burden of this collection of information

### SUPPLEMENTARY INFORMATION:

#### A. Purpose

Firms performing under Federal  
contracts must provide adequate  
documentation to support requests for  
payment under these contracts. The  
documentation may range from a simple  
invoice to detailed cost data. The  
information is usually submitted once,  
at the end of the contract period or upon  
delivery of the supplies, but could be  
submitted more often depending on the  
payment schedule established under the  
contract (see FAR 52.232-1 through  
52.232-4, and FAR 52.232-6 through  
52.232-11). The information is used to  
determine the proper amount of  
payments to Federal contractors.

#### B. Analysis of Public Comments

One respondent submitted public  
comments on the extension of the  
previously approved information  
collection. The analysis of the public  
comments is summarized as follows:

*Comment:* The respondent  
commented that the extension of the  
information collection would violate the  
fundamental purposes of the Paperwork  
Reduction Act because of the burden it  
puts on the entity submitting the  
information and the agency collecting  
the information.

*Response:* In accordance with the  
Paperwork Reduction Act (PRA),  
agencies can request OMB approval of  
an existing information collection. The  
PRA requires that agencies use the  
**Federal Register** notice and comment  
process, to extend OMB's approval, at  
least every three years. This extension,  
to a previously approved information  
collection, pertains to documentation  
necessary to support requests for  
payment under Government contracts.  
The documentation may range from a  
simple invoice to detailed cost data. The  
information is usually submitted once,  
at the end of the contract period or upon  
delivery of the supplies, but could be  
submitted more often depending on the  
payment schedule established under the  
contract (see FAR 52.232-1 through  
52.232-11). The information is used to  
determine the proper amount of  
payments to Federal contractors. Absent  
this documentation, which serves as the  
basis for contract payments, the  
Government would be prevented from  
making such payments.

*Comment:* The respondent commented that the agency did not accurately estimate the public burden challenging that the agency's methodology for calculating it is insufficient and inadequate and does not reflect the total burden. The respondent stated the estimate of 120 responses per respondent is understated, and proposed that the number of responses for many respondents, particularly large government contractors, exceeds 1,000 responses per year. Additionally, the respondent stated that the estimate of .025 hours of burden per response is unrealistically low given the level of documentation required to support requests for payment, especially on certain contracts, and proposed that contractors will expend an amount of effort more than 100 times the estimate of .025 hours. For this reason, the respondent provided that the agency should reassess the estimated total burden hours and revise the estimate upwards to be more accurate, as was done in FAR Case 2007-006. The same respondent also provided that the burden of compliance with the information collection requirement greatly exceeds the agency's estimate and outweighs any potential utility of the extension.

*Response:* Serious consideration is given, during the open comment period, to all comments received and adjustments are made to the paperwork burden estimate based on reasonable considerations provided by the public. This is evidenced, as the respondent notes, in FAR Case 2007-006 where an adjustment was made from the total preparation hours from three to 60. This change was made considering particularly the hours that would be required for review within the company, prior to release to the Government.

The burden is prepared taking into consideration the necessary criteria in OMB guidance for estimating the paperwork burden put on the entity submitting the information. For example, consideration is given to an entity reviewing instructions; using technology to collect, process, and disclose information; adjusting existing practices to comply with requirements; searching data sources; completing and reviewing the response; and transmitting or disclosing information. The estimated burden hours for a collection are based on an average between the hours that a simple disclosure by a very small business might require and the much higher numbers that might be required for a very complex disclosure by a major corporation. Also, the estimated burden

hours should only include projected hours for those actions which a company would not undertake in the normal course of business. Careful consideration went into assessing the estimated burden hours for this collection, and although, the respondent provided estimates of responses and burden hours, the estimates cannot be confirmed with any degree of certainty to totally rely on the information. However, it is determined that an upward adjustment is warranted at this time based upon consideration of the information provided in the public comment. The information collection requirement has been revised to reflect an overall increase in the total public burden hours.

### C. Annual Reporting Burden

*Respondents:* 80,000.

*Responses per Respondent:* 120.

*Total Responses:* 9,600,000.

*Hours per Response:* .25.

*Total Burden Hours:* 2,400,000.

*Obtaining Copies of Proposals:*

Requesters may obtain a copy of the information collection documents from the General Services Administration, Regulatory Secretariat (MVCB), 1275 First Street NE., Washington, DC 20417, telephone (202) 501-4755. Please cite OMB Control No. 9000-0070, Payments, in all correspondence.
