEIS is Available for Review: The DEIS is available for review at the Bureau of Indian Affairs Southern California office, 1451 Research Park Drive, Riverside, CA 92507; at the offices of Campo EPA, Suite 4, 36190 Church Rd, Campo, CA 91906; and at the Campo-Morena Village Branch Library, San Diego County Library System, 31356 Hwy 94, Campo, CA 91906. Comments can be submitted electronically to shuluukcomments@aecom.com. The DEIS is also available online at http://www.shuluukwind.com/. To obtain a compact disk copy of the DEIS please provide your name and address in writing or by voicemail to Lenore Lamb. Contact information is listed in the FOR FURTHER INFORMATION CONTACT section of this notice. Individual paper copies of the DEIS will be provided upon payment of applicable printing expenses by the requestor for the number of copies requested.

Public Comment Availability: Comments, including the names and addresses of respondents, will be available for public review at the BIA mailing address shown in the ADDRESSES section during regular business hours, 8 a.m. to 4:30 p.m., Monday through Friday excluding holidays. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Authority: This notice is published pursuant to Sec. 1503.1 of the CEQ Regulations (40 CFR parts 1500 through 1508) and Sec. 46.305 of the Department of Interior regulations (43 CFR part 46), implementing the procedural requirements of NEPA (42 U.S.C. 4371 et seq.), and is in the exercise of authority delegated to the Assistant Secretary—Indian Affairs by 209 DM 8.

Dated: October 12, 2012.

Kevin K. Washburn,
Assistant Secretary—Indian Affairs.

BILLING CODE 4310–W7–P

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

Notice of Competitive Coal Lease Sale, Utah

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of competitive coal lease sale.

SUMMARY: Notice is hereby given that the United States Department of the Interior, Bureau of Land Management (BLM), Utah State Office will reoffer certain coal resources described below as the Dry Canyon B Tract (UTU–89060) in Carbon County, Utah, for competitive sale by sealed bid, in accordance with the Federal regulations for competitive lease sale notices and the Mineral Leasing Act of 1920, as amended. The initial application (UTU–85539) for the lands contained in the Dry Canyon Tract were offered for lease on November 15, 2011, as originally applied for on March 28, 2007. No bids were received at the original offering of this lease.

DATES: The lease sale will be held at 1:00 p.m. on March 6, 2013. The sealed bid must be sent by certified mail, return receipt requested, or be hand delivered to the address indicated below, and must be received by or before 10:00 a.m. on March 6, 2013.

The BLM cashier will issue a receipt for each hand delivered sealed bid. Any bid received after the time specified will not be considered and will be returned. The outside of the sealed envelope containing the bid must clearly state the envelope contains a bid for Coal Lease Sale UTU–89060, and that it is not to be opened before the date and hour of the sale.
