

legal and regulatory parameters, the BLM planning and management decisions will complement the planning and management decisions of other agencies, State and local governments, and Native American tribes, with jurisdictions intermingled with, and adjacent to, the planning area.

To provide the public with an opportunity to review the proposed project and the project information, as well as the possible proposed plan amendment, the BLM will host meetings in Riverton and Casper within 45 days of the publication of this notice. The BLM will notify the public of meetings and any other opportunities for the public to be involved in the environmental review for this proposal at least 15 days prior to the event. Meeting dates, locations and times will be announced by a news release to the media, individual mailings and postings on the project Web site.

The purpose of the public scoping process is to determine relevant issues that will influence the scope of the environmental analysis, including alternatives, and guide the process for developing the EIS. At present, the BLM has identified the following preliminary issues: Potential impacts to air quality, disposal of produced water, and potential effects of development and production on surface resources including vegetation and wildlife habitat.

The BLM will utilize and coordinate the NEPA commenting process to help fulfill the public involvement process under Section 106 of the National Historic Preservation Act (16 U.S.C. 470f) as provided for in 36 CFR 800.2(d)(3). The information about historic and cultural resources within the area potentially affected by the proposed action will assist the BLM in identifying and evaluating impacts to such resources in the context of both NEPA and Section 106 of the NHPA. Native American tribal consultations will be conducted in accordance with policy, and tribal concerns will be given due consideration, including impacts on Indian trust assets. Federal, State, and local agencies, along with other stakeholders that may be interested or affected by the BLM's decision on this project, are invited to participate in the scoping process and, if eligible, may request or be requested by the BLM to participate as a cooperating agency.
