

TABLE 1—LEVELS OF G&G, ANCILLARY, AND EXPLORATORY DRILLING ACTIVITIES PROPOSED FOR CONSIDERATION IN THE ALTERNATIVES IN THE SUPPLEMENTAL DRAFT EIS ON THE EFFECTS OF OIL AND GAS ACTIVITIES IN THE ARCTIC OCEAN. ACTIVITY LEVELS NOTED ARE A MAXIMUM, AND ANY COMBINATION UP TO THAT AMOUNT COULD BE ALLOWED UNDER EACH ALTERNATIVE—Continued

	2D/3D Seismic surveys	Site clearance and shallow hazards surveys	On-ice seismic surveys	Exploratory drilling
Alternative 6 (any level with required use of alternative technologies).	6 in Beaufort 5 in Chukchi	5 in Beaufort 5 in Chukchi	1 in Beaufort 0 in Chukchi	Any level up to the maximum, as the technology only relates to seismic surveys.

Alternatives 5 and 6 differ from Alternatives 2, 3, and 4 in the fact that each one considers required mitigation measures not contemplated in the other action alternatives. Certain time/area closures considered for mitigation on a case-by-case basis under the other action alternatives would be required under Alternative 5. The time/area closures would be for specific areas important to biological productivity, life history functions for specific species of concern, and subsistence activities. Activities would not be permitted to occur in any of the time/area closures during the specific identified periods. Additionally, buffer zones around these time/area closures could potentially be included.

In addition to contemplating the same suite of standard and additional mitigation measures analyzed in the other action alternatives, Alternative 6 also includes specific additional mitigation measures that focus on the use of alternative technologies that have the potential to augment or replace traditional airgun-based seismic exploration activities in the future.

Although NMFS is not soliciting comments and information from the public at this time, the agencies will use the information submitted by the public on the Draft EIS to inform the content and analysis in the Supplemental Draft EIS. The public will then have the opportunity to comment on the Supplemental Draft EIS upon its publication. Additionally, the public will have the opportunity to comment on any applications received under the MMPA as part of this action.

Dated: January 24, 2013.

Helen M. Golde,

Acting Director, Office of Protected Resources, National Marine Fisheries Service.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648-XC471

New England Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; public meeting.

SUMMARY: The New England Fishery Management Council's (Council) Recreational Advisory Panel will meet to consider actions affecting New England fisheries in the exclusive economic zone (EEZ).

DATES: The meeting will be held on Friday, February 15, 2013 at 9:30 a.m.

ADDRESSES: The meeting will be held at the DoubleTree by Hilton Boston North Shore, 50 Ferncroft Road, Danvers, MA 01923.

Council address: New England Fishery Management Council, 50 Water Street, Mill 2, Newburyport, MA 01950.

FOR FURTHER INFORMATION CONTACT: Paul J. Howard, Executive Director, New England Fishery Management Council; telephone: (978) 465-0492.

SUPPLEMENTARY INFORMATION: The items of discussion in the committee's agenda are as follows:

The Recreational Advisory Panel (RAP) will meet to discuss recreational management measures for Gulf of Maine cod and Gulf of Maine haddock for fishing year 2013. Measures may need to be modified because of reduced quotas for these two stocks. The RAP will consider alternative management measures and may make recommendations for changes to account for these reductions. The RAP's advice will be provided to the New England Fishery Management Council and its Groundfish Oversight Committee. These two bodies may develop recommendations based on this

advice which will be forwarded to the National Marine Fisheries Service (NMFS) for consideration. Framework Adjustment 48, currently under review, may revise measures to allow changes to recreational management measures in advance of the fishing year in order to reduce the possibility of overages, or facilitate harvesting the recreational allocations. Subject to the final decision on this management measure that was proposed in Framework Adjustment 48, NMFS may adjust measures for fishing year 2013. Any changes would be announced as soon as possible. Other business may be discussed.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the Council's intent to take final action to address the emergency.

Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Paul J. Howard (see **ADDRESSES**) at least 5 days prior to the meeting date.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: January 25, 2013.

Tracey L. Thompson,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
