These orders resulted in part from increasing congestion and delays at the airports requiring the FAA to allocate arrival and departure slots at JFK, EWR, and LGA. The designations resulted in part from increasing congestion and delays at the airports requiring FAA to implement a voluntary process to manage operational growth at ORD and SFO.

The information is reported to the FAA by carriers holding a slot at JFK, EWR, or LGA; by carriers operating at ORD or SFO; or by operators conducting unscheduled operations at LGA. At JFK and EWR, carriers must notify the FAA of: (1) Requests for confirmation of transferred slots; (2) requests for seasonal allocation of historic and additional available slots; and (3) usage of slots on a seasonal basis. At LGA, carriers must notify the FAA of: (1) Requests for confirmation of transferred slots; (2) requests to be returned or slots voluntarily returned; (3) requests to be included in a lottery for available slots; and (4) usage of slots on a bi-monthly basis. At LGA, unscheduled operators must request and obtain a reservation from the FAA prior to conducting an operation. At ORD and SFO, carriers must notify the FAA of their intended operating schedules on a seasonal basis. The FAA estimates that all information from carriers is submitted electronically from information stored in carrier scheduling databases, and that nearly all requests for unscheduled operation reservations are submitted electronically through either an Internet or touch-tone system interface.

Respondents: Approximately 500 carriers and other operators.

Frequency: Information is collected as needed; some reporting on bimonthly or semianual basis.

Estimated Average Burden per Response: 2 minutes per unscheduled operation reservation; 6 minutes per notice of slot transfer; 2 hours per schedule submission or slot request; and 2 hours per slot usage report.

Estimated Total Annual Burden: 7,031.5 hours.

ADDRESSES: Interested persons are invited to submit written comments on the proposed information collection to the Office of Information and Regulatory Affairs, Office of Management and Budget, Docket Library, Room 10102, 725 17th Street NW., Washington, DC 20503.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including (a) Whether the proposed collection of information is necessary for FAA’s performance; (b) the accuracy of the estimated burden; (c) ways for FAA to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB’s clearance of this information collection.

Issued in Washington, DC, on January 17, 2013.

Albert R. Spence,
FAA Assistant Information Collection Clearance Officer, IT Enterprises Business Services Division.

Agency Information Collection Activities: Requests for Comments; Clearance of Renewed Approval of Information Collection: Airport Noise Compatibility Planning

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, FAA invites public comments about our intention to request the Office of Management and Budget (OMB) approval to renew an information collection. The respondents are those airport operators voluntarily submitting noise exposure maps and noise compatibility programs to the FAA for review and approval.

DATES: Written comments should be submitted by March 29, 2013.

FOR FURTHER INFORMATION CONTACT: Kathy DePape at (405) 954–9362, or by email at: Kathy.A.DePape@faa.gov.

SUPPLEMENTAL INFORMATION:
OMB Control Number: 2120–0517. Title: Airport Noise Compatibility Planning.

Form Numbers: There are no FAA forms associated with this collection.

Type of Review: Renewal of an information collection.

Background: The voluntarily submitted information from the current CFR Part 150 collection, e.g., airport noise exposure maps and airport noise compatibility programs, or their revisions, is used by the FAA to conduct reviews of the submissions to determine if an airport sponsor’s noise compatibility program is eligible for Federal grant funds. If airport operators did not voluntarily submit noise exposure maps and noise compatibility programs for FAA review and approval, the airport operator would not be eligible for the set aside of discretionary grant funds.

Respondents: Approximately 15 airport operators.

Frequency: Information is collected on occasion.

Estimated Average Burden per Response: 3882.6 hours.

Estimated Total Annual Burden: 56,160 hours.

ADDRESSES: Send comments to the FAA at the following address: Ms. Kathy DePape, Room 126B, Federal Aviation Administration, AES–200, 6500 S. MacArthur Blvd., Oklahoma City, OK 73169.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including (a) Whether the proposed collection of information is necessary for FAA’s performance; (b) the accuracy of the estimated burden; (c) ways for FAA to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB’s clearance of this information collection.

Issued in Washington, DC, on January 22, 2013.
