Abstract: This ICR is the renewal of the ICR developed for the final rule, Accidental Release Prevention Requirements; Risk Management Programs Under the Clean Air Act Section 112(r)(7); Distribution of Off-Site Consequence Analysis Information. CAA section 112(r)(7) required EPA to promulgate reasonable regulations and appropriate guidance to provide for the prevention and detection of accidental releases and for responses to such releases. The regulations include requirements for submittal of a risk management plan (RMP) to EPA. The RMP includes information on offsite consequence analyses (OCA) as well as other elements of the risk management program.

On August 5, 1999, the President signed the Chemical Safety Information, Site Security, and Fuels Regulatory Relief Act (CSISSFRRA). The Act required the President to promulgate regulations on the distribution of OCA information (CAA section 112(r)(7)(H)(iii)). The President delegated to EPA and the Department of Justice (DOJ) the responsibility to promulgate regulations to govern the dissemination of OCA information to the public. The final rule was published on August 4, 2000 (65 FR 48108). The regulations imposed minimal requirements on the public, state and local agencies that request OCA data from EPA. The state and local agencies who decide to obtain OCA information must send a written request on their official letterhead to EPA certifying that they are covered persons under Public Law 106–40, and that they will use the information for official use only. EPA will then provide OCA data to those agencies as requested. The rule authorizes and encourages state and local agencies to set up reading rooms. The local reading rooms would provide read-only access to OCA information for all the sources in the LEPC’s jurisdiction and for any source where the vulnerable zone extends into the LEPC’s jurisdiction.

Members of the public requesting to view OCA information at federal reading rooms would be required to sign in and self certify. If asking for OCA information from federal reading rooms for the facilities in the area where they live or work, they would be required to provide proof that they live or work in that area. Members of the public are required to give their names, telephone number, and the names of the facilities for which OCA information is being...
