continue its use of the BPT for the collection of information for CY2014 through CY2016. Form Number: CMS–10142 (OCN: 0938–0944); Frequency: Yearly; Affecting Public: Private Sector—Business or other for-profits and not-for-profit institutions; Number of Respondents: 555; Total Annual Responses: 4,995; Total Annual Hours: 149,856. (For policy questions regarding this collection contact Diane Spitalnic at 410–786–5745. For all other issues call 410–786–1326.)

2. Type of Information Collection Request: Revision of a currently approved collection; Title of Information Collection: Plan Benefit Package (PBP) and Formulary Submission for Medicare Advantage (MA) Plans and Prescription Drug Plans (PDP); Use: Under the Medicare Modernization Act (MMA), Medicare Advantage (MA) and Prescription Drug Plan (PDP) organizations are required to submit plan benefit packages for all Medicare beneficiaries residing in their service area. The plan benefit package submission consists of the Plan Benefit Package (PBP) software, formulary file, and supporting documentation, as necessary. MA and PDP organizations use the PBP software to describe their organization’s plan benefit packages, including information on premiums, cost-sharing, authorization rules, and supplemental benefits. They also generate a formulary to describe their list of drugs, including information on prior authorization, step therapy, tiering, and quantity limits. Additionally, CMS uses the PBP and formulary data to review and approve the plan benefit packages proposed by each MA and PDP organization.

After receiving OMB clearance in spring 2000, CMS implemented the PBP as part of the Contract Year (CY) 2001 Adjusted Community Rate Proposal (ACRP) process. In addition, information collected via the PBP and formulary has been used to support the marketing material review process, the National Medicare Education Program, and other program oversight and development activities. For instance, the PBP software automatically generates the standardized sentences for the Summary of Benefits (SB) by using the plan benefit package data entered into the PBP software by the organization’s user. These standardized sentences are used by the MA organizations in their SB marketing materials and by CMS to generate plan benefits data for display in the Medicare & You handbook and on the www.medicare.gov Web site.

CMS is requesting to continue its use of the PBP software and formulary submission for the collection of benefits and related information for CY 2014 through CY 2016. CMS estimates that 578 MA organizations and 63 PDP organizations will be required to submit the plan benefit package information in CY 2014. Based on operational changes and policy clarifications to the Medicare program and continued input and feedback by the industry, CMS has made the necessary changes to the plan benefit package submission. Form Number: CMS–R–262 (OCN: 0938–0763); Frequency: Yearly; Affecting Public: Private Sector—Business or other for-profits and not-for-profit institutions; Number of Respondents: 641; Total Annual Responses: 6,189; Total Annual Hours: 56,708. (For policy questions regarding this collection contact Kristy Hollitje at 410–786–2209. For all other issues call 410–786–1326.)
