

2012, the licensee conducted a Final Status Survey (FSS) in the soils of the building footprint per the NRC reviewed FSS Plan. The Class 1 survey unit consisted of the exposed soils in the building footprint and the Class 2 survey unit was the immediate area surrounding the excavation area.

The U of IL submitted the FSS report with the request for license termination for the ATR on October 9, 2012 (ADAMS Accession No. ML12345A245). The NRC reviewed the FSS report and determined that the survey data was in accordance with the Decommissioning Plan and the FSS Plan. The report documented that compliance with the criteria in the NRC-approved decommissioning plan for both reactors had been demonstrated.

Additionally, a confirmatory survey including soil samples and a gamma walkover survey was completed by the NRC Region III staff. Their conclusions, as noted in the NRC's Inspection Report 05000151/12005 (ADAMS Accession No. ML12307A330), were that "the results of the confirmatory surveys were consistent with the licensee's final status survey results and below the required cleanup levels, or DCGLs," and "the licensee adequately classified the survey units and applied the correct DCGLs in accordance with the FSSP."

Pursuant to 10 CFR 50.82(b)(6), the NRC staff has concluded that ATR at the NRL has been decommissioned in accordance with the approved decommissioning plans and that the terminal radiation surveys and associated documentation demonstrate that the facilities and site are suitable for release in accordance with the criteria for decommissioning in 10 CFR part 20, subpart E. Further, on the basis of the decommissioning activities carried out by the U of IL, the NRC's review of the licensee's final status survey report, the results of the NRC's inspections conducted at the NRL, and the results of confirmatory surveys, the NRC has concluded that the decommissioning process is complete and the facilities and sites may be released for unrestricted use. Therefore, Facility Operating License No. R-115 is terminated.
