**SUPPLEMENTARY INFORMATION**

**I. Abstract**

This collection of information is required by the provisions of the Patent Cooperation Treaty (PCT), which became operational in June 1978 and is administered by the International Bureau (IB) of the World Intellectual Property Organization (WIPO) in Geneva, Switzerland. The provisions of the PCT have been implemented by the United States in Part IV of Title 35 of the U.S. Code (Chapters 35-37) and Subpart C of Title 37 of the Code of Federal Regulations (37 CFR 1.401-1.499). The purpose of the PCT is to provide a standardized filing format and procedure that allows an applicant to seek protection for an invention in several countries by filing one international application in one location, in one language, and paying one initial set of fees.

The information in this collection is used by the public to submit a patent application under the PCT and by the United States Patent and Trademark Office (USPTO) to fulfill its obligation to process, search, and examine the application as directed by the treaty. The USPTO acts as the United States Receiving Office (RO/US) for international applications filed by residents and nationals of the United States. These applicants send most of their correspondence directly to the USPTO, but they may also file certain documents directly with the IB. The USPTO serves as an International Searching Authority (ISA) to perform searches and issues an international search report (ISR) and a written opinion on international applications. The USPTO also issues an international preliminary report on patentability (IPRP Chapter II) when acting as an International Preliminary Examining Authority (IPEA).

The USPTO is updating this information collection to reflect the current practice and fee structure for PCT applications entering the national stage at the USPTO. The USPTO is removing two items, extensions of time and priority documents, because the information is no longer being collected.

**II. Method of Collection**

By mail, hand delivery, or electronically to the USPTO.

**III. Data**

*OMB Number:* 0651-0021.

*Estimated Total Annual Respondent Burden Hours:* 348,686 hours.

*Estimated Total Annual Respondent Cost Burden:* \$129,362,506. The USPTO expects that the information in this collection will be prepared by attorneys at an estimated rate of \$371 per hour. Therefore, the USPTO estimates that the respondent cost burden for this collection will be approximately \$129,362,506 per year.

*Estimated Total Annual Non-hour Respondent Cost Burden: \$309,719,541.* This collection has annual (non-hour) costs in the form of translations, drawings, fees, and postage costs.

Under the terms of the PCT, the USPTO may require documents submitted for a PCT application to be translated into English when necessary. This requirement may carry additional costs for the applicant to contract for a translation of the documents in question. The USPTO believes that the average length of the documents to be translated will be 10 pages and that it will cost approximately \$150 per page for the translation, for an average translation cost of \$1,500 per document. The USPTO estimates that it receives approximately 21,180 English translations annually, for a total cost of \$31,770,000 per year for English translations of non-English language documents for PCT applications.

Applicants may also incur costs for drawings that are submitted as part of PCT applications. Some applicants may produce their own drawings, while others may contract out the work to various patent illustration firms. For the purpose of estimating burden for this collection, the USPTO will consider all applicants to have their drawings prepared by these firms. The USPTO estimates that drawings may cost an average of \$58 per sheet to produce and that on average 11 sheets of drawings are submitted per application, for an average total cost of \$638 to produce a set of drawings for an application. The USPTO expects that approximately 91% of the estimated 48,285 applications per year will have drawings filed with them, for a total of 43,939 sets of drawings with a total cost of \$28,033,082 per year.

The estimated filing fees for this collection are calculated in the accompanying table. The fees listed for

Requests and Demands represent an estimate of the average fees for filing the appropriate items associated with those requirements for an international application. The basic national fee under 37 CFR 1.492(a) for an international application entering the national stage is fixed at \$390 (\$195 for small entities). The search and examination fees under 37 CFR 1.492(b)–(c) vary depending on the outcome of the written opinion prepared by the ISA/US, the international preliminary examination report prepared by the IPEA/US, and other related factors as noted in the accompanying table. The basic national fee, search fee, examination fee as well as the fees for petitions to revive unavoidably or unintentionally abandoned international applications are discounted for small entities.

In addition to the filing fees listed in the table, applicants may also incur fees for late filings (for filing after thirty months from the priority date), multiple dependent claims, and lengthy applications. The fee for the late filing of a search fee, examination fee, or oath or declaration under 37 CFR 1.492(h) is \$130 for large entities and \$65 for small entities. The USPTO estimates that it will receive approximately 22,677 of these late payment fees for large entities and 9,331 for small entities per year, for a total of \$3,554,525. The fee for the late filing of an English translation of an international application under 37 CFR 1.492(i) is \$130. The USPTO estimates that it will receive approximately 2,118 of these late translation fees per year, for a total of \$275,340. The fee for applications containing a multiple dependent claim is \$460 for large entities and \$230 for small entities. The USPTO estimates that it will receive approximately 2,946 of these multiple dependent claim fees for large entities and 1,127 for small entities per year, for a total of \$1,614,370. Applications with specifications and drawings that exceed 100 pages may be subject to an application size fee of \$320 (or \$160 for small entities) for each additional 50 pages or fraction thereof. The USPTO estimates that it will receive approximately 2,047 of the \$320 size fees from large entities and approximately 831 of the \$160 size fees from small entities per year, for a total of \$788,000. The total estimated fees for this collection, including filing fees and other additional fees, will be approximately \$249,908,325 per year.

Customers may incur postage costs when submitting the information in this collection to the USPTO by mail. The USPTO estimates that the average first-class postage cost for a mailed submission will be 46 cents and that up to 17,683 submissions (approximately 5% of responses) will be mailed to the USPTO per year, for a total estimated postage cost of \$8,134 per year.

The total annual (non-hour) respondent cost burden for this collection associated with translations, drawings, fees, and postage is estimated to be \$309,719,541 per year.
