II. Summary of Errors

In the DATES section of the proposed rule, we established a closing date of the 30-day comment period as February 13, 2013. In this notice we are making a technical correction to the comment period, which now closes on February 21, 2013.

III. Waiver of Proposed Rulemaking

We ordinarily publish a notice of proposed rulemaking in the Federal Register to provide a period for public comment before the provisions of a rule take effect in accordance with section 553(b) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). However, we can waive this notice and comment procedure if the Secretary finds, for good cause, that the notice and comment process is impracticable, unnecessary, or contrary to the public interest, and incorporates a statement of the finding and the reasons therefore in the notice. This correction notice has the effect of extending the period for public comment that was initially established in the proposed rule published in the Federal Register on January 22, 2013 (78 FR 4594). This correction notice makes no changes to any of the substantive matters discussed in the proposed rule. Rather, this correction notice makes a technical correction to the date on which the period for public comment on the previously published proposed rule ends. This technical correction will not disadvantage any member of the public, and it is in the public interest to permit the full intended time period for comment. Therefore, we find it unnecessary to issue a notice of proposed rulemaking for this correction notice.

IV. Correction of Errors

In FR Doc. 2013–00659 of January 22, 2013 (78 FR 4594), make the following corrections:

In the DATES section, the date “February 13, 2013” is corrected to read “February 21, 2013”.
