[Docket No NASA–2012–0007]

RIN 2700–AD89

NASA Security and Protective Services Enforcement

AGENCY: National Aeronautics and Space Administration.

ACTION: Direct final rule.

SUMMARY: This direct final rule makes nonsubstantive changes to NASA regulations to clarify the procedures for establishing controlled/secure areas and to revise the definitions for these areas and the process for granting access to these areas, as well as denying or revoking access to such areas. Arrest powers and authority of NASA security force personnel are also updated and clarified to include the carrying of weapons and the use of such weapons should a circumstance require it. The revisions to these rules are part of NASA’s retrospective plan under E.O. 13563 completed in August 2011. NASA’s full plan can be accessed on the Agency’s open Government Web site at <http://www.nasa.gov/open/>.

DATES: This direct final rule is effective on March 25, 2013. Comments due on or before February 25, 2013. If adverse comments are received, NASA will publish a timely withdrawal of the rule in the **Federal Register**.

ADDRESSES: Comments must be identified with RIN 2700–AD89 and

may be sent to NASA via the *Federal E-Rulemaking Portal*: <http://www.regulations.gov>. Follow the online instructions for submitting comments. Please note that NASA will post all comments on the Internet with changes, including any personal information provided.

SUPPLEMENTARY INFORMATION:

Direct Final Rule and Significant Adverse Comments

NASA has determined this rulemaking meets the criteria for a direct final rule because it involves clarifications, updating, and minor substantive changes to existing regulations. NASA does not anticipate this direct final rule will result in major changes to its security procedures. However, if NASA receives significant adverse comments, NASA will withdraw this final rule by publishing a note in the **Federal Register** to review the commented-on language. In determining whether a comment necessitates withdrawal of this final rule, NASA will consider whether it warrants a substantive response in a notice and comment process.

Background

- Part 1203a, NASA Security Areas, that describes the legal basis and other applicable NASA regulations related to NASA’s security and law enforcement services implementation requirements, was promulgated March 28, 1972, [38 FR 8056]. Changes are being made to align this part with Homeland Security Presidential Directive (HSPD) 12, Policies for a Common Identification Standard for Federal Employees and Contractors, dated August 27, 2004. HSPD 12 establishes a mandatory, Government-wide standard for secure and reliable forms of identification issued by the Federal Government to its employees and contractors to increase Government efficiency, reduce identity fraud, and protect personal privacy.

- Part 1203b, Security Programs; Arrest Authority and Use of Force by NASA Security Force Personnel, that describes guidelines for the exercise of arrest authority, was promulgated February 11, 1992, [57 FR 4926]. Changes are being made to align this part with the guidelines described in Executive Order 12977, Interagency Security Committee (ISC) [60 FR 5441]. The ISC is responsible for establishing policies for the security in and protection of Federal facilities, ISC Standards, Physical Security Criteria for

Federal Facilities, and ISC Facility Security Level Determinations for Federal Facilities.

- Subpart 10 of part 1204, Inspection of Persons and Personal Effects at NASA Installations or on NASA Property; Trespass or Unauthorized Introduction of Weapons or Dangerous Materials, that describes NASA's policy and minimum procedures concerning the inspection of persons and property in their possession while entering, on, or exiting NASA real property or installations, as well as proscribes unauthorized entry or the unauthorized introduction of weapons or other dangerous instruments or materials at any NASA facility, was promulgated August 3, 2000, [65 FR 47663]. Changes are being made to align this subpart with the guidelines outlined in HSPD 7, Critical Infrastructure Identification, dated December 17, 2003. HSPD 7 establishes a national policy for Federal departments and agencies to identify and prioritize critical infrastructure and to protect it from terrorist attacks.

While NASA has the following internal requirements pertaining to these rules, they are not duplicative, but are necessary to ensure that implementation of parts 1203a and 1203b and subpart 10 of part 1204 is consistent, uniform, and standardized:

Statutory Authority

Sections 1203 and 1204 are established under the National Aeronautics and Space Act (Space Act), in accordance with the National and Commercial Space Programs (Title 51 U.S.C.). Sections 20132 and 20133

authorize the NASA Administrator to establish security rules and procedures to safeguard NASA's employees, facilities, and proprietary information and technologies. These rules serve to achieve compliance with the Agency's objectives in the protection of its people, property, and information.

Regulatory Analysis

Executive Order 12866, Regulatory Planning and Review and Executive Order 13563, Improving Regulation and Regulation Review

Executive Orders 13563 and 12866 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). Executive Order 13563 emphasizes the importance of quantifying both costs and benefits, reducing costs, harmonizing rules, and promoting flexibility. This rule has been designated as “not significant” under section 3(f) of Executive Order 12866.

Review Under the Regulatory Flexibility Act

The Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) requires an agency to prepare an initial regulatory flexibility analysis to be published at the time the proposed rule is published. This requirement does not apply if the agency “certifies that the rule will not, if promulgated, have a significant economic impact on a substantial number of small entities” (5 U.S.C. 603). This rule updates these sections of the CFR to align with Federal guidelines and does not have a significant economic impact on a substantial number of small entities.

Review Under the Paperwork Reduction Act

This direct final rule does not contain any information collection requirements subject to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

Review Under Executive Order of 13132

Executive Order 13132, “Federalism,” 64 FR 43255 (August 4, 1999) requires regulations be reviewed for Federalism effects on the institutional interest of states and local governments, and if the effects are sufficiently substantial, preparation of the Federal assessment is required to assist senior policy makers. The amendments will not have any substantial direct effects on state and local governments within the meaning

of the Executive Order. Therefore, no Federalism assessment is required.
