

ANR's system at its Jena Compressor Station in La Salle Parish, Louisiana, and associated mainline capacity. The authorizations are requested under ANR's blanket certificate issued in Docket No. CP82-480-000,¹ all as more fully set forth in the application which is on file with the Commission and open to public inspection.

ANR proposes to abandon in place Unit 107, with appurtenances, located on ANR's system at ANR's Jena CS in La Salle Parish, Louisiana. This unit was installed under the authority granted in CP70-183.² ANR intends to abandon Unit 107 because it is not needed to provide service, is oversized for current flows, and such abandonment will save on maintenance costs. The proposed abandonment activity will not involve ground disturbance or increases to operational air or noise emissions. The unit was not used to provide service to any of ANR's customers for over two years. The estimated cost to replicate the 11,000 rated horsepower compressor unit proposed to be abandoned is \$24,684,000.

Any person or the Commission's staff may, within 60 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to Section 157.205 of the regulations under the NGA (18 CFR 157.205), a protest to the request. If no protest is filed within the time allowed therefor, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the allowed time for filing a protest, the instant request

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 7 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.
