If you have questions on viewing the docket, call Docket Operations, telephone 202-366-9826.

SUPPLEMENTARY INFORMATION: C.E.C., Inc, on behalf of the Louisiana Department of Transportation and Development (LDOTD) has requested a temporary deviation in order to perform maintenance on the State Route 23 (LA 23) vertical lift span bridge, also known as the Judge Perez Bridge, across the Gulf Intracoastal Waterway (Algiers Alternate Route), mile 3.8, at Belle Chasse, Plaquemines Parish, Louisiana. This maintenance is necessary to make mechanical repairs to the bridge and to replace the wire ropes on the bridge. This temporary deviation will allow the bridge to remain closed to navigation position continuously from 6 a.m. on Sunday, February 24, 2013, until 6 a.m. on Monday, March 4, 2013. During the closure the draw will not be able to open for emergencies. Currently, as specified in 33 CFR 117.451(b), the draw opens on signal; except that, from 6 a.m. to 8:30 a.m. and from 3:30 p.m. to 5:30 p.m. Monday through Friday, except Federal holidays, the draw need not be opened for the passage of vessels.

The State Route 23 vertical lift span drawbridge across the Gulf Intracoastal Waterway (Algiers Alternate Route), mile 3.8, at Belle Chasse, Louisiana has a vertical clearance of 40 feet above mean high water in the closed-to-navigation position and 100 feet above mean high water in the open-to-navigation position. Navigation on the waterway consists primarily of tugs with tows, commercial fishing vessels, and occasional recreational craft. Mariners may use the Gulf Intracoastal Waterway (Harvey Canal) to avoid unnecessary delays. The Coast Guard has coordinated this closure with the Gulf Intracoastal Canal Association (GICA). The GICA representative indicated that the vessel operators will be able to schedule transits through the bridge such that operations will not significantly be hindered. Thus, it has been determined that this closure will not have a significant effect on these vessels. This closure is considered necessary for repair of the bridge.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the effective period of this temporary deviation. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: January 22, 2013.

Bridge Administrator.

RIN 1625-AA00

Safety Zone; Grain-Shipments Vessels, Columbia and Willamette Rivers

AGENCY: Coast Guard, DHS.

ACTION: Temporary interim rule and request for comments.

SUMMARY: The Coast Guard is establishing a temporary safety zone around all inbound and outbound grain-shipment vessels involved in commerce with the Columbia Grain facility on the Willamette River in Portland, OR, the United Grain Corporation facility on the Columbia River in Vancouver, WA, the Temco Irving facility on the Willamette River in Portland, OR, or the Temco Kalama facility on the Columbia River in Kalama, WA while they are located on the Columbia and Willamette Rivers. This safety zone extends to waters 500 yards ahead of the vessel and 200 yards abeam and astern of the vessel. This safety zone is being established to ensure that protest activities relating to a labor dispute do not create hazardous navigation conditions for any vessel or other river user in the vicinity of the safety zone.

4. Public Meeting

We do not now plan to hold a public meeting. But you may submit a request for one, using one of the methods specified under **ADDRESSES**. Please explain why you believe a public meeting would be beneficial. If we determine that one would aid this rulemaking, we will hold one at a time and place announced by a later notice in the **Federal Register**.

B. Regulatory History and Information

The Coast Guard is issuing this final rule without prior notice and opportunity to comment pursuant to authority under section 4(a) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). This provision authorizes an agency to issue a rule without prior notice and opportunity to comment when the agency for good cause finds that those procedures are "impracticable, unnecessary, or contrary to the public interest." Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing a notice of proposed rulemaking (NPRM) with respect to this rule because to do so would be impracticable, since the rule is intended to protect grain shipment vessels and potential protest activity cannot be postponed by the Coast Guard. Delayed promulgation may result in injury or damage to the maritime public, vessel crews, the vessels themselves, the facilities, and law enforcement personnel from protest activities that could occur prior to conclusion of a notice and comment period before promulgation.

Under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making this rule effective less than 30 days after publication in the **Federal Register** because to do otherwise would be impracticable since the arrival of grain-shipment vessels cannot be delayed by the Coast Guard and protest activities are unpredictable and potentially volatile and may result in injury to persons, property, or the environment. Delaying the effective date until 30 days after publication may mean that grain-shipment vessels will have arrived or departed the Columbia and Willamette Rivers before the end of the 30 day period. This delay would eliminate the safety zone's effectiveness and usefulness in protecting persons, property, and the safe navigation of maritime traffic before 30 days have elapsed.

Although the Coast Guard is issuing this temporary rule without first publishing a proposed rule, you are

invited to submit post-promulgation comments and related material regarding this rule through March 1, 2013. All comments will be reviewed as they are received. Your comments will assist us in drafting future rules should they be necessary, and may result in changes to this temporary interim rule before it expires.

C. Basis and Purpose

Labor protests relating grain-shipment vessels involved in commerce with the Columbia Grain facility on the Willamette River in Portland, OR, the United Grain Corporation facility on the Columbia River in Vancouver, WA, the Temco Irving facility on the Willamette River in Portland, OR, or the Temco Kalama facility on the Columbia River in Kalama, WA have the potential to create undue maritime hazards. The Coast Guard believes that a safety zone is necessary to ensure the safe navigation of maritime traffic on the Columbia and Willamette Rivers while grain-shipment vessels transit to and from grain export facilities in the Sector Columbia River Captain of the Port Zone. A safety zone is needed to allow maximal use of the waterway consistent with safe navigation and to ensure that protestors and other river users are not injured by deep-draft vessels with maneuvering characteristics with which they may be unfamiliar.

D. Discussion of the Interim Rule

This rule establishes a temporary safety zone around grain-shipment vessels involved in commerce with the Columbia Grain facility on the Willamette River in Portland, OR, the United Grain Corporation facility on the Columbia River in Vancouver, WA, the Temco Irving facility on the Willamette River in Portland, OR, or the Temco Kalama facility on the Columbia River in Kalama, WA while they are located on the Columbia and Willamette Rivers. This safety zone extends to waters 500 yards ahead of the vessel and 200 yards abeam and astern of the vessel. No person or vessel may enter or remain in the safety zone without authorization from the Sector Columbia River Captain of the Port or his designated representatives.

This rule has been enforced with actual notice since January 17, 2013 and it will be enforced until 90 days from the date of publication in the **Federal Register**.

E. Regulatory Analyses

We developed this rule after considering numerous statutes and executive orders related to rulemaking. Below we summarize our analyses

based on these statutes and executive orders.

1. Regulatory Planning and Review

This rule is not a significant regulatory action under section 3(f) of Executive Order 12866, Regulatory Planning and Review, as supplemented by Executive Order 13563, Improving Regulation and Regulatory Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of Executive Order 12866 or under section 1 of Executive Order 13563. The Office of Management and Budget has not reviewed it under those Orders. Although this rule will restrict access to the regulated area, the effect of this rule will not be significant because: (i) The safety zone is limited in size; (ii) the official on-scene patrol may authorize access to the safety zone; (iii) the safety zone will effect a limited geographical location for a limited time; and (iv) the Coast Guard will make notifications via maritime advisories so mariners can adjust their plans accordingly.

2. Impact on Small Entities

The Regulatory Flexibility Act of 1980 (RFA), 5 U.S.C. 601–612, as amended, requires federal agencies to consider the potential impact of regulations on small entities during rulemaking. The term “small entities” comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000.

The Coast Guard certifies under 5 U.S.C. 605(b) that this rule will not have a significant economic impact on a substantial number of small entities. This rule may affect the following entities some of which may be small entities: The owners and operators of vessels intending to operate in the area covered by the safety zone created in this rule.

This rule will not have a significant economic impact on a substantial number of small entities for the following reasons: (i) The safety zone is limited in size; (ii) the official on-scene patrol may authorize access to the safety zone; (iii) the safety zone will effect a limited geographical location for a limited time; and (iv) the Coast Guard will make notifications via maritime advisories so mariners can adjust their plans accordingly.

3. Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in

understanding this rule. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact the person listed in the **FOR FURTHER INFORMATION CONTACT**, above.

Small businesses may send comments on the actions of Federal employees who enforce, or otherwise determine compliance with, Federal regulations to the Small Business and Agriculture Regulatory Enforcement Ombudsman and the Regional Small Business Regulatory Fairness Boards. The Ombudsman evaluates these actions annually and rates each agency’s responsiveness to small business. If you wish to comment on actions by employees of the Coast Guard, call 1–888–REG–FAIR (1–888–734–3247). The Coast Guard will not retaliate against small entities that question or complain about this rule or any policy or action of the Coast Guard.

4. Collection of Information

This rule will not call for a new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

5. Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. We have analyzed this rule under that Order and determined that this rule does not have implications for federalism.

6. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. In preparing this temporary rule, the Coast Guard carefully considered the rights of lawful protesters. The safety zones created by this rule do not prohibit members of the public from assembling on shore or expressing their points of view from locations on shore. In addition, the Captain of the Port has identified waters in the vicinity of these safety zones where those desiring to do so can assemble and express their views without compromising navigational safety. Protesters are asked to contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places or vessels.

7. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any one year. Though this rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

8. Taking of Private Property

This rule will not cause a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

9. Civil Justice Reform

This rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

10. Protection of Children From Environmental Health Risks

We have analyzed this rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and does not create an environmental risk to health or risk to safety that may disproportionately affect children.

11. Indian Tribal Governments

This rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

12. Energy Effects

This action is not a “significant energy action” under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use.

13. Technical Standards

This rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

14. Environment

We have analyzed this rule under Department of Homeland Security Management Directive 023-01 and Commandant Instruction M16475.ID, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321-4370f), and have determined that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. This rule involves the establishment of a temporary safety zone around grain-shipment vessels involved in commerce with grain export facilities on the Columbia and Willamette Rivers. This rule is categorically excluded from further review under paragraph 34(g) of Figure 2-1 of the Commandant Instruction. An environmental analysis checklist supporting this determination and a Categorical Exclusion Determination are available in the docket where indicated under **ADDRESSES**. We seek any comments or information that may lead to the discovery of a significant environmental impact from this rule.

SUMMARY: This regulation establishes an exemption from the requirement of a tolerance for residues of 2-propenoic acid, 2-ethylhexyl ester, polymer with ethenylbenzene; also known as styrene-2-ethylhexyl acrylate copolymer when used as an inert ingredient in a pesticide chemical formulation. H. B. Fuller Company submitted a petition to EPA under the Federal Food, Drug, and Cosmetic Act (FFDCA), requesting an exemption from the requirement of a tolerance.
