

financial resources. Once an MOE waiver is granted, the reduction required by section 9521(b) does not occur for that year.

To review MOE waiver requests, ED relies primarily on expenditure, revenue, and other data relevant to an LEA's request provided by the SEA. To assist SEAs with submitting this information, ED developed an MOE waiver form as part of the 2009 Title I, Part A Waiver Guidance, which covered a range of waivers that ED invited at that time.

The purpose of this collection is to renew approval for the MOE waiver form. ED believes that the proposed form, which is slightly modified from the currently approved version, will enable an SEA to provide the information needed in an efficient manner.

The funds under

this program assist applicants to provide Indian students with the opportunity to meet the same challenging state standards as all other students and meet the unique educational and culturally related academic needs of American Indian and Alaska Native students. The amount of the award for each applicant is determined by a formula based on the reported number of American Indian/Alaska Native students identified in the application, the state per pupil expenditure, and the total appropriation available. The information collection is also necessary to meet the Government Performance and Results Act (GPRA) requirements. The collection is authorized by section 7114(a) of the ESEA, 20 U.S.C. 7424(a), and by section 4 of the Government Performance and Results Act of 1993 (GPRA).
